Texas Administrative Code, Title 43, Section 15.55(d) (43 TAC Section 15.55(d)) allows for the usual 10% local match fund participation requirement to be waived on an authorized federal off-system bridge program project. The criteria for participating in the program, includes an Agreement by the Local Government to perform structural improvement work in a dollar amount equivalent to the local participation amount on other deficient bridge(s), or cross-drainage structure(s) within its jurisdiction.

The project on which the local fund participation requirement is to be waived is referred as the "participation-waived" project, and the project (or projects) on which the Local Government agrees to perform structural improvement work is referred as the "equivalent-match" project(s). In this case, the "participation-waived" project is identified as the Channel Road Bridge at Rocky Cliff Slough project, and the "equivalent-match" project is the Circle S Road Culvert Replacement (Structure No. 2) project.

The waiver request will include the location(s), description, and estimated cost of structural improvement work proposed for the Circle S Road Culvert Replacement (Structure No. 2) project, which is the "equivalent-match" project. Additionally, it will include a copy of the City's resolution acknowledging responsibility for engineering, construction, and compliance with all applicable state and federal environmental regulations, and permitting requirements for the "equivalent-match" project.
