48. DISPUTE RESOLUTION:

- A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. **CITY OF AUSTIN
SCOPE OF WORK
TRASH AND RECYCLING RECEPTACLES FOR DOWNTOWN
SOLICITATION NUMBER: IFB 1500 SLW1017**

1.0 PURPOSE

The City of Austin ("City") seeks Contractors qualified to provide trash and recycling containers ("Receptacles") that match current receptacles in the downtown Austin area. The City seeks to order Receptacles for trash and recycling on an as-needed basis. The City may also order, on an as-needed basis, similar Receptacles for composting organics. This scope of work ("SOW") establishes the minimum requirements for these services. The Contractor shall provide products and services as described herein.

The Contract will be utilized by Austin Resource Recovery ("ARR"). The City reserves the right to allow other City departments to utilize the Contract.

2.0 BACKGROUND

The Great Streets Master Plan ("Plan") is a citywide vision developed to improve the quality of downtown streets and sidewalks, aiming ultimately to transform public rights-of-way into great public spaces and establish a set of standards and values for the greater downtown area. One of the many objectives within the plan is to provide a network of streets and areas that would accommodate pedestrian traffic and outdoor activities and integrate them with vehicle traffic. The Plan also specifies a required consistent look and style of four components located in the downtown area: benches, light posts, bike racks, and Receptacles. To maintain integrity and performance specifications, all Receptacles must adhere to size, design, and color standards, and they must match the components already located in the downtown area. Currently, the City estimates it may purchase 50 Receptacles annually.

To learn more about the Great Streets Master Plan you can visit the site below:

<http://www.austintexas.gov/departments/great-streets-program>

Also, the Great Streets information packet can be found here:

<http://www.austintexas.gov/sites/default/files/files/GSDPInfopacket1.pdf>

**ADDENDUM
TRASH AND RECYCLING RECEPTACLES FOR DOWNTOWN
CITY OF AUSTIN, TEXAS**

Solicitation: IFB 1500 SLW1017

Addendum No: 1

Date of Addendum: 3/6/2019

This addendum is to incorporate the following changes to the above referenced solicitation:

I. Questions and Answers:

Q1: For the appearance, it states the City wants the frames to be aluminum, stainless steel, or galvanized steel. What portions do you require this for? Does "frame" mean the entire receptacle minus the liner? Will you accept steel with a powder coating? Or do the materials have to be aluminum, stainless steel, or galvanized steel prior to powder-coating?

A1: The second sentence in Section 0500 Scope of Work, 3.1.2(A) also states the frame could be steel. "Frame" is meant to indicate the entire receptacle minus the plastic liner. Section 0500 Scope of Work states that steel must have a rust-prohibitive coating, zinc epoxy primer, and powder coat finish for superior corrosion resistance. The materials do not solely have to be aluminum, stainless steel, or galvanized steel prior to powder coating.

Q2: Do you have a photo available of your current receptacles? Specifically, the split/dual receptacles showing the divider plate in the dome as well as showing the flat horizontal top portion on which the dome sits with the two halves being different colors.

A2: We will not provide photos of existing receptacles.

Q3: Do you have more information on the specification that the surfaces must be pretreated with graffiti preventer? Would a graffiti resistant powder coat meet the specifications?

A3: If the graffiti resistant powder coat prevents the absorption of graffiti, it would meet the criteria of Section 0500 Scope of Work 3.1.4 (C).
