Donna,

Due to the extreme activities which have occurred this week, this situation is now in the hands of Mr. Hardemans' attorneys. Apparently more rocks are being thrown over the fence by someone at the Taulbee Condominiums. So far, one rock hit a customers' car, causing significant damage, with other rocks that nearly struck two of Mr. Hardemans' employees.

Mr. Hardeman wants the understanding and an assurance that this activity will stop immediately. We are all very upset and concerned about these occurrences, since this has happened several times.

Richard Suttle is drafting a letter, which he will forward to you. If you have any questions, please address them to Richard Suttle, and copy my office.

Sincerely,

Amelia Lopez-Phelps
