ISSUES:

The Onion Creek Homeowners Association is supportive of the requested zoning change and has requested that certain uses are prohibited. Please refer to the letter attached at the back of the staff report. The applicant is in agreement with the Association's request and the recommendation of the Zoning and Platting Commission.

DEPARTMENT COMMENTS:

The subject property is one of seven zoning cases that comprise the Onion Creek Golf Course and Country Club, which taken together, include all portions of the golf course, clubhouse, pro-shop and other recreation areas (Related Cases C14-04-0044 & 0046; C14-04-0050 – 0053). This property is developed with a portion of the Onion Creek Golf Course, and was assigned interim-rural residence

(I-RR) district zoning upon its annexation into the City limits on December 31, 2003. The property has access along Pinehurst Drive and at the terminus of Coral Gables Court, Point Clear Court and Onion Creek Court, and is surrounded by single family residences and townhouse / condominiums which overlook the golf course (zoned I-SF-2). Please refer to Exhibits A and A-1.

The golf course, clubhouse, pro-shop and other recreation areas, as operated by the applicant, Onion Creek Club, fall within the community recreation (private) use classification. The applicant has requested commercial recreation (CR) district zoning for all seven zoning cases, consistent with the existing uses. CR district zoning will bring the existing golf course and Country Club areas into compliance with the City of Austin's Zoning Ordinance. The applicant has stated that no further development of the golf course or Country Club areas is contemplated.

Staff recommends CR district zoning given that it is consistent with the existing uses on the property.

SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant commercial recreation (CR) district zoning.

BACKGROUND

The subject property is one of seven zoning cases that comprise the Onion Creek Golf Course and Country Club, which taken together, include all portions of the golf course, clubhouse, pro-shop and other recreation areas (Related Cases C14-04-0044 & 0046; C14-04-0050 – 0053). This property is developed with a portion of the Onion Creek Golf Course, and was assigned interim-rural residence (I-RR) district zoning upon its annexation into the City limits on December 31, 2003. The property has access along Pinehurst Drive and at the terminus of Coral Gables Court, Point Clear Court and Onion Creek Court, and is surrounded by single family residences and townhouse / condominiums which overlook the golf course (zoned I-SF-2).

The golf course, clubhouse, pro-shop and other recreation areas, as operated by the applicant, Onion Creek Club, fall within the community recreation (private) use classification. The applicant has requested commercial recreation (CR) district zoning for all seven zoning cases, consistent with the existing uses. CR district zoning will bring the existing golf course and Country Club areas into compliance with the City of Austin's Zoning Ordinance. The applicant has stated that no further development of the golf course or Country Club areas is contemplated.

Staff recommends CR district zoning given that it is consistent with the existing uses on the property.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The commercial recreation district is the designation for a commercial or recreation use that serves visitors to major recreational areas, including Lake Travis and Lake Austin. Permitted uses within the CR district include: marina; recreational equipment sales; recreation equipment maintenance and storage; community recreation (public and private); counseling services; and cultural services. Site development regulations applied to a CR district use are designed to minimize visual and environmental disruptions of scenic views.

The existing development of a golf course, clubhouse, pro-shop and recreation areas are consistent with the proposed CR district.

2. *Zoning changes should promote compatibility with adjacent and nearby uses.*

The CR district is consistent with the existing uses on the property.

EXISTING CONDITIONS**Site Characteristics**

The site is developed with a portion of the golf course. There appear to be no topographical constraints on this tract.

Impervious Cover

The maximum impervious cover allowed by the CR zoning district would be 60%, which is based on the more restrictive zoning regulations.

Environmental

The site is not located over the Edward's Aquifer Recharge Zone. The site is in the Onion Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code.

In the Water Quality Transition Zones, impervious cover is limited to 30%.

According to flood plain maps, there is flood plain in, or within close proximity of, the project location. Based upon the close proximity of flood plain, offsite drainage should be calculated to determine whether transition zone exists within the project location. If transition zone is found to exist within the project area, allowable impervious cover within said zone shall be limited to 30%.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

Transportation

No additional right-of-way is needed at this time.

The trip generation under the requested zoning is estimated to be 53 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics). In this case a golf course exists.

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

TPSD Right-of-Way

The scope of this review is limited to the identification of needs for dedication and/or reservation of right-of-way for funded Capital Improvement Program (C.I.P.) Roadway Construction Projects and Transportation Systems Management (T.S.M.) Projects planned for implementation by the City of Austin. No aspect of the proposed project is being considered or approved with this review other than the need for right-of-way for City projects. There are separate right-of-way dedication and reservation requirements enforced by other Departments and other jurisdictions to secure right-of-way

for roadway improvements contained in the Austin Metropolitan Area Roadway Plan, roadway projects funded by County and State agencies, and for dedication in accordance with the functional classification of the roadway.

We have reviewed the proposed zoning case and anticipate no additional requirement for right-of-way dedication or reservation for funded C.I.P. or T.S.M. projects at this location.

Water and Wastewater

The site is served with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or relocation are required, the landowner will be responsible for all costs and providing. Also, the utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City's utility design criteria.

Compatibility Standards

This site is part of an existing golf course. However, any new construction on this site would be subject to compatibility development regulations due to the adjacent existing I-SF-2 used property along portions of the north and south, and would be subject to the following compatibility requirements:

Along the adjacent I-SF-2 property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.

In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection. Additional design regulations will be enforced at the time a site plan is submitted.

*Re: Zoning Request for the Onion Creek Country Club
2510 Onion Creek Parkway*

Dear Ms. Walsh:

The Onion Creek Homeowners Association fully supports the request to zone the clubhouse and golf course Community Recreation (CR). The association is also in favor of granting permanent zoning for the country club. This will allow the club to continue to be an integral part of our community as it has for the past thirty years. We believe this will likewise protect the appropriate use of the property.

Re: Conditional Overlay for the Onion Creek Club Zoning Cases

Dear Ms. Walsh:

Onion Creek Club has agreed with the Onion Creek Homeowners Association, the neighborhood group for this zoning request, to request the following conditional overlay for the "CR" zoning requested for the Onion Creek Club, to be approved by the City and made a part of the Zoning Ordinances for the above tracts of land.

Permitted Uses:

- Prohibit Cultural Services, from all tracts.
- Prohibit Marinas, from all tracts.
- Prohibit Recreational Equipment Maintenance and Storage, from all tracts.
- Prohibit Recreational Equipment Sales, from all tracts.
- Prohibit Bed and Breakfast on all tracts except for C14-04-0046, which will be limited to not more than 12 units.

Conditional Uses: All of the following uses are prohibited as to all tracts:

- Arts & Crafts Studio
- Campgrounds
- Hospital Services (Limited)
- Hotel & Motel
- Indoor Entertainment
- Indoor Sports & Recreation

- Private Primary Education Facilities
- Private Secondary Education Facilities
- Public Primary Education Facilities
- Public Secondary Education Facilities
- Restaurants (Limited)
- Service Stations

Private Restrictive Covenant:

- Outdoor Sports and Recreation Facilities, will prohibit the use of miniature golf courses.
- Outdoor Entertainment will be limited to golf and tennis related events.
- College and University Facility, will be limited to golf and tennis activities.

If you have any questions, please feel free to contact me at your convenience.

We ask for the Planning and Zoning Commission to concur and approve these conditions as part of the "CR" zoning for Onion Creek Club, and we request that the City Council approve the "CR" zoning with the conditions approved by the Planning Commission.

Respectfully submitted,

Onion Creek Club
