Any and all representations and warranties, express or implied, legal, statutory, conventional or otherwise with respect to the Products (including, implied warranties as to merchantability or fitness for a particular purpose), whether pursuant to the Sale of Goods Act of any province or otherwise, are hereby expressly excluded and disclaimed.

Limitation of Liability

Any liability for indirect, special, exemplary, punitive, consequential or incidental damages is expressly disclaimed by Acklands-Grainger. Acklands-Grainger's liability in all events for all damages, losses and causes of action (whether in contract, tort or otherwise) shall be limited in the aggregate to, and shall not exceed, the purchase price paid by the Buyer for the Product in question.

Hazardous Materials Information

For the information of Buyers, Acklands-Grainger has obtained Material Safety Data Sheets ("MSDS") for all "controlled products" within the meaning of the Hazardous Products Act (Canada) and the Controlled Products Regulations made under that Act, in respect of Products offered for sale by Acklands-Grainger. The MSDS in question conform with the requirements of

provincial occupational health and safety legislation which regulates "hazardous material" and the applicable Workplace Hazardous Materials Information Systems Regulations made thereunder. Such MSDS are available at your local Acklands-Grainger branch and will be provided to the Buyer of any such Product at the time of sale. The information and recommendations contained in the applicable MSDS supplied/prepared by the manufacturer are considered to be accurate and reliable. However, Acklands-Grainger makes no warranty with respect to the accuracy or reliability of the information or the suitability of the recommendations. Manufacturers' Warranties and Sales Literature

Most of the Products listed in Acklands-Grainger's catalogues are warranted to the end users by their manufacturer. As applicable, such warranties may supersede or exclude other stated warranties. Copies of such warranties are supplied with the Product or are available from the manufacturer. As a service, Acklands-Grainger will obtain copies of warranties from the warrantor and will furnish them free of charge to customers who request them. Address requests to: 90 West Beaver Creek Road, Richmond Hill, Ontario L4B 1E7. Requests must include the Acklands-Grainger order number and the manufacturer and model number of each Product for which a copy of the warranty is requested. Acklands-Grainger may also furnish sales brochures and other literature of the manufacturer. Acklands-Grainger assumes no responsibility for such warranties or sales literature by performing this service.

-
- Do your warranties cover all products, parts, and labor?
All warranties cover all products/equipment parts. Grainger North America doesn't provide labor, unless manufacturer's warranty covers labor.
 - Do your warranties impose usage restrictions or other limitations that adversely affect coverage?
Grainger North America shall have no liability for, and expressly disclaims any warranty, express or implied, including (i) the implied warranties of merchantability and fitness for a particular purpose and (ii) any warranty or affirmation of fact related to misuse, improper selection, recommendation, or misapplication of any product.
 - Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?
This is not applicable because Grainger North America is a distributor, not a manufacturer, and therefore does not have technicians on staff that perform warranty work on products sold.
 - Are there any geographic regions of the United States for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell Members in these regions be provided service for warranty repair?
Grainger North America, as nationwide distributors of Maintenance, Repair and Operations products, generally will not be the manufacturer and service provider for the majority of the products offered pursuant to the awarded contract. Upon request, the manufacturer of a given product will address the geographic availability of a warranty repair technician.
 - Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?
Many of the Products listed in Grainger North America's General Catalogs are warranted by the manufacturer to the final user. Upon request by Buyer, as a service for the Term of this Agreement, Grainger North America will obtain copies of manufacturers' consumer warranties and will furnish them free of charge to Buyer. Such requests must include the Grainger's stock number and the manufacturer's model number (if shown) of each Product for which a copy of the warranty is requested. Grainger may also furnish sales brochures and other literature of the manufacturer. Grainger North America assumes no responsibility for the content or coverage contained in any manufacturer's warranty or sales literature by providing this service.

- What are your proposed exchange and return programs and policies?

