## MEMORANDUM

\*\*\*\*\*

**TO:** Will Wynn, Mayor and City Councilmembers

**FROM:** Greg Guernsey, Director  
Neighborhood Planning and Zoning Department

**DATE:** January 9, 2006

**RE:** East Riverside / Oltorf Combined Neighborhood Plan

\*\*\*\*\*

On October 25, the Planning Commission held a public hearing on the East Riverside / Oltorf Combined Neighborhood Plan and three associated zoning cases for the Parker Lane (C14-05-0111), Riverside (C14-05-0112) and Pleasant Valley (C14-05-0113) neighborhood plans.

Planning Commission postponed action on the Neighborhood Plan and on the associated rezoning cases until March 28, to allow additional time for areas of disagreement to be worked out.

However, rezoning on several tracts was supported by the property owners, staff and the stakeholders that had been involved in the neighborhood planning process. The Planning Commission recommended that City Council approve the rezoning on these tracts while work continues on the rest of the neighborhood plan.

The property owners, neighborhood representatives, staff and the Planning Commission support the following rezonings. These consensus tracts are:

**SUMMARY OF STAFF RECOMMENDATION:**

The proposed zoning change creates a Neighborhood Plan Combining District (NPCD) for the entire area.

For each of the 12 tracts (numbered 300-311) the attached chart lists the street address, the existing zoning, and proposed zoning. Staff recommends the adoption of the proposed zoning base zoning for these tracts.

Additionally there are some tracts not recommended for rezoning by staff which are being offered by the neighborhood stakeholders for consideration by the commission. (See Attachment 5)

This case is associated with C14-05-0111 Parker Lane Neighborhood Plan Rezoning, C14-05-0112 Riverside Neighborhood Plan Rezoning and NP-05-0021 East Riverside/Oltorf Combined Neighborhood Plan.

