CASE MANAGER Mark Graham (512-974-3574, [mark.graham@austintexas.gov](mailto:mark.graham@austintexas.gov) )

### STAFF RECOMMENDATION:

**The Staff recommendation is to grant multifamily residence low density (MF-2) district zoning.** *For a summary of the basis of staff's recommendation, see case manager comments on page 2.*

### ZONING AND PLATTING COMMISSION ACTION / RECOMMENDATION:

**September 21, 2021:**

**September 7, 2021:    *APPROVED A POSTPONEMENT REQUEST BY THE NEIGHBORHOOD TO SEPTEMBER 21, 2021, BY CONSENT. [H. SMITH; T. BRAY – 2<sup>ND</sup>] (10-0) N. BARRERA-RAMIREZ – NOT PRESENT FOR PASSAGE OF THE CONSENT AGENDA***

### CITY COUNCIL ACTION:

**September 30, 2021**

ORDINANCE NUMBER:

## ISSUES

The neighborhood has collected signatures on petitions to oppose the project as described in the application, with 30 residential units in two, or three-story buildings. The neighbors and applicant met and discussed a smaller project with 17 to 23 residences and site layouts and building heights that minimize impacts on adjacent properties. At the time of this writing the parties have not reached agreement. Staff has not received the original signatures on the petitions in order to calculate the percentage of landowners within 200 feet of the rezoning tract that oppose the rezoning. If the original signatures are received and calculated to be more than twenty percent, then the petition will be valid. If this occurs before the third reading at City Council, then the required votes will be three-fourths of the quorum for Council to approve the rezoning request.

## CASE MANAGER COMMENTS:

Applicant requests multifamily residence - low density (MF-2) district zoning to build 30 dwelling units on 1.48 acres (64,468 sq. ft.). The rezoning tract has frontage on and access to West Dittmar Road. The rezoning tract is located about 0.5 miles west of South 1<sup>st</sup> St. and almost a mile east of Menchaca Rd. The subject rezoning site is a few hundred feet east of the Dittmar Park and Recreation Center.

The rezoning tract was annexed into the City in November of 1984 with full jurisdiction. The site has two existing zone types: single family residence standard lot (SF-2) district zoning; and development reserve (DR) district zoning. For a buildable lot SF-2 zoning requires a minimum lot size of 5,750 square feet and allows 1 dwelling per lot. Building height in SF-2 is 2 stories and 35 feet. Buildings in MF-2 require a minimum of 8,000 square feet, and multiple dwellings can be built on a lot. Maximum density is 23 dwelling units per acre. The land area of the lot limits the number of dwellings based on the number of bedrooms:

Number of Bedrooms	Required land (square feet)
Efficiency	1,200
1	1,500
2 or more	1800

The applicant is proposing to build up to 30 dwelling units on 1.48 acres of land. One existing dwelling unit would be razed with development. Unit sizes, room counts, and affordability were not addressed in the application.

There is some variety in the neighborhood housing including detached manufactured and mobile homes in the MH zoning north of W. Dittmar Road which is next to SF-2 zoned neighborhoods with single family residences on standard lots. South of W Dittmar Rd., the neighborhood adjacent to the east has single family residence small lot – conditional overlay (SF-4A-CO) district zoning with detached 1 and 2 story residences. Minimum lot size is 3,600 square feet with one dwelling unit per lot. Housing density is about 12 dwelling units per acre. There are a

few small developments with MF-1 and MF-2 in the vicinity. One MF-1 development is at Dittmar Rd. and S. 1<sup>st</sup> St called Cooper Villas, built as townhome style, two story homes. Another example is a development north of W. Dittmar Rd. at S. Congress Ave. called Highmark. This example is more recent with 2018 construction in buildings of 2 to 4 dwellings all two story.

#### BASIS OF RECOMMENDATION:

The Staff recommendation is to grant the multifamily residence low density (MF-2) district zoning.

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

**Multifamily Residence (Low Density) district** is intended to accommodate multifamily use with a maximum density of up to 23 units per acre, depending on unit size. This district is appropriate for multifamily residential areas located near single-family neighborhoods, and in selected areas where low density multifamily use is desirable.

The applicant is proposing to develop multifamily residences at about 20 units per acre on the 1.48 acre rezoning tract. The total number of residential units proposed is 30. There are single family neighborhoods in the SF-4A zone district on adjoining properties to the south and east. There are also single family neighborhoods on MH and SF-2-CO zoned land across West Dittmar Rd.

