SECOND / THIRD READINGS SUMMARY SHEET

ZONING CASE NUMBER: C14-03-0165

REQUEST:

Approve second / third readings of an ordinance amending Chapter 25-2 of the Austin City Code by rezoning property locally known as 3206 West Slaughter Lane (Slaughter Creek Watershed-Barton Springs Zone) from interim-rural residence (I-RR) district zoning to townhouse & condominium residence (SF-6) district zoning. The Restrictive Covenant provides that at the time a site plan is submitted, it will include an Integrated Pest Management (IPM) Plan and a landscape plan for the use of native and adapted plant materials.

DEPARTMENT COMMENTS:

The applicant has provided two conceptual plans showing flood plain constraints and residential development of the property. The first plan shows development which may occur by way of the recorded 1978 plat and the second shows development which may occur with the application of SOS regulations. Please refer to Attachment A, following the Zoning Map.

In order to minimize disturbance to the creek, the City's Environmental Officer prefers limiting the future development on the property to one creek crossing. Limiting the number of creek crossings, in turn, will promote clustering of development and improved water quality.

The Conditional Overlay incorporates the conditions imposed by the City Council at First Reading.

The applicant has entered into a Restrictive Covenant with the City that provides that at the time a site plan is submitted, it will include an Integrated Pest Management (IPM) Plan and a landscape plan for the use of native and adapted plant materials.

OWNER/APPLICANT: Orrin Shaid and Orrin Shaid III

AGENT: Crocker Consultants (Sarah Crocker)

