PRIOR COUNCIL ACTION: The FY 2005-2006 Operating Budget was approved on first reading, September 12, 2005.

BOARD AND COMMISSION ACTION: N/A

In April 2002 the Centers for Medicare and Medicaid Services (CMS), the federal organization that administers the Medicare and Medicaid insurance programs, began phasing in a National Ambulance Fee Schedule. The goal of the National Ambulance Fee Schedule was to standardize and simplify the process for ambulance services filing claims to Medicare. Due to the significance of the changes, Medicare slowly phased in its aspects over a multi-year period.

The National Ambulance Fee Schedule became fully implemented beginning in January 2006, and with its implementation the Austin-Travis County Emergency Medical Services (ATCEMS) Department is requesting to make changes to its fee schedule to be consistent with Medicare billing guidelines, and in addition, add new fees for specialized procedures. The changes include adjusting the Basic Life Support (BLS) base rate to coincide with new Medicare requirements; and adding fees for specialty equipment that has become operational for ground units and/or STAR Flight due to new clinical operating guidelines.

These changes will have only a minimal impact on the amount of revenue collected by EMS from billing insurance and individuals. Changing the BLS rate simply maintains revenues at their current levels, and the new fees for the new procedures are for specialized situations and services.
