PRIOR COUNCIL ACTION: N/A

BOARD AND COMMISSION ACTION: Recommended by the Water and Wastewater Commission.

PURCHASING: Lowest bid of three received.

MBE / WBE: 1.1% MBE and 81.4% WBE subcontractor participation.

The Austin Clean Water Program (ACWP), on behalf of the Austin Water Utility and the Public Works Department, is proposing to install a new wastewater line in Reed Park and the Common Area of the Bello Vista Homeowners Association (Common Area) from Pecos Street to Scenic Drive, just south of River Road. The improvements are intended to replace aging and deteriorated facilities and eliminate wastewater overflows that have occurred in the area. This project was developed as part of the ACWP effort to respond to the requirements of the Environmental Protection Agency's Order regarding Sanitary Sewer Overflows. The new line will be a 12-inch wastewater line in Reed Park and will increase in size in the Common Area to a 15-inch wastewater line. The new line will replace an existing wastewater line in this area.

Specifically, the project includes the installation of 2,300 linear feet of 12 and 15-inch wastewater main line. The project also includes 330 linear feet of 8-inch wastewater line and 90 linear feet of 12-inch wastewater line to connect existing service laterals to the new wastewater main line. A total of 22 new manholes will be installed throughout the entire project area. The majority of the installation will occur within Reed Park and the Common Area. The work is scheduled to begin September 2005 after the Reed Park swimming pool is closed and is estimated to take 8 months to complete. During this period, Reed Park will be closed. ACWP has held several public meetings and worked closely with the Friends of Reed Park and other residents in the neighborhood to address their concerns and gain their acceptance of the project.

Due to the potential for unknown subsurface conditions and utility conflicts when working in the right-of-way, a 5% contingency in funding has been included to allow for the expeditious processing of any future change orders. The contract allows 180 working days for completion of this project.
