Sergio: You made the most important change regarding the garage, for which we are grateful. The windows will work and adding stone massing to the front window area does make it look better.

We don't have any other issues and wish you well when you go to the City HLC, etc. Thanks for your wonderful cooperation and for meeting with Linda and me and for understanding our positions from a neighborhood point of view. Best wishes on this project. Bill

Sure. Thanks for your feedback and guidance.

In terms of approval process, is there anything we need to be aware before submitting for permit?

Thanks Bill

The window over the garage got increased in width during the meeting we had together. That's what we've represented. We showed to them the 3-window option and the sloped roof over the front extended window we discussed over our meeting, but they were not into it. We did add stone material to that volume thought.

We also added a window over the small volume of the front. Like the one over the garage, see below:

Sergio: Just ignore that last email. I was forwarding it to our HistRevComm group and something went wrong.

But, I do have some questions after looking at the plans you attached:

1. I thought a slightly pitched roof over the front extended window area was going to be added
2. And a couple of windows over the garage instead of the single, narrow window.

Were the owners not interested in those? Thanks, Bill

Bill,

The text on the email you just sent didn't come through. Could you please resend?

Also, the historic Review email you cc'd got rejected when I replied. See screen shot below:

Hi Bill,

Hoping you're having a good beginning of the week; we're attaching the latest and greatest on the project.

We're getting ready to submit for permit as soon as we receive structural information from engineers.

How does the approval process work with the BWHRC? Is that something that the city forward to you after submittal?

Thanks for reaching out and let us know if you have any questions.

Best,

Hi, Sergio: We are checking back with you to see if you've completed the revised plans for this location? We'd appreciate hearing from you and a copy of any revised plans you've made. Thank you.
