Our historic home is next door to the proposed home and it would be built to block the view of the entire side of our 1926 property (currently their driveway is adjacent to our

home).

Here's a street view — the view that would be obstructed if project moves forward. Our house was built with the expectation of a driveway in between lots, and it's historic character would be diminished by building a new structure right on the eastern edge of property.

Dear Historic Landmark Commission,  
On behalf of the **Old Enfield Homeowners Association**, I am writing in **opposition** to the proposed project at **1517 Murray Lane** that is on your agenda this evening. This is a designated Contributing Structure to the Old West Austin National Register District and the proposed demoliton will change this status to Non-Contributing.  
The loss of yet another contributing property threatens the unique character of the District, and the legal standing of the Old West Austin NRHD.

Additionally, though architectural style may be outside of your scope of consideration the contemporary design of the proposed new structure would further hasten transition to a non historic neighborhood

Bill Dorman  
President, Old Enfield Homeowners Association  
Resident of 1505 West Lynn St.  
Retired custom home builder
