Prior Council Action:

Boards and Commission Action:

On March 9, 2006 the City Council adopted development regulations which provided development limits in subdivisions within the City limits for which the original plat was approved before March 7, 1974, or on a tract that may legally be developed without being platted. For a building permit to construct single-family, single family attached, two-family, secondary apartment, and duplex structures; for a building permit for a new structure on a lot where, before March 9, 2006, a structure has been or will be demolished or relocated, the new structure's size is limited to the greater of:

- (a) 0.4 to 1 floor-to-area ratio;
- (b) 2,500 square feet; or
- (c) 20 percent more square feet than the existing or pre-existing structure.

This ordinance includes a provision which allows City Council to waive the development limitations if the Council determines that the development regulations impose an undue hardship on the applicant and the development proposed by the applicant will not adversely affect public health, safety, and welfare.

Applicant Mr. Ben Heimsath is requesting a waiver from Ordinance No. 20060309-058 in order to construct a duplex at 4709 Caswell Drive. The two story structure will have 3800 square feet of gross floor area. The proposed development will not exceed the floor to area ratio and square footage limitations under Ordinance No. 20060309-058. The proposed development would comply with all other zoning regulations, including building and impervious cover limitations as well as height requirements.

Applicant is requesting a waiver from Ordinance No. 20060309-058 Part 4 (A) - An application for a demolition or relocation permit for a structure must be filed concurrently with an application for a permit described in Subsection (C) or (D).
