Comments: We support the proposed project including the addition of a pool. Most of the project is a sensitive treatment of the landmark structure and site that in many ways is a restoration rather than an addition. The new pool will not be visible from the street and the surrounding fence is historically appropriate in materials and design. It makes no permanent changes to the protected aspects of the house and in our view is completely compatible with both the historic nature of the home and the character of the neighborhood.
