Public Hearings and Possible Actions RECOMMENDATION FOR COUNCIL ACTION

TEM NO: 49

Subject: Consider approval of an appeal by applicant Tumbleweed Investment Joint Venture of the Zoning and Platting Commission's denial of applicant's extension requests for a site plan; Rancho La Valencia, SP-01-0356D, located at 9512 FM 2222. (The Zoning and Platting Commission denied the request for a one-year and three-year extension.)

### RANCHO LA VALENCIA SITE PLAN APPEAL OVERVIEW

## **Proposed Development:**

- The applicant proposes to construct 89 condominium units within 55 buildings, water quality and detention ponds, parking, drives and utilities on 9.74 acres.
- The site is located within the West Bull Creek, partially within the Edwards Aquifer Recharge Zone.
- The site plan was approved on 2/14/02; at that time the site was located within the 2-mile ETJ. At the time of approval, the plan complied with all applicable development regulations. It was not required to conform to zoning regulations and Hill Country Roadway requirements.
- On 9/26/02, the site was annexed into the Full Purpose Jurisdiction of the City, and given the zoning designation of I-RR, Interim Rural Residential.
- Currently located on a Hill Country Roadway, FM 2222.

#### **Applicant Request:**

- The applicant is requesting approval of a 1 year administrative extension to an approved site plan, which would extend the expiration of the site development permit to 2/14/05.
- In addition, the applicant is requesting an additional 3 year extension to the life of the site development permit, which would extend the permit to 2/14/08.

#### Development Issues:

- The development is located within the Lot 1, Block A Tumbleweed Subdivision. The proposed use for this subdivision was commercial.
- Project does not comply with the current zoning, I-RR, and has not requested a zoning change.
- The project would also be subject to the Hill Country Roadway requirements, but at this time is not in conformance.
- Two notices of violation are outstanding, one for construction activity outside the limits of construction, and one for development not in accordance with the released site plan.

#### Staff's Recommendation:

 Deny the applicant's request for a 1 year and 3 year extension to the site development permit, because it does not comply with the requirements that would apply to a new application for site plan approval, Section 25-5-62(C). Specifically this project does not comply with the current zoning district I-RR nor the Hill Country Roadway requirements.

## Zoning and Platting Commission Action:

On October 18, 2005, ZAP upheld the Director's decision to not recommend the
one year extension request and voted to deny the appeal, (9-0). On this same date
ZAP also upheld staff's recommendation to deny the request for a 3 year
extension (9-0).

applicant, Consent (6-0).

PREVIOUS APPROVALS: C8-95-0061.0A; Lot 1, Block A, Tumbleweed Subdivision -

Approved 4/5/1996

SP-01-0356D; Rancho La Valencia site plan -

Approved 2/14/2002

#### **BACKGROUND:**

The site plan for this project was approved on February 14, 2002, which proposed 55 condominium buildings, water quality and detention ponds, parking, drives and utilities. At the time of approval the plan met all applicable regulations. The site is located on FM 2222, about ½ mile east of RM 620. Current site conditions consist of 2 vacant buildings, the main drive, silt fence, some tree protection, utilities and a water quality pond.

Prior to site plan approval the existing subdivision was submitted and approved, which allowed for commercial development on the 9.748 acre tract. A restrictive covenant was executed with the subdivision that required parkland be dedicated "before the property may be used or developed for any residential purpose". The parkland dedication fee was paid on February 14, 2002, which was the date of site plan approval.

At the time of approval of the both the subdivision and site plan, the subject property was located within the City of Austin's 2-Mile Extra Territorial Jurisdiction; therefore, not requiring the site plan to conform to zoning regulations, and Hill Country Roadway requirements. On September 26, 2002 this site was annexed into the Full Purpose Jurisdiction of the City, and given the zoning district designation of I-RR, interim rural residential. Since that time the owner or his agent has not requested the zoning be changed to conform to city regulations to allow for this development.

There have been two notices of violations given by the Environmental Inspector for construction activity outside the limits of construction at the wastewater receiving and off-site waterline tie in. Due to current litigation between the two owners, compliance has not been attained.

On February 14, 2005, the applicant submitted a request for a one year administrative extension to the site plan, which would extend the life of the plan to February 14, 2006. The director denied the request for a one year extension. After the applicant was informed of the denial of the extension on August 9, 2005, an appeal was filed the next day, August 10, 2005.

The applicant has also requested a 3 year extension to the site plan, due to the additional time needed by his client to work out legal issues with the owners. The request was made after the one year extension was denied in conjunction with the appeal.

