For More Information: Martha L. Gaines, Buyer II/322-6583

Purchasing Language: Low bid meeting specification of two bids received.

MBE/WBE: This contract will be awarded in compliance with Chapter 2-9D of the City Code (Minority-Owned and Women-Owned Business Enterprise Procurement Program). No subcontracting opportunities were identified; therefore, no goals were established for this solicitation.

This contract is for intermediate and hot end baskets that are on the air pre-heaters on Decker unit #1. An air pre-heater is a heat exchanger which uses exhaust gas to heat up combustion air from the Forced Draft Fans before it enters the furnace. The preheating of combustion air makes the boiler more efficient because it takes less fuel to heat the furnace.

The hot end and intermediate layer of baskets are deteriorating. We are also removing large quantities of rust from the boiler which is coming from the air pre-heater baskets. The primary cause of the deterioration is corrosion resulting from moisture in the boiler exhaust gas. These are the original baskets which went into service in 1968. The new baskets will be made from upgraded steel which will stand up better to the environment.

MBE/WBE solicited: 1/1 MBE/WBE responded: 0/0

PRICE ANALYSIS
a. Adequate competition.
b. Eleven notices were sent, including one MBE and one WBE. Four solicitations were issued. Two bids were received. The MBE and WBE did not respond.
c. These are the original baskets that were installed when the plant was built in 1968; therefore there is no recent pricing history available.

APPROVAL JUSTIFICATION
a. Low bid meeting specification.
b. The Purchasing Office concurs with Austin Energy's recommended award.
c. Advertised on the Internet.