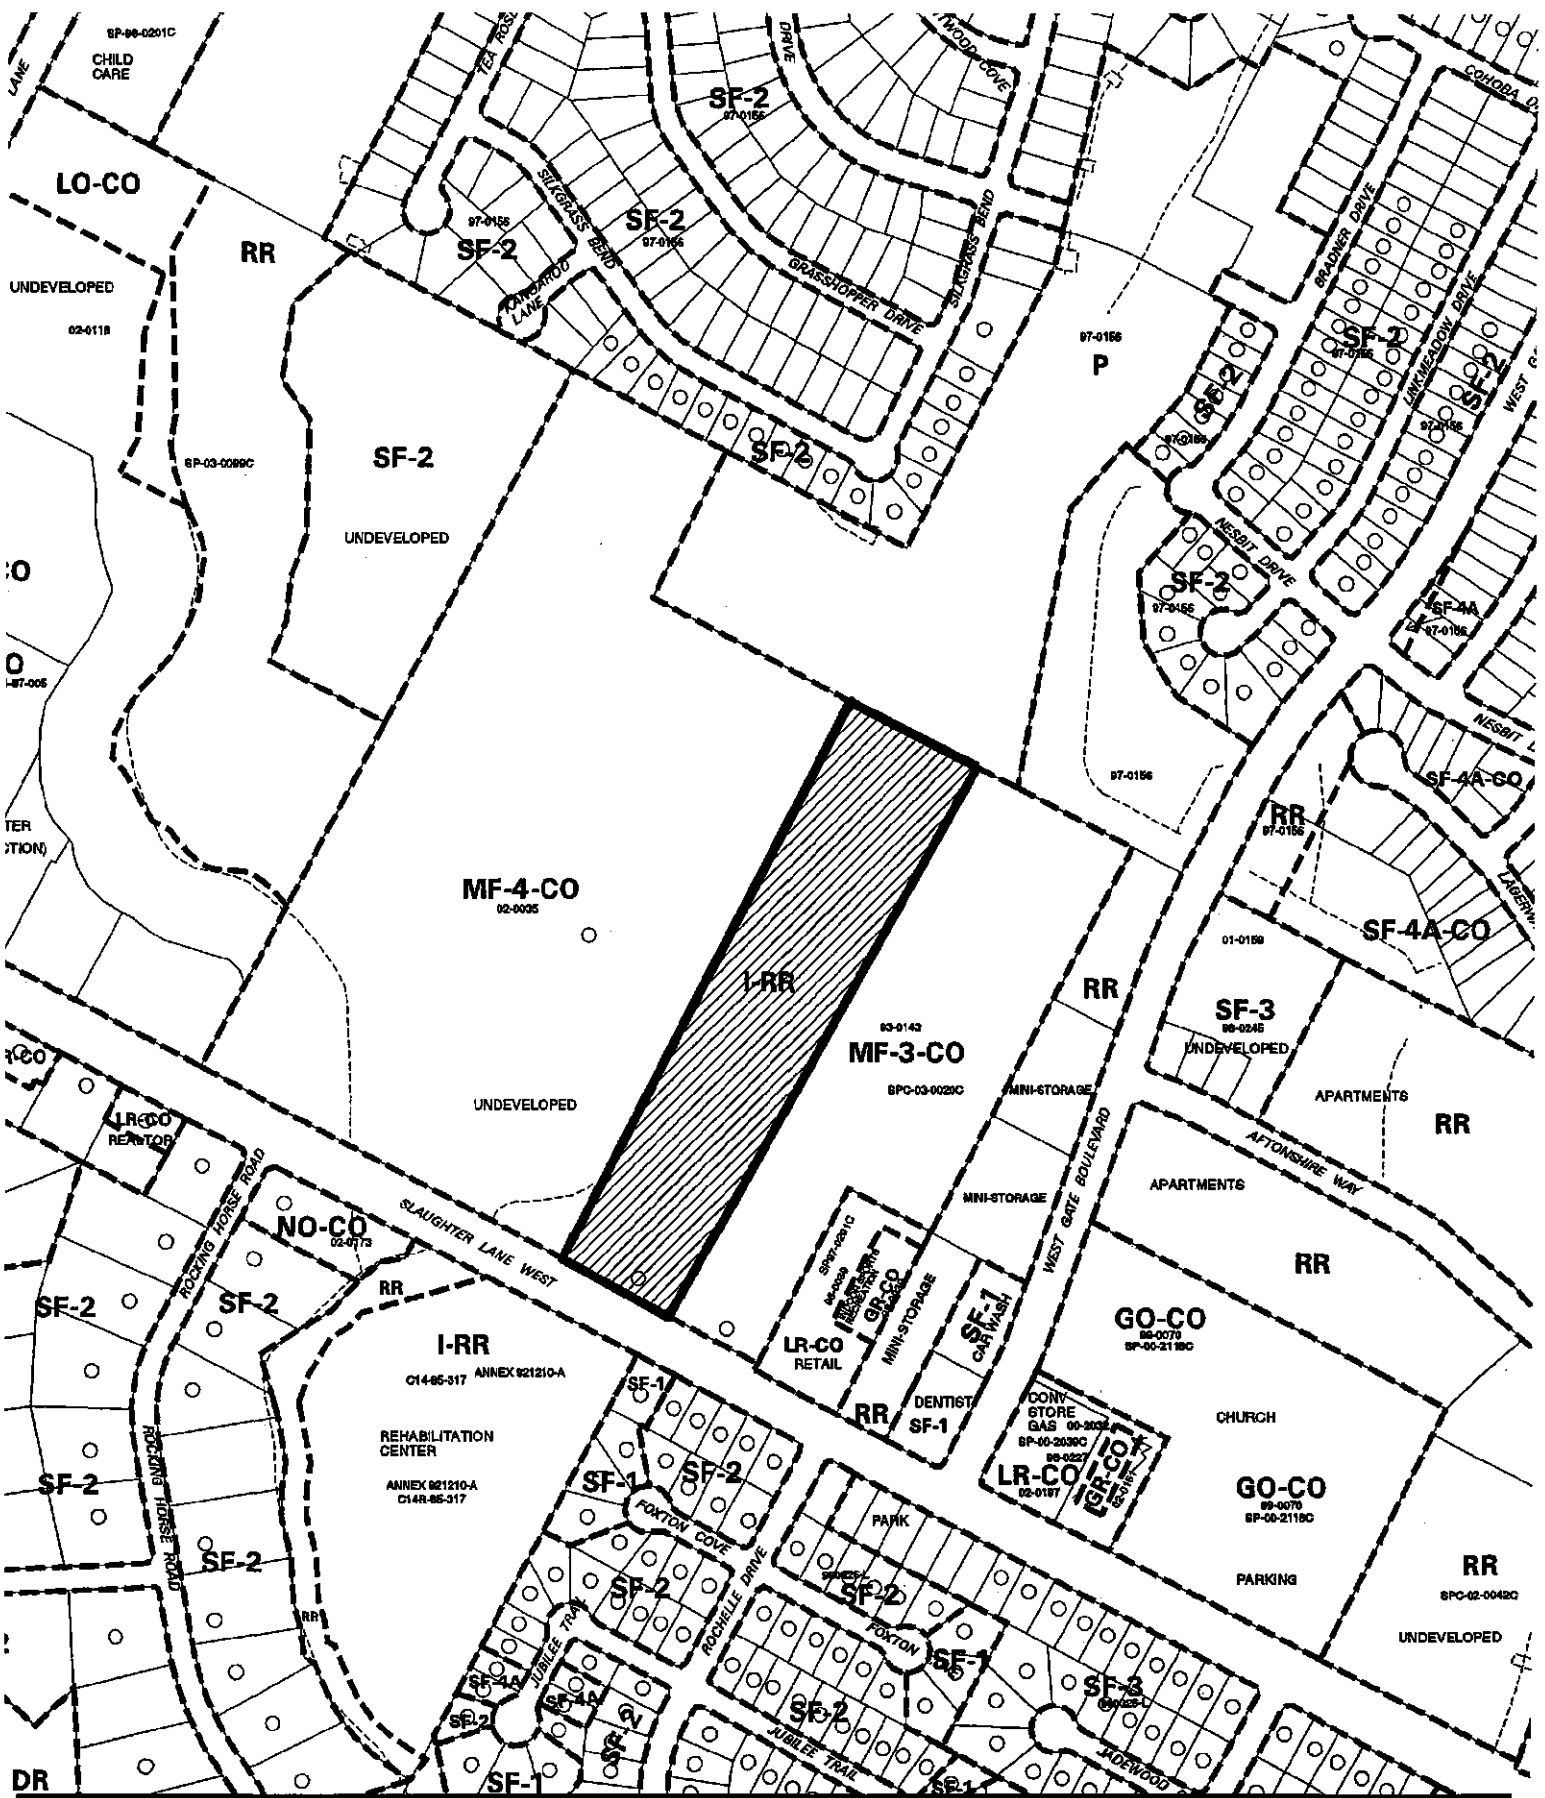

DATE OF FIRST READING: February 5, 2004, approved SF-6 district zoning, on 1st Reading (6-1, D.S. – Nay).

RE: Shaid Zoning
C14-03-0165

Dear Ms. Crocker,

We have been asked to prepare two Concept Plans for the above referenced property to identify a reasonable yield of the property utilizing old rules under one scenario and S.O.S. compliance under another scenario.

The flood plain is a large limiting factor in the development of the site. A flood plain analysis was prepared by Chris McComb, P.E., which identified the existing flood plain and a modified flood plain incorporating channel improvements. Other limiting site development factors are the limited frontage for the property at 257', as well as the extensive tree coverage.

Concept Plan 1 is based on the application of older rules governing the development of the property. The modified flood plain and channel improvements which created larger pockets for development. A single driveway from Slaughter Lane serves the entire development of 24 townhome units. These townhome units are 4-units combined into single buildings with a total of 6 building proposed for development. The existing home is retained and can be converted to a clubhouse / common area for the residents of the site.

