### **SUMMARY STAFF RECOMMENDATION:**

Staff recommends the proposed change to GO-CO, General Office-Conditional Overlay district zoning in order to remove medical offices (less than 5,000 square feet) from the list of prohibited uses.

### **ZONING AND PLATTING COMMISSION RECOMMENDATION:**

March 2, 2004 – To approve GO-CO, General Office-Conditional Overlay district zoning, in order to remove medical offices (less than 5,000 square feet) from the list of prohibited uses. In addition, the Commission limited the change to a 3,485 square foot footprint by consent (Vote: 8-0, J. Gohil – absent).

### **ISSUES:**

The existing GO-CO zoning was approved was approved on March 9, 1998. The conditional overlay as it stands now prohibits the following uses (see attached ordinance):

Art and Craft Studio (limited)	Business or Trade School
Business Support Services	Medical Offices (less than 5,000 sq. ft.)
Medical Offices (exceeding 5,000 sq. ft.)	Off-Site Accessory Parking

## **STAFF RECOMMENDATION**

Staff recommends the proposed change to GO-CO, General Office-Conditional Overlay district zoning.

## **BASIS FOR RECOMMENDATION**

*The proposed zoning should be consistent with the purpose statement of the district sought.*

GO – General Office district zoning is intended for offices and selected commercial uses predominantly serving community and city-wide needs.

*The proposed zoning should promote consistency, and orderly planning.*

The proposed change is consistent and compatible with other properties in the immediate vicinity. There is GO zoning to the north and east of the subject tract and office uses all along this portion of Spicewood Springs Road. In addition, staff could not find a similar prohibition of medical offices for recent zoning cases in the area.

*The proposed zoning should allow for a reasonable use of the property.*

The GO zoning district would allow for a fair and reasonable use of the site. GO zoning is appropriate for this site because of the location of the property and the commercial character of this portion of Spicewood Springs.

*Zoning should promote the policy of locating retail and more intensive zoning near the intersections of arterial roadways or at the intersections of arterials and major collectors.*

The property in question is located on and will take access to Spicewood Springs Road, which is classified as an arterial roadway.

## **EXISTING CONDITIONS**

### **Site Characteristics**

The property is currently occupied with an office complex comprised of four 2-story buildings.

### **Transportation**

No additional right-of-way is needed at this time.

The trip generation under the requested zoning is estimated to be 75 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]

There are existing sidewalks along Spicewood Springs Road.

Spicewood Springs is classified in the Bicycle Plan as a Priority 1 bike route. (Route #18)

Capital Metro bus service is not available within 1/4 mile of this property.

### **Impervious Cover**

The site is located over the Edward's Aquifer Recharge Zone. The site is in the Bull Creek Watershed of the Colorado River Basin, and is classified as a Water Supply Suburban Watershed by Chapter 25-8 of the City's Land Development Code. Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

### **Environmental**

According to flood plain maps, there is no flood plain in, or within close proximity of, the project location.

The site is located within the endangered species survey area and must comply with the requirements of Chapter 25-8 Endangered Species in conjunction with subdivision and/or site plan process.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any preexisting approvals which would preempt current water quality or Code requirements.

### **Right of Way**

The scope of this review is limited to the identification of needs for dedication and/or reservation of right-of-way for funded Capital Improvement Program (C.I.P.) Roadway Construction Projects and Transportation Systems Management (T.S.M.) Projects planned for implementation by the City of Austin. No aspect of the proposed project is being considered or approved with this review other than the need for right-of-way for City projects. There are separate right-of-way dedication and reservation requirements enforced by other Departments and other jurisdictions to secure right-of-way for roadway improvements contained in the Austin Metropolitan Area Roadway Plan, roadway projects funded by County and State agencies, and for dedication in accordance with the functional classification of the roadway.

We have reviewed the proposed subdivision, site plan, or zoning case and anticipate no additional requirement for right-of-way dedication or reservation for funded C.I.P. or T.S.M. projects at this location.

