The following is a description of items to receive consideration in the evaluation of responses for providing professional engineering/architectural services to the City of Austin. Following each description are the evaluation points associated with the item. TOTAL POSSIBLE POINTS EQUALS 100 (plus 25 points for interviews, if conducted). Consideration Item 10: Interview (Optional)**25 Points Maximum**

The City may determine that it is necessary to interview short-listed firms prior to making a recommendation to the City Council.

Generally, staff intends to use the following guidelines in determining whether to include the optional interview in the selection process:

For all projects with an estimated construction value of more than \$7M interviews are mandatory. For any project with an estimated construction value of less than \$7M the top ranked firms will be interviewed if the point difference between the first and second ranked firm is less than three points. The number of firms invited to an interview will depend on the closeness of the scores following evaluation of the written proposals. Staff will consider significant gaps in point separation between the top ranked firms in determining the number of firms to be interviewed. Only firms that are considered, on the basis of their written proposal, qualified to perform the work will be invited for interviews. No more than five firms will be interviewed. No interviews will be conducted for rotation list contracts unless deemed necessary by staff for specialized types of services. Staff may conduct interviews in other cases where staff believes it is in the best interest of the City.