Concept Plan 2 is based on the current rules, being the S.O.S. rules, governing the development of the property. The site appears to be wholly or partially within the Recharge Zone of the Edward's Aquifer and as such we have only accounted for 15% allowable impervious cover for the entire site as if it were entirely within the recharge zone. The waterway is defined as a minor tributary and the Critical Water Quality Zone

and Water Quality Transition Zone greatly impact the site. As you can see on the attached plan the limited amount of uplands would only allow 5,100 s.f. of development prior to the perimeter roadway deduction required by Code. These deductions reduce the allowable impervious cover of the site to 0 s.f., (The actual computed deduction causes the allowable s.f. to be -1,750 s.f., which is not possible so we rounded this to zero).

I trust that this meets your needs and should you have any questions, please call me at my office.

Sincerely,

A. Ron Thrower

RESTRICTIVE COVENANT

OWNER: Orrin Shaid and Orrin Shaid III

ADDRESS: 3206 West Slaughter Lane, Austin, TX 78748

CONSIDERATION: Ten and No/100 Dollars (\$10.00) and other good and valuable consideration paid by the City of Austin to the Owner, the receipt and sufficiency of which is acknowledged.

PROPERTY: Lot A, Trian Addition Subdivision, a subdivision in the City of Austin, Travis County, according to the map or plat of record, in Plat Book 76, Page 331, of the Plat Records of Travis County, Texas.

WHEREAS, the Owner of the Property and the City of Austin have agreed that the Property should be impressed with certain covenants and restrictions;

NOW, THEREFORE, it is declared that the Owner of the Property, for the consideration, shall hold, sell and convey the Property, subject to the following covenants and restrictions impressed upon the Property by this restrictive covenant. These covenants and restrictions shall run with the land, and shall be binding on the Owner of the Property, its heirs, successors, and assigns.

1. At the time an application for approval of a site plan is submitted for development of the Property, or any portion of the Property, an Integrated Pest Management (IPM) plan shall be submitted to the Watershed Protection and Development Review Department for review and approval.
2. The IPM plan shall comply with the guidelines in Section 1.6.9.2 (D) and (F) of the Environmental Criteria Manual that are in effect on the date of this covenant.
3. At the time an application for approval of a site plan is submitted for development of the Property, or any portion of the Property, a landscape plan shall be submitted to the Watershed Protection and Development Review Department for review and approval. Ninety percent of the total plant material used, exclusive of turf, shall be native to Central Texas or on the Grow Green Native and Adapted Landscape Plants list, attached as Exhibit "A". Plants on the Invasive Species/Problem Plants list, attached as Exhibit "B", may not be included.
4. If any person or entity shall violate or attempt to violate this agreement and covenant, it shall be lawful for the City of Austin to prosecute proceedings at law or in equity against such person or entity violating or attempting to violate such agreement or covenant, to prevent the person or entity from such actions, and to collect damages for such actions.
5. If any part of this agreement or covenant is declared invalid, by judgment or court order, the same shall in no way affect any of the other provisions of this agreement, and such remaining portion of this agreement shall remain in full effect.

6. If at any time the City of Austin fails to enforce this agreement, whether or not any violations of it are known, such failure shall not constitute a waiver or estoppel of the right to enforce it.
7. This agreement may be modified, amended, or terminated only by joint action of both (a) a majority of the members of the City Council of the City of Austin, and (b) by the owner(s) of the Property subject to the modification, amendment or termination at the time of such modification, amendment or termination.

