PRIOR COUNCIL ACTION: 10/27/05 - Council directed the City Manager to develop a mechanism to preserve the historic Maverick Miller House by transferring a portion of the allowable building height.

BOARD AND COMMISSION ACTION: Recommended by Planning Commission.

PURCHASING: N/A

MBE / WBE: N/A

On October 27, 2005, the City Council approved a resolution directing the City Manager to develop a mechanism to preserve the Maverick Miller House, located at 910 Poplar Street. The mechanism suggested was a transfer of development rights; however, since the current land development code does not provide this mechanism, regulations currently within the code were used to accomplish the same end.

As an amendment to the University Neighborhood Overlay (UNO) an additional height of 30' is proposed for 900-908 West 26th St. (located across the street from the Maverick Miller House), allowing a building height of 120'. In a related rezoning case, the height of the Maverick Miller House will be lowered to 30' from the current allowable height of 50'. The difference is 20'. An additional 10' decrease in building height was based upon negotiations between the property owner and the neighborhood.

On January 10, 2006, the Planning Commission unanimously recommended a number of changes to UNO, in addition to increasing the height at 900-908 West 26th St. The following numbered items are the recommendations of the Planning Commission:

1. Amend Section 25-2, Appendix C, the University Neighborhood Overlay height map, to allow 120' on 900-908 W. 26th Street.
2. Amend Section 25-2, Appendix C, the University Neighborhood Overlay height map, to allow 220' on 2100 Rio Grande Street.
3. Amend Section 25-2-760-Streetscape Improvements, to require a minimum of 12' wide sidewalks along W. 21st Street from Guadalupe Street to Pearl Street.