2. *The proposed zoning should satisfy a real public need and not provide special privilege to the owner.*

Increasing housing choice and supporting housing that is more affordable are both housing goals. This location on W. Dittmar Rd. is in a neighborhood that has almost exclusively single family detached housing. The proposed 30 dwelling units would increase housing choice.

This is a good location for this kind of development. It has direct access to a level 2 street serving local mobility and is walkable with sidewalks along both sides of the street. W. Dittmar Rd is also bikeable with on-street paths striped on both sides. While there are no Dittmar bus stops, the CapMetro Trip Planner suggests the 12-minute walk to S. 1<sup>st</sup> Street and then a 26-minute ride on the #10 bus to One Texas Center. First Street is an Imagine Austin Activity Corridor that also provides good bus access into the Central Business District.

3. *Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*

Compatibility standards will apply so that there will be increased setbacks and vegetative buffer to the east and south. Building heights will be compatible with the adjacent one and two story homes and promote compatibility with adjacent and nearby uses.

EXISTING ZONING AND LAND USES:

	Zoning	Land Uses
Site	Tract 1: SF-2 & DR Tract 2: DR	Detached residence (to be razed)
North	( <i>across W. Dittmar Road</i> ) SF-2-CO & MH	Single family residences, Mobile home residences
South	SF-4A-CO	Single family residence small lot
East	SF-4A-CO	Single family residence small lot
West	LO, P	Church, Dittmar Park & Recreation Center

NEIGHBORHOOD PLANNING AREA: None

TIA: The Transportation Impact Analysis has been waived for the Zoning Application. The determination is deferred to the Site Plan Application, when land use and intensity will be finalized.

WATERSHED: South Boggy Creek - Suburban

OVERLAYS: None

OTHER STAFF COMMENTS:

Comprehensive Planning

The zoning case is situated on a 1.48 acre site, located on the south side of West Dittmar Road, which contains a house and is otherwise undeveloped. The property is not located within a small planning area and is located a half of a mile west of the **South First Street Activity Corridor**. Surrounding land uses include vacant land and a single-family subdivision to the north; to the south and east is a single-family subdivision; to the west is a church and the Dittmar Recreation Center and District Park. Approximately 500 feet south is the South Boggy Creek Greenbelt. The proposal is to obtain a multifamily zoning designation and construct a multifamily project at a density of 20 units per acre.

**Connectivity**

Both sides of West Dittmar Road have public sidewalks and unprotected bike lanes. There is no public transit stop located within a half mile from the subject property. Mobility and connectivity options are fair within a quarter of a mile from the property with the presence of public sidewalks, unprotected bike lanes and a district park and recreation center.

**Imagine Austin.**

The property is located approximately one half of a mile from an **Activity Corridor**. Activity Corridors are intended to allow people to reside, work, shop, access services, people watch, recreate, and hang out without traveling far distances.

The following Imagine Austin policies are also applicable to this case:

- **LUT P5.** Create healthy and family-friendly communities through development that includes a mix of land uses and housing types and affords realistic opportunities **for transit, bicycle, and pedestrian travel** and provides both community gathering spaces, parks and safe outdoor play areas for children.
- **HN P1.** Distribute a variety of housing types throughout the City to expand the choices able to meet the financial and lifestyle needs of Austin’s diverse population.
- **HN P10.** Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and **access to schools, retail, employment, community services, and parks and recreation options.**

Based upon:

- Dittmar Road acting as a local arterial corridor with some civic and mobility options available in the area;
- The opportunity to expand housing choice, which is supported by Imagine Austin and the Strategic Housing Blueprint;
- but the area lacking of goods and services and public transit within a quarter mile radius, this proposal partially supports the policies of the Imagine Austin Comprehensive Plan.

#### Environmental

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is in the South Boggy Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.
2. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

5. At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

#### Park and Recreation:

PR1: Parkland dedication will be required for the new residential units proposed by this development, multifamily with MF-2 zoning, at the time of subdivision or site plan, per City Code § 25-1-601. Whether the requirement shall be met with fees in-lieu or dedicated land will be determined using the criteria in City Code Title 25, Article 14, as amended. Should fees in-lieu be required, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: [thomas.rowlinson@austintexas.gov](mailto:thomas.rowlinson@austintexas.gov). At the applicant's request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

#### Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

- SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.
- SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

#### **Compatibility Standards**

- SP 4. The site is subject to compatibility standards. Along the eastern and southern property lines, the following standards apply:
- No structure may be built within 25 feet of the property line.
  - No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of property zoned SF-5 or more restrictive.
  - No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
  - No parking or driveways are allowed within 25 feet of the property line.

- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, height limitation is 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property line.
- For a structure more than 300 feet but not more than 540 feet from property zoned SF-5 or more restrictive, 60 feet plus one foot for each four feet of distance in excess of 300 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

### **Zoning**

SP 5. MF-2 zoning has density limits and will need to comply with 25-2-561 unless site is participating in Affordability Unlocked.

### **Transportation**

The Austin Strategic Mobility Plan (ASMP), adopted 04/11/2019, calls for 84 feet of right-of-way for Dittmar Road. It is recommended that 42 feet of right-of-way from the existing centerline should be dedicated for Dittmar Road.

Assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multi-modal improvements, will occur at the time of site plan/subdivision application. A traffic impact analysis shall be required at the time of site plan if triggered per LDC 25-6-113.

<b>Name</b>	<b>Existing ROW</b>	<b>ASMP Required ROW</b>	<b>Pavement</b>	<b>ASMP Classification</b>	<b>Sidewalks</b>	<b>Bicycle Route</b>	<b>Capital Metro (within ¼ mile)</b>
Dittmar Road	~83'-88'	84'	46'	2	Yes	Yes	No

### Austin Water Utility

AW1. The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

## B-6 PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:  
[www.austintexas.gov/planning](http://www.austintexas.gov/planning).

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: Hello, we object to this under  
the reasoning of multi-family homes  
being built in this area very quickly.  
There are many being built now and  
very soon we will have ~~no~~ more green space!  
We prefer to see more single family homes  
similar to ours. Thank you for your  
time.

\*\*\* External Email - Exercise Caution \*\*\*

Dear Mr. Graham,

I am writing to rebut the claims made in the staff recommendations on the above case. I recognize the need for more affordable housing in Austin and would welcome a project like this along a transit corridor or within the urban core. However, the property is over ½ mile from the nearest transit corridor and not close to any schools, shops, services or other amenities.

The owner proposes to build 30 up to 4 story units on 1.48 acres. In discussions with the neighborhood, he said these are likely to be 2 and 3 bedroom row-house style condominiums in two buildings. He requests a zoning change from what was SF-2 and DR (which was used as SF-2).

The proposed zoning change does not satisfy the public need for affordable housing. The owner is seeking density that is incompatible with neighbors so that he can maximize the return on his investment. A change in zoning will provide special privilege to the owner while negatively impacting existing neighbors.

The project does not add to housing choice. There are plenty of condos and smaller homes already in this area. There are currently over 200 condo style homes going in further west on Dittmar. And there is a condo development across the street. The owner representative stated that NO affordable units are planned. Please explain how this adds to housing choice.

The zoning is incompatible with surrounding areas, which are generally SF and MH. None of the zoning cases cited allow such an extreme change. The adjacent SF-4 zoning is on small lots. The proposed MF zoning will bring 3 times that density to the area. Cramming a four story, 2 building condo development (along with an estimated 60 vehicles) in the middle of the neighborhood just doesn't make sense. Again, it would if it were near an Activity Corridor with schools, amenities and public transport nearby. This is not the case. The wonderful Dittmar Rec Center and pool are about it. I would love to see Austin develop and stick to plans like Imagine Austin. Instead I see no proactive planning, just responding positively to anything a developer requests while penalizing existing residents.

I would also like the Case Manager and builder to be aware that there are already problems with pluvial flooding of the adjacent properties on Latteridge.

Thank you, Ruth Lauer

## PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:  
[www.austintexas.gov/planning](http://www.austintexas.gov/planning).

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Case Number: C14-2021-0119  
Contact: Mark Graham, 512-974-3574  
Public Hearing: September 07, 2021, Zoning and Platting Commission

Comments: There is already a large construction project at 1302 W Dittmar. Dittmar rd already backs up at 1st street and the 1302 development will stress it further. The proposal reclassification of the lot for C14-2021-0119 will make Dittmar even more congested and unsafe.

\*\*\* External Email - Exercise Caution \*\*\*

I, Lauren Shelton, OBJECT to the rezoning application for the addresses 911 & 915 W Dittmar Rd.

As a resident/homeowner at 8104 Huddleston Ln this lot shares a property line with mine. The rezoning of this property for a multi-residential building project would negatively impact the traffic, noise-level, watershed, wildlife habitat, and my personal property's tax and privacy and for these reasons, I am strongly opposed to the application for rezoning.

Thank you,  
Lauren Shelton