#### SUMMARY COMMENTS ON SITE PLAN APPEAL:

After review by staff it was determined that this project did not meet the criteria for approval of an extension, because the site plan did not substantially comply with the requirements that would apply to a new application for site plan approval [Section 25-5-62(C)]. Specifically, this project does not comply with the current zoning district of I-RR, Interim Rural Residential nor the Hill Country Roadway requirements.

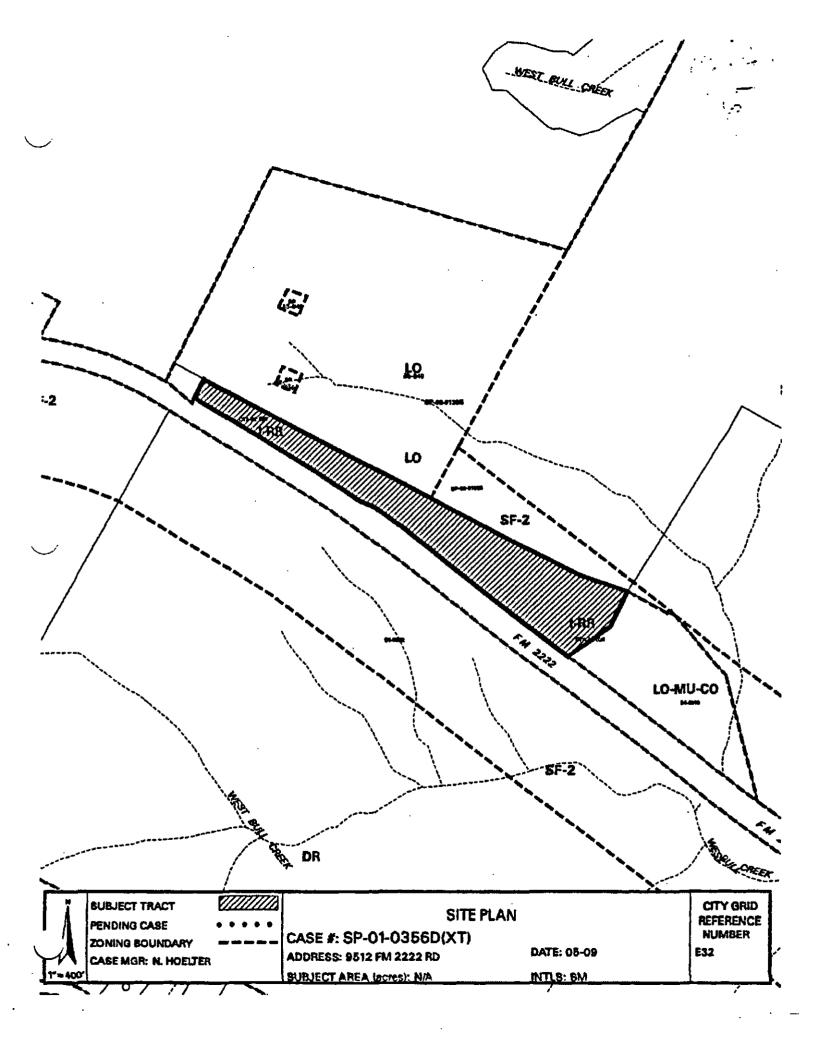

In order for this plan to comply with current Land Development Code regulations, it would need to receive waivers from Section 25-2-1123 – Construction on Slopes, 25-2-1124 – Building Height, 25-2-1125 – Location of On-site Utilities, 25-2-1127 – Impervious Cover, 25-2-1022 –

