Austin Water Utility CITY OF AUSTIN

AGENDA #3
DATE: 4/20/2006

RECOMMENDATION FOR COUNCIL ACTION

Subject: Approve a time extension to the existing professional service agreements with the following four firms: LOCKWOOD, ANDREWS and NEWNAM, INC., Austin, TX; HNTB CORPORATION, Austin, TX; METCALF and EDDY, INC., Austin, TX; and PBS and J, Austin, TX to provide professional engineering services for water system improvements to meet minimum standards, for an additional three years, or until financial authorization is expended whichever occurs sooner.

Amount and Source of Funding: Additional funding authorization is not required. Funding for remaining projects is available in the Capital Budget for the Water and Wastewater Utility.

Fiscal Note: A fiscal note is attached.

Requesting Department: AWU

For More Information:

Prior Council Action: Award of Minimum Pressure Standards Rotation List – 11/04/98, Approval of three year time extension – 04/10/2003

Boards and Commission Action: Recommended by Water and Wastewater Commission

MBE/WBE: Participation goals stated in the original rotation list solicitation were 8.6% MBE and 18.2% WBE. The scope of services for rotation contracts varies with each project and is not known until projects are assigned.

The Utility has modeled the water distribution system and determined several areas that do not meet minimum State and City pressure standards. This Rotation List provides for improvements to the distribution system that are needed to improve the level of service so that these areas will meet or exceed the minimum pressure standards.

On November 4, 1998, four firms were selected for the Minimum Pressure Standards Rotation List with a total authorization in the amount of \$3,000,000. This rotation list was established to provide consultants to plan and design the construction of water system improvement projects in the affected areas.

The requested extension will provide adequate time for completion of existing projects that have already been started, but the contract time ran out before they could be completed.
