"Austin, Texas, May 17, 1933.

TO THE MEMBERS OF THE CITY COUNCIL,
Austin, Texas.

Gentlemen:

It will be impossible for me to be present at the meeting of the Council Thursday, due to the fact that I have an appointment at the Scottish Rite Cathedral which is a semi-annual affair and which I cannot do other than be present.

Doubtless, some important matters will come before the Council tomorrow, that is the formal election of a City Manager. In the event that that matter does come up, I would appreciate the records being made to show that if I had been present I would have cast my vote for Mr. Morgan for City Manager, in line with the majority of the Council. I think that this selection should be unanimous, and under the circumstances this is about the only way that I can suggest that it be made unanimous, as far as I am concerned.

Regretting that I am unable to be present, and feeling sure that my associates will understand, I am,

Sincerely yours,

(Sgd) G. M. Bartholomew.

Councilman Gillis then nominated Guilt Morgan as City Manager, effective June 1, 1933. The nomination was seconded by Councilman Alford and same was confirmed by the following vote: Ayes, Councilman Alford, Councilman Bartholomew, by Mayor Miller as proxy, Councilman Gillis, Mayor Miller, and Councilman Wolf, 5; nays, none.

The Mayor then declared Guilt Morgan duly elected City Manager, effective June 1, 1933.

Mrs. Chas. Stephenson, President of the Austin Public Library Commission, presented to the Council the following written communication:

"Austin, Texas, May 16, 1933.

To the Mayor and Members of the City Council:

The attached report of the committee appointed by me to recommend a site for the Negro Branch Library was unanimously adopted by the Austin Public Library Commission, Tuesday, May 16th, and is herewith submitted for your consideration.

Very truly yours,

(Sgd) Mrs. Charles Stephenson,
President, Austin Public Library Commission.

(Attached Report)

SITE FOR NEGRO BRANCH LIBRARY.

The Committee, through Mr. Pannell, invited offers of lots suitable for the location of the negro branch library. Mr. Pannell spent much time hunting for available lots. I regret that he cannot be here to make this report, for he is much more conversant with everything that has been done."
The lots that were found available are listed below. They were not offered in writing, so every item is subject to verification. No promises of any sort have been made by the Committee.

1. Site adjoining negro community center on Angelina Street consists of two lots, 55' front and 185' deep. The inside lot is owned by Mrs. Maggie Washington. It is vacant and priced at $675.00. The lot on the corner is owned by Arthur Durst, who lives on it. It is priced at $100.00, without the house.

2. The Harrington lot fronts 126' on Cotton Street and 100' on Navasota Street. It is priced at $1900.00.

3. The Anderson lot is located on west side of Navasota Street, a little south of Cotton Street. It measures 85'x96' and is priced at $1750.00.

4. The Fuller lot is located at the corner of Angelina Street and Hackberry Street. It fronts 90' on Hackberry Street and runs back 148' on Angelina Street. This lot is offered whole or in part; 90'-140' is priced at $1200.00, or the entire lot is priced at $1800.00. There are two houses on this lot. They are not included in these prices.

The Committee has visited these lots several times and has carefully considered their suitability for the purpose, along with the prices. We recommend to the Commission the Fuller lot as a site for the Negro branch of the Austin Public Library.

Mrs. T. H. McGregor
Mrs. Ch. Stephen son, ex officio
Victor H. Pannell, Chairman
Bill Wess
E. B. Winkler, Reporter in the absence of the Chairman

Mrs. Stephen son stated orally to the Council that the Library Commission had not recommended the purchase of the two lots adjacent to the Community Welfare Center at Angelina and Cotton Streets, as recommended by the Negroes in their mass meeting, for the reason that the price of same was found to be prohibitive.

Rev. J. H. Harrington submitted to the Council a minority report of the Baptist Ministers Union denying the claim of the Committee of Colored Citizens that the site at the corner of Angelina and Cotton Streets, adjacent to the Community Welfare Center, had been selected as a site for the Negro Library by the colored citizens in mass meeting.

L. B. Lyons and Dr. Givens were present and spoke on the above matter, following which Councilman Gillie moved that the recommendation of the Library Commission that the City purchase the Fuller lot at the southeast corner of Angelina and Hackberry Streets as a site for the Negro Library, at the price of $1800.00, be approved and that the Acting City Manager be directed to proceed with the purchase of same. The motion was seconded by Councilman Wolf and same prevailed by the following vote: Ayes, Councilmen Alford, Gillie, Mayor Miller, Councilman Wolf, 4; nays, none; Councilman Bartholomew absent, 1.

Mr. John Weston, representing the Hiram Drug Store at the corner of Seventh Street and Congress Avenue, appeared before the Council and asked that they be given permission to have a space marked off on Seventh Street adjacent to their building as an unloading zone, in which the parking of automobiles will be prohibited. The matter was referred to Tom Neal, Traffic Police Captain, for investigation and recommendation to the Council.