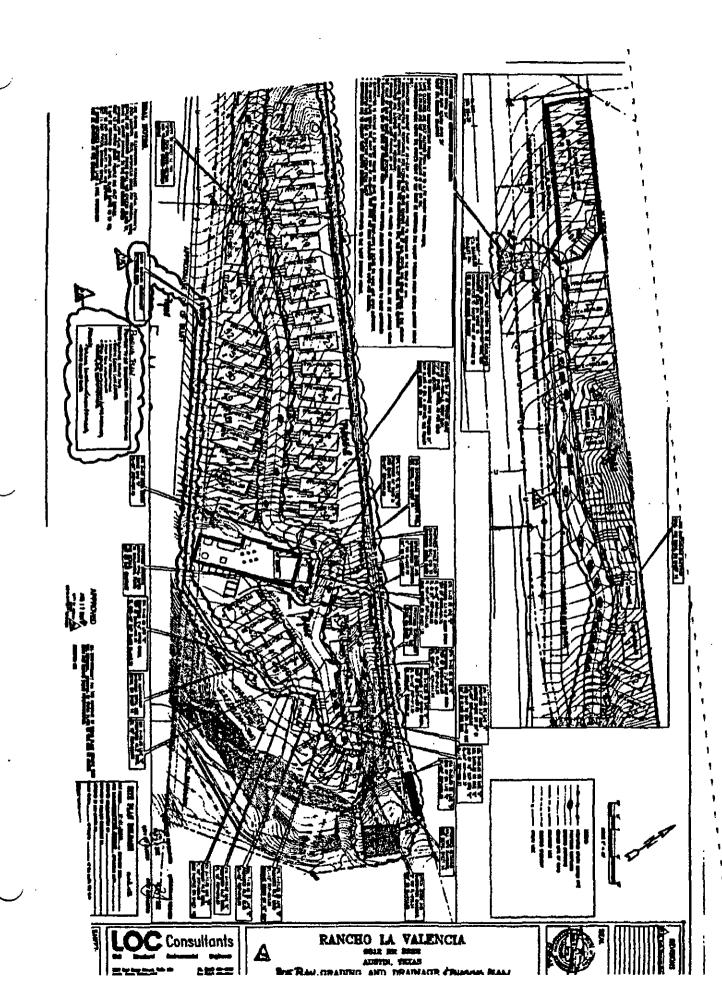

Native Trees (landscape plan), 25-2-1023 – Roadway Vegetative Buffer, 25-2-1024 - Restoring Roadway Vegetative Buffer, 25-2-1025 - Natural Area, 25-2-1026 – Parking Lot Medians and 25-2-1027 – Visual Screening. The Land Use Commission would be the authority to approve or deny these waivers from the Hill Country Roadway Ordinance, but at this time waivers have not been requested.

This plan would also be required to comply with the current zoning district regulations for I-RR, such as limit the height to 35 feet, decrease dwelling units to one unit, front setback of 40 feet, rear setback of 20 feet, decrease the building coverage to 20% and decrease the impervious cover to 25%. Current impervious cover is 40%; the height, building coverage and floor to area ratio is not known because applications which fall outside the full purpose jurisdiction are not required to provide that information. The Board of Adjustment would have the authority to approve any variances to the zoning regulations.

#### **ISSUES:**

The issue before the Commission is whether to grant or deny the appeal of the Director's decision to disapprove the site plan extension. If the appeal is denied, a new application conforming to current regulations is required. If the appeal is approved, the site plan would be extended for one year from the original expiration date, to February 14, 2006. The Commission also has the option to extend the site plan for up to three additional years beyond this date per the applicant's request.

RE: SP-01-0356D(XT)- 9512 2222 Site Plan Extension Appeal Hearing - Rancho La Valencia

## Commissioners,

Please deny the Rancho La Valencia site plan extension and its appeal (agenda items 3 and 4) at the October 4 Zoning and Platting Commission meeting.

This development should conform to the established development requirements for the City of Austin, in particular the Land Development Code for new site plan approval applications, the Hill Country Roadway Ordinance and all current soning.

Thank you,

Peter Torgrimson Regional Affairs Coordinator Long Canyon Homeowners Association, Inc. Long Canyon Phase II Homeowners Association, Inc.

SP-01-0356D(XT)- Oct. 4 - 9512 2222 Site Plan Extension Appeal Hearing -

Please see that this site plan extension and its appeal are denied. The site plan does not comply with the requirements of the Land Development Code that would apply to a new application for site plan approval. The site is now within the City's full purpose jurisdiction and would be required to comply with current soning and the Mill Country Roadway ordinance.

9512 2222 Site Plan Extension Appeal Hearing - Rancho La Valencia

Dear Commission Members and CofA Planner, I am writing to ask that you support denial of the site plan extension request for SP-01-0356D(XT) that is scheduled for hearing on 4 October 2005.

The site plan does not comply with the requirements of the Land Development Code that would apply to a new application for site plan approval. The site is now within the City's full purpose jurisdiction and should be required to comply with current soming and restrictions, including the Hill Country Roadway Ordinance.

Bincerely, Carol Lee Glenlake Neighborhood Austin, TX clee@austin.rr.com 512.794.8250

#### Honorable Council Members -

The elected board of the River Place Residential Community associations supports the Zoning and Platting Commission decision to deny requests for extensions to the approved site plan for the Rancho La Valencia development in case SP-01-0356D. We ask the council to deny the appeal as well. I have cord Wick Tobias, President of the elected board of the River Place Residential Community Association.

Sincerely, Charles Farmer

ver Place Residential Community Association
