RE: 800 Bouldin Avenue 78704

TO: Board of Adjustment

I/we own a residence in close proximity to the referenced property. I/we have no objection to the owners' request for a variance from the height restrictions to allow their elevator to access the roof. This variance will not affect our property, or impede our view, and will assist the owners in their goal of enjoying reasonable use of their property and comfortably remaining in their home for the foreseeable future. I/we urge the Board to grant the homeowners' request for the variance.