The application of R. A. Miller for transfer to him of the license heretofore issued to J. E. Haire to operate as a taxi cab one 1930 Model DeSoto Sedan, Engine No. R3056, State Highway License No. A 30-654, was read. Councilman Alford moved that the transfer be made. The motion was seconded by Councilman Gillie and same prevailed by the following vote: Ayes, Councilmen Alford, Gillie, Mayor Miller, and Councilman Wolf, 4; nays, none; Councilman Bartholomew absent, 1.

The application of D. F. Samuel for license to operate as a taxi cab one 1929 Model Ford Sedan, Engine No. A134869, State Highway License No. A 34-969, was read. Councilman Alford moved that the application be granted. The motion was seconded by Councilman Gillie and same prevailed by the following vote: Ayes, Councilmen Alford, Gillie, Mayor Miller, and Councilman Wolf, 4; nays, none; Councilman Bartholomew absent, 1.
The application of Joe Beard for license to operate a taxicab one Erskine Coach, 1939 Model, Engine No. 9F131-861, State Highway License No. A35-141, was read. Councilman Alford moved that the application be granted. The motion was seconded by Councilman Gillis and same prevailed by the following vote: Ayes, Councilmen Alford, Gillis, Mayor Miller, and Councilman Wolf; nays, none; Councilman Bartholomew absent.

The application of the Austin Ice Company for permit to erect a drive-in ice station at the southeast corner of 12th and Chicon Streets was read.

The Mayor then laid before the Council the following:

"Austin, Texas, May 16, 1933."

Hon. City Council,
City of Austin, Texas.

Gentlemen:

Pursuant to your request, we have investigated the application of the Austin Ice Company for a permit to construct commercial driveways on Chicon and 12th Streets so as to conduct a drive-in ice service station. We find that A. J. Zilker, Jr., President of the Austin Ice Company, is the owner of this property and that said property is within the "C" Commercial Use district according to the zoning map of the City of Austin.

We recommend that this property be approved for a commercial drive-in ice station and that a permit be granted for commercial driveways subject to the following conditions:

That a curb and gutter be constructed of concrete adjacent to said property and that the driveway, ramps and adjacent sidewalk be also constructed of concrete, all in accordance with plan No. 2-O-833, which accompanies this communication.

That because there will be considerable commercial waste water accumulated during the operation of this type of business, the interior of the property shall be graded in such a manner that no commercial waste water will ever cross any sidewalk area and that same shall be concentrated and carried by a pipe to a seep well or cistern in accordance with the requirements of the Health Department of the City of Austin.

That all work shall be done under the direction of the City Engineer.

Assuming that the City Council will approve the foregoing recommendations, we have prepared a resolution which, if adopted, will grant a permit accomplishing said purpose.

Respectfully submitted,

(Sgd) Orin E. Metcalfe, City Engineer.

O. S. Moore, Building Inspector.

The property at this location has been zoned for business use and we recommend that the request be granted subject to the construction of concrete curbs and driveways as shown on the plan hereto attached marked E-H-324.

(Note) This ordinance was read the second time and the rule was further suspended and same was passed to its third reading and final passage by the following vote: Ayes, Councilmen Alford, Gillis, Mayor Miller, Councilman Wolf, 4; nays, none; Councilman Bartholomew absent, 1.
"Austin, Texas, May 17, 1933.  

Mr. Geo. C. Grant,  
Acting City Manager,  
Austin, Texas.

Dear Sir:

We, the undersigned, have considered the application of R. E. Leigh for a permit to construct, maintain and operate a drive-in gasoline filling station and grease rack at the southwest corner of the intersection of Congress Avenue and Riverside Drive, same being a portion of the Isaac Decker League within the City of Austin and being located at 4400 South Congress Avenue, and we hereby advise that the following conditions exist:

(a) He proposes to construct his filling station on property which is shown on the zoning map as being located within the "C" Commercial Use district.

(b) A storm sewer exists on the west side of South Congress Avenue opposite the property on which the applicant proposes to construct his filling station and into which waste water can be concentrated.

(c) R. E. Leigh proposes to comply with all City rules and regulations and ordinances regulating filling stations.

(d) The property upon which R. E. Leigh proposes to construct his filling station is owned by H. H. Crockett but has been leased to R. E. Leigh as evidenced by an instrument recorded in Travis County Deed Records in Volume 409, Page 506.