Grainger US Exchange and Return Policy: Returns for Grainger catalog products can be made up to one (1) year from the date of purchase. Returned product must be in original packaging, unused, undamaged and in saleable condition. Proof of purchase is required. Grainger will either replace the product or issue a credit for the purchase price.

Grainger Canadian Exchange and Return Policy: Any cancellation or return must be approved by Acklands-Grainger (at its discretion), be accompanied by proof of purchase, and may be subject to restocking or other charges. Any returns due to shipping errors, damage or loss must be reported to Acklands-Grainger immediately. For returns not related to damage or loss during shipping, product must be returned within 30 days of shipment and be in original package and re-saleable condition. Returns can be made to Acklands-Grainger; however, Acklands-Grainger will only accept returns on products purchased through Acklands-Grainger. Returns of custom sourced products may not be permitted.

- 6) Describe any service contract options for the items included in your proposal (“on call”, retainer, etc.).

In addition to our product line offering, Grainger North America offers select service contracts either directly or via our supplier/manufacturer network, in support of our product offering. Grainger North America will work with Members to review and assess which service opportunity is best suited to satisfy the Member’s operational needs.

Pricing, Delivery, Audits, and Administrative Fee

- 7) Provide a general narrative description of the equipment/products and related services you are offering in your proposal.

Grainger’s proposal encompasses its entire catalog of 1.7 million MRO products and services and the expertise of Grainger employees. It captures the routine to specialized MRO product or service; it is supplemented by sourcing proficiency. Products categories include: material handling equipment, safety and security supplies, lighting and electrical products, power and hand tools, HVAC equipment, garden tools and equipment, pumps and plumbing supplies, cleaning and maintenance supplies, metalworking tools and the remainder of Grainger’s catalog offering.

Services include inventory management solutions, installation, assembly, consulting services and other relevant offerings. The offering evolves continually to meet changing customer requirements. Our technical expertise assists agency operations and compliance responsibilities. Grainger’s proposal is as much in providing quality MRO product and services as being a meaningful resource to drive agency productivity. We will assist members in the large and small emergency incident, where our pricing remains as provided in our contract..

- 8) Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. (Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract. See the body of the RFP and the Price and Product Change Request Form for more detail.)

Grainger North America’s pricing model for Sourcewell Members is robust and multi-faceted, offering numerous cost savings opportunities:

- **Category Discounts**
- **North American Market Basket**
- **Member Market Basket**
- **General Catalog Discounts**
- **Large Order And Volume Discounts**
- **Customer Specific Pricing (CSP)**

Category Discounts: Our North American offer encompasses significant discounting across 21 MRO categories. These category discounts are applied to Grainger North America's Contract Reference Price (CRP). Introduced in 2017, CRP is the new product pricing basis for contract customers. CRP is market-based and lower than our historic List Price and thus makes more products attractively priced and simplifies the purchasing process. CRP is stable and only subject to change three times per year. Because CRP is lower than Grainger North America's prior List Price, contract category discounts are also lower. It is therefore important to compare the "final" product prices, as a larger discount percentage offered by a competitor may not yield a lower final product price.

For Sourcewell Members, CRP is found on Grainger.com and Acklands-Grainger.com when Members log into their account. The CRP at the time of purchase will be the price to which any contract discounts will be applied. The offered category discounts are fixed through the life of the contract across 21 MRO categories.

North American Market Basket: Grainger North America, through decades of serving government customers, has captured purchasing data reflecting current and relevant product needs to compile its Market Basket offer. Grainger North America presents the attached North American Market Basket to all US and Canada Sourcewell Members. The offer is comprised of the highest volume and most frequently purchased products by a broad mix of government agencies.

Grainger North America analyzed usage and procurement data from its largest states, provinces, education and non-profit customers from across North America and combined it with all Sourcewell Member prior 12 month purchasing analytics. Data points such as the number of times an item was purchased, when and how often, how

many individual agencies purchased the item, including those items added into an inventory management solution, were scrutinized to prepare the Market Basket.