## East Riverside/Oltorf Combined Neighborhood Planning Area

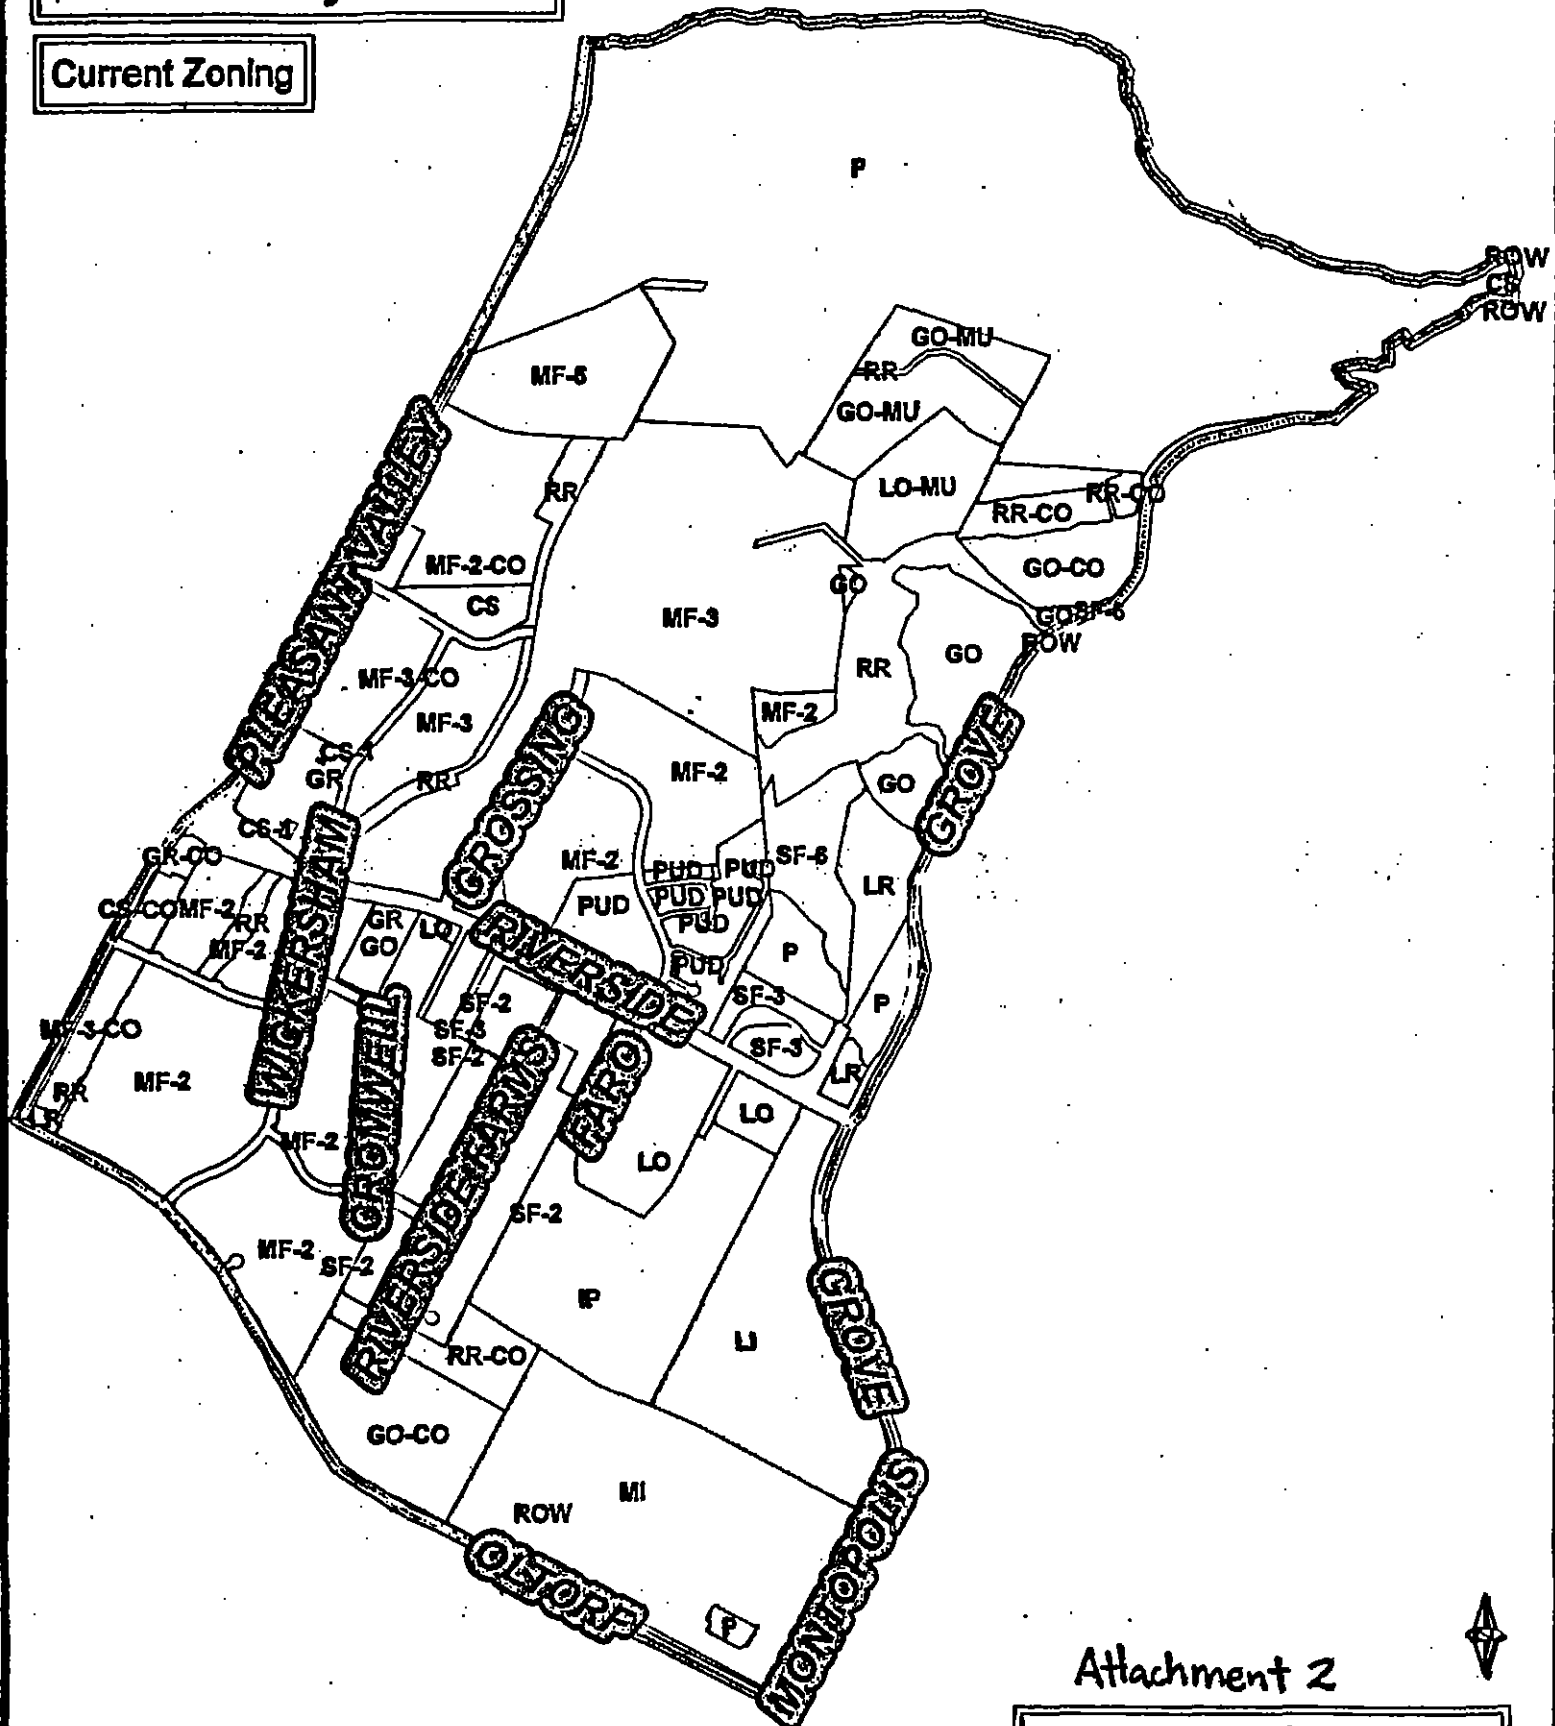

# EAST RIVERSIDE/COTRIF NEIGHBORHOOD PLANNING AREA

Pleasant Valley Plan Area

Current Zoning

Attachment 2

This map has been produced by the City of Austin Neighborhood Planning & Zoning Department for the sole purpose of facilitating neighborhood planning. It should not be referred to as an official source of land use or zoning and is not warranted for any other use. No warranty is made regarding its accuracy or completeness.

**SUMMARY STAFF RECOMMENDATION**

**C14-05-0113**

The proposed zoning change creates a Neighborhood Plan Combining District (NPCD) for the entire area.

For each of the 12 tracts (numbered 300-311) the attached chart lists the street address, the existing zoning, and proposed zoning. Staff recommends the adoption of the proposed zoning base zoning for these tracts.

Additionally there are some tracts not recommended for rezoning by staff which are being offered by the neighborhood stakeholders for consideration by the commission. (See Attachment 5)

This case is associated with C14-05-0111 Parker Lane Neighborhood Plan Rezoning, C14-05-0112 Riverside Neighborhood Plan Rezoning and NP-05-0021 East Riverside/Oltorf Combined Neighborhood Plan.

**BASIS FOR LAND USE RECOMMENDATION**

The staff recommendation is derived from the goals and objectives for land use as described in the East Riverside/Oltorf Combined Neighborhood Plan.

**DEPARTMENT COMMENTS:**

**Transportation**

Additional right-of-way (ROW) necessary for future roadway improvements within the proposed zoning may be required during the subdivision review process or the site plan review process.

Since the rezoning of this area is being initiated by the City of Austin through the neighborhood planning process and does not reflect a specific development proposal, no trip generation calculations are provided on a tract by tract basis for any proposed land uses as would typically be provided.

A Traffic Impact Analysis (TIA) will be required during the site plan review stage for any proposed land use that would generate over 2,000 vehicle trips per day. Additional ROW, participation in roadway improvements, and/or limitation on development intensity may also be recommended based on review of the TIA.

**Existing Conditions:**

Name	ROW	Pavement	Classification	Sidewalks	Bus Route	Bike Route
Oltorf Street	90'	60'	Arterial	Yes	#27, 14, 26, 300, 331	#61, 68
PleasantValley Rd.	120'	Varies	Arterial	Yes	#8, 26, 300, 320, 490	#59, 61
