Purchasing Language: Lowest of eight bids received.

MBE/WBE: 0% MBE and 6.45% WBE subcontractor participation.

Boards and Commission Action: Recommended by the Water and Wastewater Commission.

This project is one of 10 projects that were created from a larger project for the Austin Clean Water Program. The construction will provide for the removal and replacement of existing wastewater pipeline in Pedernales Street between Webberville Road and Gonzales Street. The improvements are intended to replace aging and deteriorated facilities and to eliminate wastewater overflows that have occurred in the area. The project is part of the Austin Water Utility's Austin Clean Water Program (ACWP), which was developed to respond to the requirements of the Environmental Protection Agency's Administrative Order regarding Sanitary Sewer Overflows.

The proposed wastewater improvements include the installation of 430 linear feet of 8-inch diameter wastewater line and two replacement 48-inch manholes. Ten wastewater services will be installed. The contract allows for 90 working days for final completion of this project.

Bid documents were distributed to 10 general contractors. Bids were opened June 8, 2006. Benitez Construction, Inc. submitted the lowest of eight bids received:

Benitez Construction, Inc., Manor, TX	\$192,834.00
Facilities Rehabilitation, Inc., Fort Worth, TX	\$202,122.00
CenTex Underground, Inc., Burleson, TX	\$215,169.60