The North American Market Basket pricing is aggressive and will be held firm for 12 months.

Additionally, product identified in our proposed Market Basket represents an intentional effort to include a significant number of items identified as:

- Sustainable and Green Certified
- Grainger Choice or “house brand” lower cost substitutes
- Safety focused products

To keep the Market Basket meaningful throughout the life of this contract, Grainger North America will evaluate the product selection and update it each year to ensure relevant product selections.

Member Market Baskets: In addition to the Grainger North America Market Basket, we offer the ability for each Member to create a custom market basket of up to 250 items. To drive additional cost savings while enhancing procurement stability, Members can select a custom market basket consisting of products the individual Member most frequently procures. The Grainger North America Sales team will work with Member’s seeking to consolidate, standardize and to identify a product list and price.

General Catalog Discounting: Grainger recognizes the operational importance to provide members access to MRO items that fall outside the market basket which may not be aligned to a category. **North America Grainger provides a 5% discount off of CRP on products that fall outside market baskets and defined category discounts.**

Large Order and Volume Discounts: Grainger has years of experience working with Sourcewell Members on individual projects and discounted pricing. Grainger North America will continue to work with Sourcewell Members to leverage additional discounts for large, single orders, based on size and scope.

Customer Specific Pricing (CSP): Grainger North America recognizes the importance of providing Members with relevant pricing for specific products in special circumstances. Deeper discounted pricing can be sought in the form of Customer Specific Pricing (CSP) as it relates to specific opportunities.

Grainger North America reserves the right to adjust pricing to reflect market conditions, as provided in Section 11 (Sourcewell’s Vendor Price & Product Change Form, referenced in RFP #121218). These adjustments may include unforeseen significant increases in supplier’s costs resulting from changes in laws or regulations, impositions of tariffs, currency fluctuations, increases in commodity prices, or other changes in conditions not reasonably foreseeable to Grainger North America.

◀Emergency Response Inventory and Distribution

A critical element of Grainger North America's distribution capability is assisting emergency response for the small and large incident. Expeditious and quality response in real time entails internal planning and preparation. In an emergency, Grainger North America's Crisis Management Team first assesses the condition of Grainger branches and facilities to make sure they are available to distribute product. Frequently a pre-determined product list, coordinated with local emergency response agencies, is used to move supplies to the affected area. If additional products are required, Grainger North America moves products to the area from its 280 branch network and 17 regional Distribution Centers or directly from product suppliers.

A critical element in Grainger North America's expeditious response is its breadth of inventory, relationship with suppliers, capability to determine where inventory is located, and its transportation proficiency, personnel with expertise and experience and long term relationships with state, local and federal agencies.

In severe emergency situations, Grainger works with First Responders to make sure they have priority access whether from Grainger or the product manufacturers. The Crisis Management Team and Grainger on-scene leadership works with emergency management agencies and others to ensure appropriate and fair distribution.

- 17) Please specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell Members obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell.

Grainger North America takes contract compliance very seriously. Understanding the processes and related system functionality required to operationalize the terms of the contract is crucial to fully adhering and complying with all contractual provisions. Grainger North America knows this well and is experienced in ensuring its processes and systems are designed to drive contract compliance, including pricing compliance and administrative fee payments.

Grainger North America's approach includes people, processes and systems. The starting point is the Member's account number to which pricing is linked. Pricing is linked at the inception of the Sourcewell contract for previously aligned Sourcewell Members and for any new Member requesting to participate on the Sourcewell contract. We do much more to ensure that accurate contract pricing is continually delivered to Sourcewell Members. Monthly pricing reviews are performed ensuring each Sourcewell Member receives valid contract pricing. If there are any inconsistencies, we ensure adjustments are made and the Member is credited.