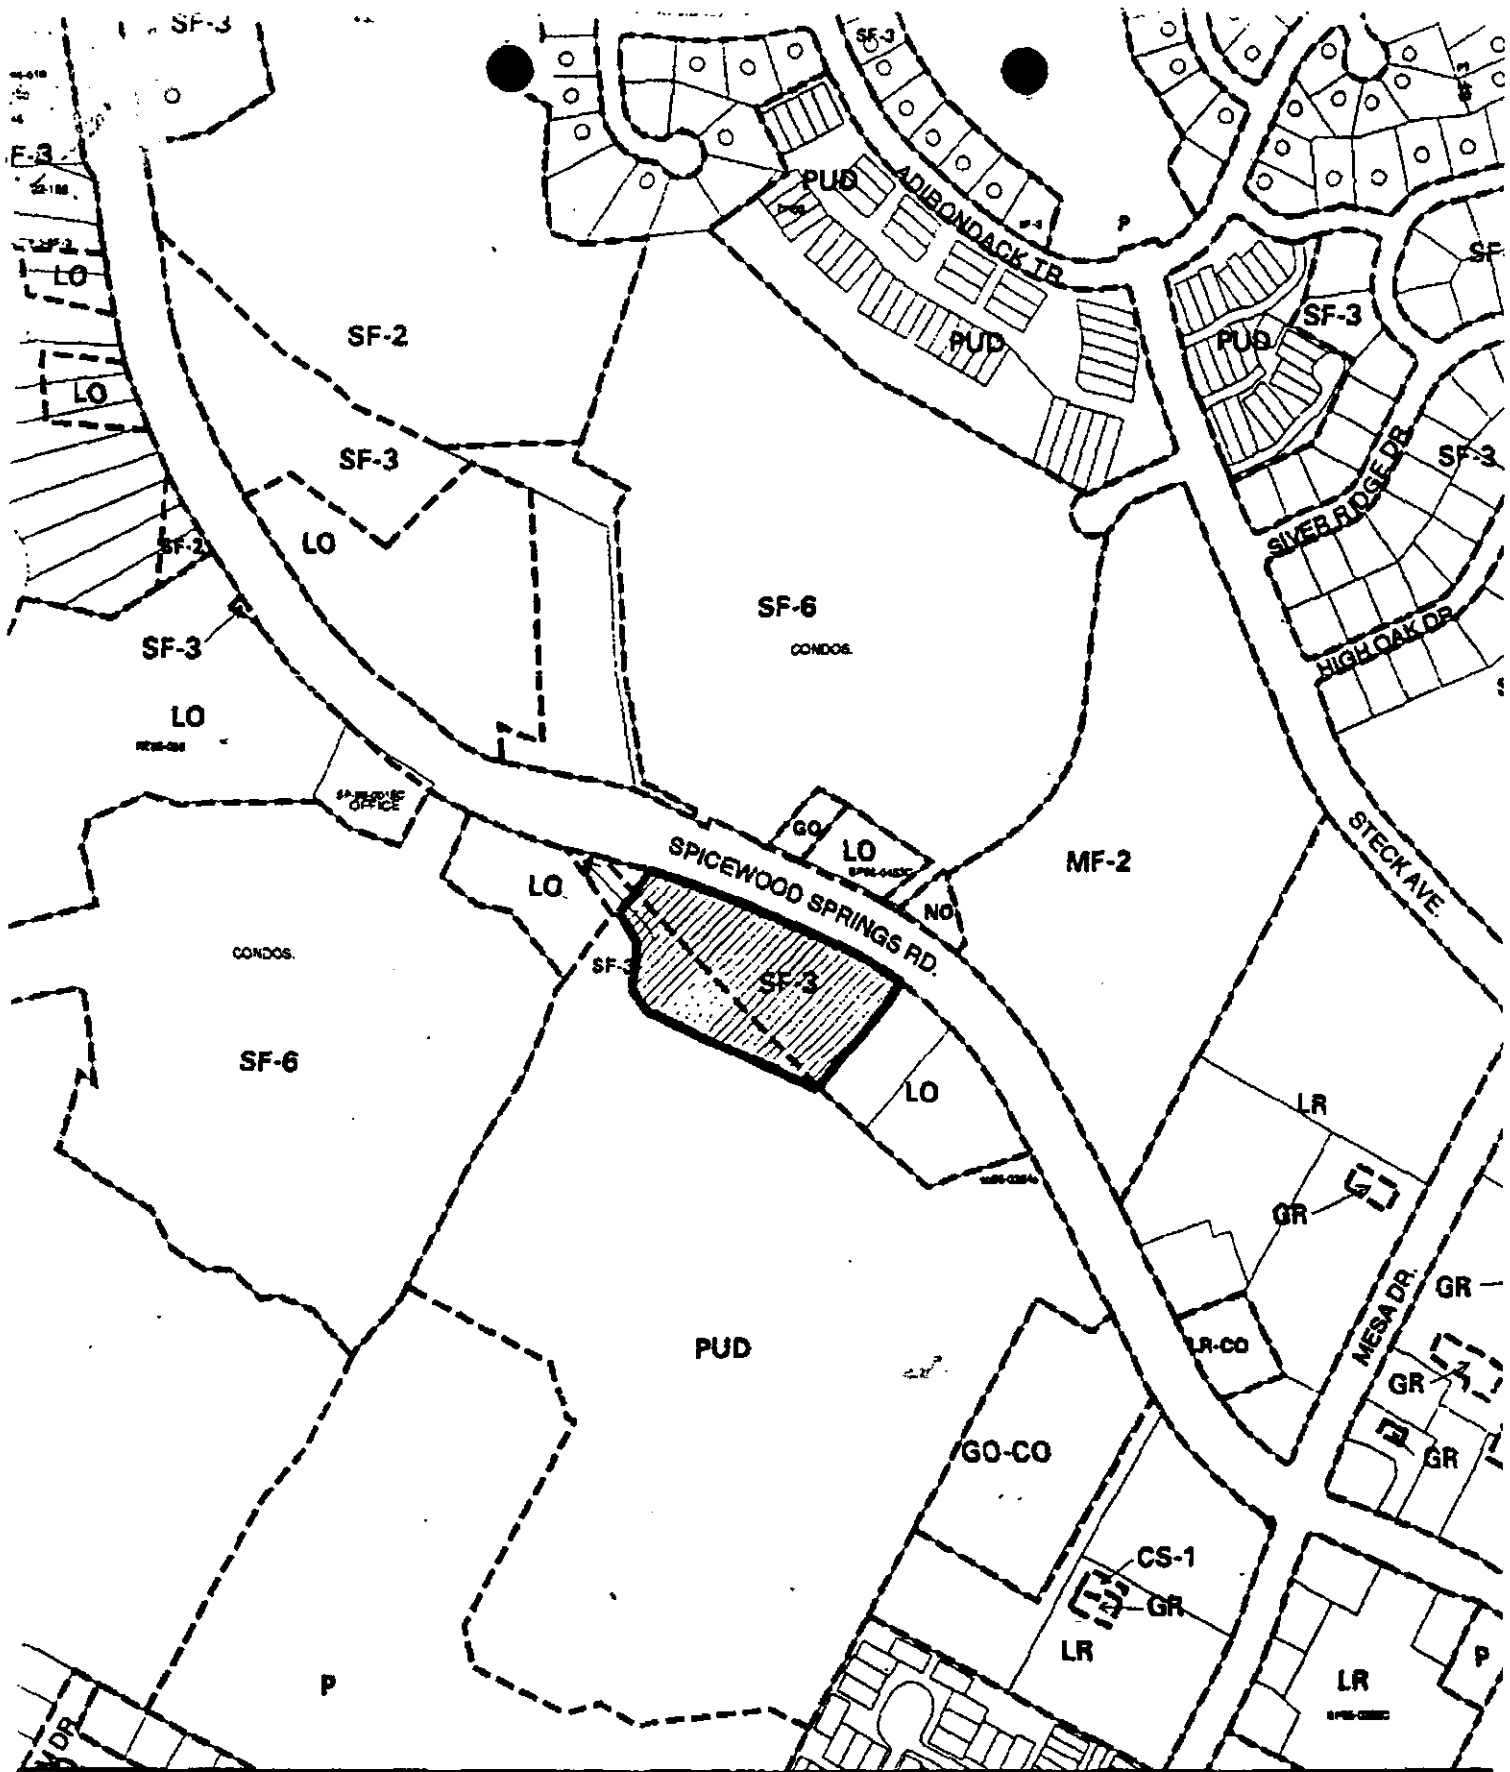

Richard Kroger – Transportation Division – Transportation Planning and Sustainability Department – 974-7219

**Water and Wastewater**

The landowner intends to serve the site with City water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility adjustment, or relocation are required, the landowner will be responsible for all costs and providing. Also, the utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City's utility design criteria.

**Compatibility Standards**

This site will not be subject to compatibility regulations.
