PURCHASING: Lowest bid of three received.

MBE / WBE: 13.6% MBE and 8.6% WBE subcontractor participation.

This construction contract will provide for the installation of new wastewater pipelines located along Broadmoor Drive from IH35 frontage road at East 53rd Street to Bartholomew Park. The improvements are intended to replace aging and deteriorated facilities and eliminate wastewater overflows that have occurred in this area. It is part of the Austin Water Utility's Austin Clean Water Program (ACWP), which was developed to respond to the requirements of the Environmental Protection Agency's Administrative Order regarding Sanitary Sewer Overflows.

The proposed wastewater line improvements include the installation of 2,223 feet of 8-inch line, 1,101 feet of 12-inch line, 29 feet of 15-inch line, 452 feet of 18-inch line, and 5,266 feet of 24-inch line with approximately 47 new manholes. The project also includes the rehabilitation of approximately 857 feet of wastewater line and approximately 2,640 feet of stream bank stabilization along Upper Tannehill Creek in Bartholomew Park.

Due to the potential for unknown subsurface conditions and utility conflicts when working in the right-of-way, a 10% contingency in funding has been included to allow for the expeditious processing of any future change orders. The contract allows 390 working days for completion of this project.

Bid documents were distributed to 11 general contractors. Bids were opened on Thursday, October 7, 2004. Laughlin-Thyssen, Ltd. submitted the lowest of 3 bids received:
