**Subject:** Director's Monthly Report to the Zero Waste Advisory Commission

#### **Multi-family Compost Pilot**

The Zero Waste Advisory Commission was briefed on a multifamily compost pilot in 2019. This pilot was originally intended to be conducted in the spring and summer of 2020 with the purpose of informing future policy direction, but was put on hold due to the ongoing pandemic.

Work continues on this project with the intent of launching a new pilot in 2021. Staff has contacted previously confirmed participant properties. Nine of the ten properties originally committed to the pilot have stated they remain interested in participating. Additional properties are being contacted in search of new participants to add to the total.

While funding for the project was identified in FY21 budget, it has recently come to staff's attention that the use of the Clean Community Fee to fund this pilot may not be an option moving forward. Staff is currently evaluating alternative funding sources necessary for this project to continue.

\*As prescribed in the Austin Resource Recovery Master Plan, the Department will conduct a detailed waste assessment study every five years to determine progress toward our Zero Waste goal. The first such study was published in 2015 and is titled Austin's 2015 Community Diversion Study. The study focused on estimating diversion from both ARR-serviced properties and commercial properties. Commercial properties include retail businesses, food service establishments, professional offices, industrial properties, institutional facilities, government facilities, and multifamily properties five units and larger. According to Austin's 2015 Community Diversion Study, Residential Waste Diversion Rate (city serviced accounts) represents approximately 15% and the Community Diversion Rate (accounts serviced by private waste haulers) represents approximately 85% of the total citywide wastage.

# Residential Waste Diversion (city serviced accounts)

Category of Waste Generation	CY 2017	CY 2018	CY 2019	
Commercial Tons Landfilled**	1,708,484	1,079,312	1,401,619	
Commercial Tons Recycled**	722,573	402,292	470,786	
Commercial Organics Tons**	97,173	80,906	102,215	

<sup>\*\*</sup> Numbers reported here are compiled from self-reported data submitted by licensed private waste haulers via semi-annual tonnage reports required under Section 15-6-3 of the City Code on a calendar year basis and as such, ARR does not attest to the accuracy of these amounts. These numbers reflect data from 100-200 licensed haulers (number of haulers varies over time), and include haulers servicing dumpsters, roll-offs, construction and demolition debris, landscaping debris, and metal scrap. These numbers do not reflect all data sources included in Austin's 2015 Community Diversion Study.