EXHIBIT B

Invasive Species/Problem Plants

PLANTS TO AVOID

INVASIVES

(Plants that are non-native to the Central Texas ecosystem and tend to out-compete native species)

Do Not Plant

(Travel by seeds, berries, and spores so can be transported long distances. They have already invaded preserves and greenbelts):

- Arizona Ash
- Chinaberry
- Chinese Pistache
- Chinese Tallow
- Chinese Privet
- Elephant Ear
- Holly Fern
- Japanese Honeysuckle
- Ligustrum, Wax Leaf
- Mimosa
- Mulberry, Paper
- Nandina (large, berrying varieties)
- Photinia, Chinese
- Pyracantha
- Tamarisk
- Tree of Heaven

Do Not Plant Near

Parks/Preserves/Greenbelts

(travel by runners, rhizomes, and stems so only invade neighboring areas):

- Bamboo
- English Ivy
- Vinca (Periwinkle)

PROBLEM TREES AND SHRUBS

(Typically fast-growing, highly adaptable, but often have weak wood and are short-lived. Most are susceptible to insect and disease problems.)

- Arizona Ash
- Azalea (not adapted to Austin soils)
- Boxelder
- Camellia
- Chinaberry
- Chinese Privet
- Chinese Tallow
- Cottonwood
- Ligustrum
- Lombardy Poplar
- Mimosa
- Mulberry, Paper
- Photinia, Chinese
- Siberian Elm
- Silver Maple
- Sweetgum
- Sycamore
- Tree of Heaven

ZONING CHANGE REVIEW SHEET

CASE: C14-03-0165

Z.P.C. DATE: December 2, 2003
December 16, 2003

ADDRESS: 3206 West Slaughter Lane

OWNER AND APPLICANT: Orrin Shaid &
Orrin Shaid III

AGENT: Crocker Consultants
(Sarah Crocker)

ZONING FROM: I-RR

TO: SF-6

AREA: 8.900 acres

SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant townhouse and condominium residence (SF-6) district zoning.

ZONING & PLATTING COMMISSION RECOMMENDATION:

December 2, 2003: *POSTPONED TO 12/16/03 DUE TO NOTIFICATION PROBLEMS (STAFF)*
[J.M; J.G 2ND] (9-0)

December 16, 2003: *APPROVED STAFF'S RECOMMENDATION OF SF-6 ZONING; BY*
CONSENT.
[J.M; J.G 2ND] (8-0) C.H – ABSENT

ISSUES:

The applicant has provided two conceptual plans showing flood plain constraints and residential development of the property. The first plan shows development which may occur by way of the recorded 1978 plat and the second shows development which may occur with the application of SOS regulations. Please refer to Attachment A, following the Zoning Map.

In order to minimize disturbance to the creek, the City's Environmental Officer prefers limiting the future development on the property to one creek crossing. Limiting the number of creek crossings, in turn, will promote clustering of development and improved water quality.

The Conditional Overlay incorporates the conditions imposed by the City Council at First Reading.

The applicant has entered into a Restrictive Covenant with the City that provides that at the time a site plan is submitted, it will include an Integrated Pest Management (IPM) Plan and a landscape plan for the use of native and adapted plant materials.

DEPARTMENT COMMENTS:

The subject property consists of one single family residence and otherwise undeveloped acreage on one platted lot, and is zoned interim – rural residence (I-RR) district. Access is taken to Slaughter Lane, an improved, 6- lane major arterial roadway. Please refer to Exhibits A and A-1.

The applicant proposes to rezone the property to the townhouse and condominium residence (SF-6) district and develop the property with townhouse / condominium uses.

This segment of West Slaughter Lane between West Gate Boulevard and Brodie Lane is in transition from undeveloped property and single family residences on large lots to multi-family residential (MF-4-CO) and commercial zoning (GR-CO, LR-CO) and development. The MF-4-CO property adjacent to the west as well as the proposed MF-3-CO property adjacent to the east have been approved with conditions including SF-6 density and uses. The applicant's request for SF-6 zoning is appropriate along West Slaughter Lane and will further diversify the range of housing choices available in the general area. Townhouse / condominiums are compatible with the surrounding zoning and development which includes a shopping center with a grocery store, bank, restaurant and other retail uses, proposed multi-family to the west, and proposed convalescent services facility to the east.

