MR. JIM BOSWELL, Chamber of Commerce, appeared before the Council asking it to reconsider their request to bring in a carnival in conjunction with their livestock show. He had met with the Chief of Police, and he had told them if a Chamber of Commerce Committee and his office could screen the activities, he could see no objections to the carnival. Mr. Boswell pointed out that their budget had been set up with the view of having the carnival. Councilman Bechtol stated he was opposed to the idea of a carnival because of the class of people it attracted, and that it would not attract the crowd that the Livestock people would want. He suggested that if the Council granted permission this year, with the understanding that next year there would be nothing but rides, that families would be attracted and people who would be going to the livestock show. Mr. Boswell stated he would recommend this to the Livestock Board. Mayor Miller stated if there were gambling, the show would be closed down. After discussion, Councilman Palmer moved that the AUSTIN LIVESTOCK SHOW be granted permission to hold this carnival in connection with their show, and that it be policed properly by Chief Miles and the Livestock Committee. RECESSED MEETING

2:00 P.M.

At 2:00 P.M. the Council resumed its business.

The City Manager submitted a list of projects which the water and sewer Departments had scheduled during the next few years, along with an analysis by Mr. Davis and Mr. Ullrich on which could be handled by their engineers, and on which would be necessary to be designed by outside engineers. He recommended certain consulting engineers to design certain projects. After detailed discussion, the Council suggested that the City Manager go ahead as recommended and agreed to, to divide the various projects as follows:

Design of Treatment Plants at Williamson Creek Valley and Walnut Creek (oxidation plant at this time) - MARVIN TURNER ENGINEERS - Projects costs - \$1,307,000.

Williamson Creek sewer line and lift station - JULIAN MONTGOMERY, who is to associate himself with other outstanding engineering firms so as to complete the work as soon as possible - \$384,000 and \$98,000.

Walnut Creek Sewer line - unassigned at this time.

South Austin Outfall Main on south bank of the river - MARVIN TURNER ENGINEERS (already assigned) Project cost, \$1,227,000.

Sanitary sewer and water lines - ISOM HALE, on the basis of \$1,000,000 of work for the next five years, or an adjustment in his fee. \$100-150,000.

Design for the Missouri Pacific Boulevard - W. C. COTTON subject to approval of Missouri Pacific Railroad Company - \$1,200,000 project to be done in phases over a number of years.

Other projects listed were a new water plant during the fourth or fifth year (\$2,700,000); a large 60" line from Treatment Plant No. 3, in the fifth or sixth year, and expansion of Water Treatment Plant No. 2, on which plant Mr. Montgomery did the design work. Discussion of work falling under Schedules A and B was held.

The Assistant City Manager reviewed the boning operation at the Abattoir and the experience of the past firms handling these. He stated that MR. FRANK BROOKS now has the operation and is doing well, and furnishing revenue for the City. Mr. Brooks had requested, and the Superintendent of the Abattoir has recommended that he be furnished additional space. To convert the office space on this floor to boning rooms, and to build an office for the Superintendent (recommended that the office be located in front of the Abattoir), would amount to \$17,000 as estimated by Mr. Eldridge. The Assistant City Manager stated he believed the additional operations would pay for the extra space in a year's time. After discussion, Councilman Palmer moved that this expansion be approved. The motion, seconded by Councilman Bechtol, carried by the following vote:

Ayes: Councilmen Bechtol, Palmer, Perry

Noes: None

Not in Council Room when vote was taken: Councilman White, Mayor Miller