(e) Riverside Drive as dedicated to public use is 40 feet wide and the proposed distance between curbs on this street has been only 28 feet. This left only 7 feet for sidewalk and driveway ramp combined, which would create a ramp too steep for a practical filling station entrance. Mr. Leigh, recognising this condition, proposes to construct his gutter, curb, ramp and sidewalk on his Riverside Drive entrance entirely upon his own property, thereby increasing the width of the travelway of Riverside Drive from 28 to 35 feet.

He proposes to permit the general public to use 3 feet of his leased land for general public travel as a part of Riverside Drive during the period of his lease.

He proposes to build the gutter, ramp, curb and sidewalk on the Riverside Drive side of his station, which is to be upon his own property, in accordance with the same principles as he would be required to construct same if they were to be constructed on City property.

We recommend that R. E. Leigh be granted permission to construct, maintain and operate said filling station and grease rack subject to the following conditions:

(1) That all buildings and equipment shall be placed inside of the property line, correct lines to be obtained before construction starts or equipment is installed. Lines and grades to be obtained from the City Engineering Department for entrances and driveways, building lines to be approved by the City Building Inspector. That the applicant shall confer with the City Engineering Department as to the future grades of the sidewalks and gutters on the adjacent streets before he starts any construction relative to the filling station.

(2) That all construction of the filling station improvements shall be in accord with the building ordinance, the zoning ordinance, the filling station ordinance, and in accord with the ordinance prohibiting the disposal of commercial water or oil upon the City streets.

(3) That the grades of the station shall be such that no waste oils or water or any floor washings shall ever pass over the City sidewalk area and that all of said oils and water shall be concentrated into a combined grease and sand trap which shall be constructed in accordance with our standard plan 2-0-146 and shall be conducted by a pipe connection from said sand trap to the nearest storm sewer at the expense of the applicant. Before commencement of any construction the applicant shall apply to the City Engineer for an estimate of the cost of that portion of the storm sewer which will have to be built within any City street or alley and shall deposit in escrow a sum equal to said estimate with the City Finance Director.

(4) That all filling station improvements, pumps, driveway ramps, gutters, sidewalks and curbs shall be constructed of concrete at the expense of the applicant, all in accordance with plan No. 2-0-146.

(5) That before use of said station, the owner shall apply to the Building Inspector for final inspection when he considers that he has complied with all the requirements of the City.

Respectfully submitted,

(Sgd) Orin E. Metcalfe, City Engineer.

G. S. Moore, Building Inspector.*
BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

THAT the City Council of the City of Austin hereby approves as a filling station site the property situated at the southeast corner of the intersection of Congress Avenue and Riverside Drive, same being legally described as a portion of the Isaac Decker League of Travis County within the City of Austin, Texas, and hereby authorizes R. E. Leigh to construct, maintain and operate a drive-in gasoline filling station and grease rack subject to same's being constructed in compliance with all the ordinances relating thereto, and further subject to the foregoing attached recommendations and plans, and the Building Inspector is hereby authorized to issue an occupancy permit for the operation of this filling station after full compliance with all the provisions of this resolution, and said permission shall be held to be granted and accepted subject to all necessary, reasonable and proper, present and future regulations and ordinances of the City of Austin, Texas, in the enforcement of proper police, traffic and fire regulations; and the right of revocation is retained if, after hearing, it is found by the City Council that R. The application of W. T. Caswell for permit to construct a ramp on the north side of his property at 2204 Guadalupe Street was read.

The Mayor then laid before the Council the following:

"Austin, Texas, May 16, 1933.

Mr. Geo. Q. Grant, Acting City Manager, and Honorable City Council, City of Austin, Texas.

Gentlemen:

Pursuant to your request, I have investigated the application of W. T. Caswell for a permit to construct a ramp on the north side of his property along the south side of West 29th Street immediately west of Guadalupe Street.

I believe that it would be to the advantage of the City of Austin to grant the permit as it would permit the parking of cars in a safe place, whereas if the permit were not granted people would continue to park the cars along the present south curb of West 29th Street and the cars parked along the present curb would impede traffic and also endanger traffic when said cars were in the act of leaving their parking places. However, I wish to call your attention to the fact that the proposed method of handling the sidewalk area would put the sidewalk out of line with the sidewalk west of the alley, but I still believe that the advantages to be gained as a matter of safety are greater than the disadvantage to the public. Mr. Caswell should be required to give the City a conditional easement for sidewalk purposes across a portion of the north edge of his property in the event the permit is granted. A map marked S-H-117 accompanies this report and in the event the City Council, after consideration, decides to grant the permit a resolution which accompanies this report can be used to accomplish said purpose. The following standard conditions should be required if the permit is granted:

That all of the proposed ramp area and the sidewalk and the revised curb line shall be constructed at the expense of the applicant in accordance with the attached plan S-H-117 and under the direction of the City Engineer.

Respectfully submitted,

(Sgd) Orin E. Metcalfe, City Engineer.