E. Riverside Dr.	Varies	2 @ 33'	Arterial	Yes	#26, 27, 350, 411, LS, NR, CP	#60
Grove Blvd.	90'	2 @ 24'	Collector	Yes	#4, 26, 331, 350	No
Wickersham Lane	80'	2 @ 24'	Collector	Yes	#26, 411, CP	No

**Environmental**

The neighborhood is not located over the Edward's Aquifer Recharge Zone. The neighborhood is in the Desired Development Zone. The majority of the neighborhood lies in the Country Club Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. A smaller portion of the northern side of this neighborhood falls within the Colorado River Watershed, which is, in this location, classified as an Urban Watershed.

Under current watershed regulations, development or redevelopment within the Suburban Watershed portion of this neighborhood is subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

Impervious cover is not limited in the Urban Watershed; therefore the zoning district impervious cover limits apply.

According to flood plain maps, there are floodplains throughout the neighborhood. Offsite drainage should be calculated to determine the exact location of the boundaries. In both the suburban and urban watersheds, no development is permitted in the Critical Water Quality Zone. In the suburban watershed, impervious cover is limited to 30% in the Water Quality Transition Zone.

At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Water quality requirements for each watershed classification are as follows

***Suburban:*** Under current watershed regulations, development or redevelopment will be subject to the following water quality control requirements:

- **Structural controls:** Sedimentation and filtration basins with increased capture volume and 2 year detention.

***Urban:*** Projects are required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm.

### **Site Plan**

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district or used as single family residential, will be subject to compatibility development regulations. Additional design regulations will be enforced at the time a site plan is submitted.

Riverside Drive is a scenic roadway.

### **Water and Wastewater**

The area is currently served with City of Austin water and wastewater utilities. If water or wastewater utility improvements, or offsite main extension, or system upgrades, or utility relocation, or adjustments are required, the landowner, at own expense, will be responsible for providing. Also, the water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The utility construction must be inspected by the City. The landowner must pay the associated City fees.