EXISTING ZONING AND LAND USES:

| | ZONING | LAND USES |
|--------------|--|--|
| <i>Site</i> | I-RR | One single family residence; Undeveloped |

EXHIBIT B
RECORDED PLAT

SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant townhouse and condominium residence (SF-6) district zoning.

BACKGROUND

The subject property consists of one single family residence and otherwise undeveloped acreage on one platted lot, and is zoned interim – rural residence (I-RR) district. Access is taken to Slaughter Lane, an improved, 6-lane major arterial roadway.

The applicant proposes to rezone the property to the townhouse and condominium residence (SF-6) district and develop the property with townhouse / condominium uses.

This segment of West Slaughter Lane between West Gate Boulevard and Brodie Lane is in transition from undeveloped property and single family residences on large lots to multi-family residential (MF-4-CO) and commercial zoning (GR-CO, LR-CO) and development. The MF-4-CO property adjacent to the west as well as the proposed MF-3-CO property adjacent to the east have been approved with conditions including SF-6 density and uses. The applicant's request for SF-6 zoning is appropriate along West Slaughter Lane and will further diversify the range of housing choices available in the general area. Townhouse / condominiums are compatible with the surrounding zoning and development which includes a shopping center with a grocery store, bank, restaurant and other retail uses, proposed multi-family to the west, and proposed convalescent services facility to the east.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The SF-6, Townhouse and Condominium Residence District, is intended as an area for moderate density single family, duplex, two-family, townhouse and condominium use. The applicant intends to develop the property with a condominium project consisting of detached units.

2. *Zoning changes should promote compatibility with adjacent and nearby uses.*

This segment of West Slaughter Lane between West Gate Boulevard and Brodie Lane is in transition from undeveloped property and single family residences on large lots to multi-family residential (MF-4-CO) and commercial zoning (GR-CO, LR-CO) and development. EXISTING CONDITIONS

Site Characteristics

The site consists of one single family residence and otherwise undeveloped acreage. The property slopes towards an unnamed tributary of Slaughter Creek, extending southwest to northeast through the west boundary.

Impervious Cover

The maximum impervious cover allowed by the SF-6 zoning district would be 15% within the Barton Springs Zone by way of the more restrictive watershed regulations.

Environmental

Based on City maps, all or a portion of this site is located over the Edward's Aquifer Recharge Zone. The site is in the Slaughter Creek of the Colorado River Basin. Any portion of the site that is within either the Recharge or Contributing Zone of the Edwards Aquifer is classified as a Barton Springs Zone (BSZ) watershed. Project applications at the time of this report are subject to the SOS Ordinance which allows 15% impervious cover in the recharge zone and 25% impervious cover in the contributing zone.

A determination of whether development of this property qualifies as a project in process and subject to the rules or regulations in effect at the time the original permit application was filed for development of this site, has not yet been made. The determination is made at the time of subdivision / site plan application.

According to flood plain maps, there is no flood plain within the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention. Runoff from the site is required to comply with pollutant load restrictions as specified in LDC Section 25-8-514.

Water Quality

The location of the boundary between the Recharge Zone and the suburban zone is important in determining how development on this site will occur. A geologic assessment will need to be completed and reviewed prior to initiating design of the site. Once the boundary is determined, then the water quality system can be established based on the regulations for each classification of watershed. Water quality systems in the Barton Springs Zone are typically designed for non-degradation. This is typically achieved by the use of retention ponds where the captured volume is spread over the site by the use of re-irrigation systems or infiltration systems.

Transportation

No additional right-of-way is needed at this time.

RE: POSTPONEMENT REQUEST FOR C14-03-0165 ITEM #Z-4

Dear Ms. Glasco,

Please allow this correspondence to serve as my first time request for a postponement for the above referenced case until Thursday February 5th, 2004.

We have completed a drainage study and need the additional time to analyze the impacts on the property to adequately address density issues. Please contact my office should you need anything further.

Sincerely,

Sarah Crocker