24) Please rank the top 3 market segments where your company provides products & services:

- a) Facilities MRO (Maintenance Repair & Operations)
- b) Industrial Supplies
- c) Tools & Equipment/Accessories
- d) Electrical Power Transmission & Supplies
- e) Mechanical Power Transmission
- f) Pneumatics/ Fluid Power
- g) Electrical and Lighting Products & Services
- h) Plumbing Supplies & Waterworks
- i) Construction & Building Supplies

Facilities MRO, Electrical and Lighting Products & Services and Industrial Supplies are likely our top 3 segments as noted on the list. Grainger's strategy is to distribute the broadest line of MRO products and service categories and anything related to small, medium and large commercial, government and institutional customers. Critical to our approach is an offering of scale and breadth encompassing each segment noted. We compete directly and emphatically with specialized distributors and manufacturers in power and mechanical transmission, pneumatics, electrical, lighting, plumbing, and facilities maintenance. We offer extensive product choice in the construction and building supply segment; we do not generally offer lumber, brick, stone or gravel. Grainger's sourcing reach is in further support of the strategy to provide comprehensive choice across all categories.

Our experience is that while prominent purchases are found in a particular segment such as Facilities MRO, Electrical and Lighting Products & Services and Industrial Supplies, Grainger North America's offering is spread across all categories. This strategy is built around customers that examine the acquisition process and quantify values, particularly price, time and compliance. We purposely pursue customers who understand the total costs of acquisition and maintaining inventory and embrace meaningful effort to control it. Individual bidding, trips outside the workplace to purchase, inadequate records and compliance and inefficient return and credit processes have identifiable and huge costs. In offering broad choice across all categories, our goal is to exceed the expectation throughout an organization- from purchasing to end user to audit/compliance.

25) Describe your market share, depth, and breadth of products and services offered within each of the following categories you currently provide to your government, education & non-profit customers:

- a) Facilities MRO (Maintenance Repair & Operations)
- b) Industrial Supplies
- c) Tools & Equipment/Accessories
- d) Electrical Power Transmission & Supplies
- e) Mechanical Power Transmission
- f) Pneumatics/ Fluid Power
- g) Electrical and Lighting Products & Services
- h) Plumbing Supplies & Waterworks
- i) Construction & Building Supplies

Grainger estimates the US market for MRO products to be approximately \$127 billion in 2017, of which our US business share is approximately 6%. Canada's market for MRO products was approximately \$11 billion, of which our Canada business share is approximately 7%. Our experience in the government sector is that our market share is slightly higher, in some jurisdictions approaching 10% and beyond where supply chain expertise and efficiencies are critical to provide product and services across long distances. In the government, education and non-profit sectors we deliver broad scale and deep depth across all product and service categories. Our objective is to meet all agency MRO requirements.

Grainger's 1.7 million products and services are purchased by government, education and non-profit customers similar to Sourcewell members daily. Our customers in this sector have access to more than 9,700 motors (DC, HVAC, pump, AC definitive purpose and general) and the replacement parts and supplies associated with each. Our waterworks offering serves public and private utilities, reservoirs, filtering plants, irrigation systems and sewer and treatment facilities throughout North America. The electric and lighting offering includes 651 ballasts, 3,600 bulbs and lamps, 4,600 fixtures and the parallel replacement parts. In the printed catalog, Grainger's industrial safety product line approaches 1,000 pages. In each category Sourcewell references, products are in-stock and ready to ship to arrive the next day. Grainger's manufacturers and supplier relationships and supply chain capability assures that product arrives where and when it is needed, particularly in emergency circumstances. The offering evolves continually to meet changing customer requirements.

We provide these products through Grainger sales representatives, catalogs, eCommerce, inventory management and local branches. This combination of product breadth, local availability, speed of delivery, detailed product information and competitively priced products and services applies across all categories. Our technical expertise assists customer purchasing decisions, including advice to improve agency operations. Grainger compliance protocols reflect the standards associated with government agencies. The breadth of our product and service line, and the expertise of Grainger employees, is the foundation of our proposal to Sourcewell members in the government, education and non-profit sectors
