PRIOR COUNCIL ACTION: N/A

BOARD AND COMMISSION ACTION: N/A

PURCHASING: N/A

MBE / WBE: N/A

Austin Energy desires to enter into negotiation and execution of a contract for the purchase the house and lot at 3306 South Second Street, Austin, Texas, occupied and owned by Robert Sansom, for the reconstruction of its Cardinal Lane Substation in an amount not to exceed \$130,000 including closing costs and moving expenses. The contract price of \$121,000 is supported by an appraisal by Atrium Real Estate Services. The balance is for closing costs and relocation expenses.

Austin Energy must upgrade the Cardinal Lane Substation, which was built in 1951. It is one of Austin Energy's older substations, and has extremely old transformers. As the current substation property exists, there is not enough room to upgrade the transformers and maintain some level of service from the substation, nor is there room in the existing substation for a mobile substation, to provide back-up in case of the loss of a transformer. If Austin Energy purchases the adjacent property, it will have enough room to add new equipment to the substation, replace aging equipment, and still maintain adequate capacity to service the growing demand in that area.

Additionally, Austin Energy recently agreed to eliminate the Zilker Substation and must ensure that adequate capacity from the Cardinal Lane Substation is available, along with the Seaholm Substation, to serve the area previously served by the Zilker Substation.
