**PURCHASING:** Lower bid of two received.

**MBE / WBE:** 16.86% MBE and 16.52% WBE subcontractor participation.

---

This construction contract will provide for wastewater improvements in a generally residential area east of Shoal Creek Boulevard and west of Jim Hogg Lane, south of Houston Street and north of 46th Street. The improvements are intended to replace existing undersized wastewater lines, which will be abandoned in place. The new line will be installed outside of the creek channel and will eliminate the wastewater overflows that have occurred upstream of the project area. This project is part of the Austin Water Utility's Austin Clean Water Program (ACWP), which was developed to respond to the requirements of the Environmental Protection Agency's Administrative Order regarding Sanitary Sewer Overflows.

The proposed improvements include the installation of approximately 2,978 linear feet of 18-inch sanitary sewer and 1,400 linear feet of 8-inch sanitary sewer. The majority of proposed improvements will be located within existing street Right-of-Way. The impacted streets include Hilwin Circle, Shoal Creek Boulevard from 46th Street to 49th Street, and Crestmont Drive. Hancock Drive, Burnet Road, North Loop Boulevard will be crossed in this project by boring to limit disturbance to traffic. Manholes will be installed within these streets to connect to existing sewer lines. Due to the potential for unknown subsurface conditions and utility conflicts when working in the right-of-way, a 5% contingency in funding has been included to allow for the expeditious processing of any future change orders. The contract allows 275 working days for completion of this project.

Bid documents were distributed to 9 general contractors. Bids were opened on March 10, 2004. Laughlin-Thyssen, Ltd. submitted the lowest of 2 bids received:

Laughlin-Thyssen, Ltd., Houston, Texas

\$6,143,144.00

BRH Garver Construction, L.P., Houston, Texas

\$6,573,556.00
