INTRODUCTION

The property at 4507 North Interstate 35 is uniquely situated at the I-35 split and is surrounded by several trees.

LAND DEVELOPMENT CODE

Relevant Code:

§25-10-123 (Expressway Corridor Sign Districts) (B)(2)(b)(i) and §25-10-123 (B)(3)(a) which regulate the sign area and sign height, respectively.

4507 N IH 35 SVRD Case Number: C16-2022-0004 Page 3 of 27

VARIANCE FINDINGS

First:

The existing sign is blocked from view by large trees, many of which are over 35 feet high. These trees are either on neighboring properties or city property; therefore, petitioner has no control over those trees. We would also like to preserve trees on the 4507 property to the fullest extent possible. The proximity to the I-35 split also causes visibility issues.

VARIANCE FINDINGS

Second:

The granting of these variances will not have a substantially adverse impact upon neighboring properties as our assessment is that continued development of 4507 provides a benefit to the neighborhood through crime reduction, continued investment, and improvement of a previously abandoned property. Additionally, the LED sign is equipped with two photocells that ensure that the sign adjusts to ambient lighting conditions. This feature preserves ambient lighting conditions, whereas a traditional cabinet sign uses a light that is on a single fixed setting. These safeguards prevent any type of light pollution.

RE: 4507 N Interstate 35 Austin, TX 78722-100

Dear Board of Adjustment:

As a neighbor of Tony Nguyen's office and Apple Tree Holdings, which are both located at 4507 N Interstate 35, my business was presented with a plan regarding the construction of a new sign.

The proposed sign would be higher than 35 feet, and its face would be approximately 250 square feet in size. A rendering is attached to this letter.

I, as founder at Copernicus STEM Academy, have no objections to this proposed sign and its construction. My business supports economic growth in this neighborhood, and we are happy with our new neighbors, Tony Nguyen and Apple Tree Holdings.

Attachment: Sign Rendering

LETTER IN SUPPORT

Our neighbor, Copernicus STEM Academy, signed a letter in support of the sign variance. Originally, the concept was for a 240 square foot sign, and this larger design was supported by our neighbor.

VARIANCE FINDINGS

Third:

The proposed remodel of the sign is consistent with the character of the expressway corridor sign district. Many professional offices, restaurants, and other types of businesses use signs that are very similar to the proposed remodel.
