

HISTORIC LANDMARK COMMISSION
APPLICATION FOR A DEMOLITION PERMIT IN A NATIONAL REGISTER HISTORIC DISTRICT
SEPTEMBER 27, 2021
PR-21-113815
WILLOW-SPENCE NATIONAL REGISTER HISTORIC DISTRICT
82 SAN MARCOS STREET

PROPOSAL

Demolish two ca. 1941 houses.

ARCHITECTURE

Two one-story, rectangular-plan, side-gabled, frame cottages on the same lot. The houses have a central entry topped with a front-gabled entry hood; paired 1:1 fenestration, some with decorative 3:1 wood screens.

RESEARCH

There is a building permit in city records evidencing construction of these houses in 1941; the Sanborn map of 1935 shows different houses on this site, and the 1962 Sanborn map shows the current houses. The 1941 building permits reflect construction by Louis Bonugli, who operated a neighborhood grocery store just a block from this site, and who invested in neighborhood real estate. Bonugli and his family lived at 80 San Marcos intermittently in the late 1940s and early 1950s, but in other years, the family is listed at their grocery store 78 San Marcos, likely to earn additional income from renting the house at 80 San Marcos.

The house at 82 San Marcos was built as a rental unit. The house at 82 San Marcos was home to only two families during much of the historic period, one of whom lived in an earlier house on this site. The first residents of the house were Willie L. and Allie Smith, who lived here until around 1943, and had lived in the earlier house on this site since the early 1930s. Willie Smith was an auto mechanic. Raymond and Angie Miller moved into the house around 1943 and rented the house until around 1950. Raymond Miller was taxi driver who later opened his own filling station while living in this house. Angie Miller worked at Woolworth's a downtown discount department store.

PROPERTY EVALUATION

The houses are listed as non-contributing to the Willow Spence National Register Historic District, but staff questions that determination, as they are intact examples of vernacular residential design that would be contributing to the historic district if evaluated today. The Willow-Spence National Register Historic District was nominated in 1985, when the houses would not have qualified under the 50-year threshold; the district nomination does not shed any light on the justification for the determination.

Designation Criteria—Historic Landmark

- 1) The buildings are more than 50 years old.
- 2) The buildings appear to retain high integrity.
- 3) Properties must meet two criteria for landmark designation (LDC §25-2-352). Staff has evaluated the property and determined that while the houses would meet the criterion for architectural significance, there does not appear to be justification for determining that they reflect historical significance.
 - a. Architecture. The buildings are good examples of wood-frame residential construction and retains a very high degree of integrity.
 - b. Historical association. The property was associated with Louis Bonugli, who operated a neighborhood grocery store just a block from this site, and who invested in neighborhood real estate. Bonugli lived in the house only intermittently. There do not appear to be significant historical associations.
 - c. Archaeology. The property was not evaluated for its potential to yield significant data concerning the human history or prehistory of the region.
 - d. Community value. The property does not possess a unique location, physical characteristic, or significant feature that contributes to the character, image, or cultural identity of the city, the neighborhood, or a particular demographic group.
 - e. Landscape feature. The property is not a significant natural or designed landscape with artistic, aesthetic, cultural, or historical value to the city.

STAFF RECOMMENDATION

Encourage rehabilitation and adaptive reuse, then relocation over demolition, but release the permit upon review of the plans for new construction by the applicant and completion of a City of Austin Documentation Package, consisting of 8 x 10” photographs of all elevations printed on photographic paper, a dimensioned sketch plan, and a narrative history for archiving at the Austin History Center.
