**Zoning Ordinances / Restrictive Covenants
(HEARINGS CLOSED)
RECOMMENDATION FOR COUNCIL ACTION**

ITEM No. 42

Subject: C14-05-0151 – Flex 15 – Approve third reading of an ordinance amending Chapter 25-2 of the Austin City Code by rezoning property known as 8420 Longview Road (Williamson Creek Watershed–Barton Springs Zone, South Boggy Creek Watershed) from rural residence (RR) district zoning to townhouse and condominium residence (SF-6) district zoning with conditions. On March 23, 2006, Council approved single family residence–small lot–conditional overlay (SF-4A-CO) combining district zoning with conditions, on first reading. Vote 7-0 On October 5, 2006, Council approved townhouse and condominium residence–conditional overlay (SF-6-CO) combining district zoning with conditions, on second reading. Vote: 6-0, Martinez off the dais. Applicant: Flex Realty (Brett Vance) Agent. Jim Bennett Consulting (Jim Bennett). City Staff. Wendy Walsh, 974-7719.

THIRD READING SUMMARY SHEET

ZONING CASE NUMBER: C14-05-0151

REQUEST.

Approve third reading of an ordinance amending Chapter 25-2 of the Austin City Code by zoning property locally known as 8420 Longview Road (Williamson Creek Watershed – Barton Springs Zone; South Boggy Creek Watershed) from rural residence (RR) district zoning to townhouse and condominium residence (SF-6) district zoning with conditions. The Conditional Overlay limits development of the property to 130 dwelling units. The Restrictive Covenant is for the conditions of the Neighborhood Traffic Analysis.

DEPARTMENT COMMENTS:

The Conditional Overlay and Restrictive Covenant incorporate the conditions imposed by the City Council at Second Reading.

The Applicant and the Neighborhood have worked out a “Mutual Covenant and Restriction” addressing the number of dwelling units, and fencing and access locations.

Watershed Protection and Development Review Staff has analyzed eight development scenarios of conceptual subdivision layouts and an estimated number of dwelling units that could be built. The scenarios also account for the application of two possible watershed regulations and combinations thereof for each zoning district. 1) a portion within the Barton Springs Zone and the South Boggy Creek watershed and 2) a portion in Williamson Creek and the South Boggy Creek watershed. (The determination of applicable watershed regulations will be made during the site plan review process, when geologic testing at different points on the site is completed.) The number of units varies between 46 (all SF-2 development and site location within the Barton Springs Zone / South Boggy Creek) and 120 (MF-1 development and within the Williamson Creek and South Boggy Creek watersheds). The Applicant has also provided two conceptual subdivision layouts, also attached, and would like to pursue SF-6 zoning.

The Applicant has provided a sight distance evaluation for a proposed driveway and wall along Cameron Loop, placed after the development scenarios.

A petition of 15 96% has been filed by the adjacent property owners in opposition to this rezoning request.

At First Reading, the Council approved SF-4A-CO with the Conditional Overlay limiting the number of daily trips to 1,000 and a Restrictive Covenant for the conditions of the Neighborhood Traffic Analysis. Council requested that Staff evaluate access to Cameron Loop and Longview Road, and the differences between SF-4A and SF-6 zonings in terms of functional density.

OWNER/APPLICANT Flex Realty, L P (Brett Vance)

AGENT: Jim Bennett Consulting (Jim Bennett)

DATE OF FIRST READING: March 23, 2006, approved SF-4A-CO district zoning with conditions, on First Reading (7-0)

DATE OF SECOND READING: October 5, 2006, approved SF-6-CO district zoning with the CO for 130 units, and a Restrictive Covenant for the conditions of the Neighborhood Traffic Analysis, on Second Reading (6-0, Martinez off the dais).

CITY COUNCIL HEARING DATE: November 2, 2006

CITY COUNCIL ACTION:

ORDINANCE NUMBER

ASSIGNED STAFF: Wendy Walsh
e-mail: wendy.walsh@ci.austin.tx.us

ORDINANCE NO. _____

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP FOR THE PROPERTY LOCATED AT 8420 LONGVIEW ROAD FROM RURAL RESIDENCE (RR) DISTRICT TO TOWNHOUSE AND CONDOMINIUM RESIDENCE-CONDITIONAL OVERLAY (SF-6-CO) COMBINING DISTRICT.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to change the base district from rural residence (RR) district to townhouse and condominium residence-conditional overlay (SF-6-CO) combining district on the property described in Zoning Case No. C14-05-0151, on file at the Neighborhood Planning and Zoning Department, as follows:

A 15.020 acre tract of land, more or less, out of the Theodore Bissell League, Abstract No. 3, in Travis County, the tract of land being more particularly described by metes and bounds in Exhibit "A" incorporated into this ordinance (the "Property"),

locally known as 8420 Longview Road, in the City of Austin, Travis County, Texas, and generally identified in the map attached as Exhibit "B".

PART 2. The Property within the boundaries of the conditional overlay combining district established by this ordinance is subject to the following conditions.

1. Development of the Property may not exceed 8.652 residential units per acre
2. Development of the Property may not exceed 130 residential units.

Except as specifically restricted under this ordinance, the Property may be developed and used in accordance with the regulations established for the multifamily residence limited density (MF-1) base district and other applicable requirements of the City Code.

1 **PART 3.** This ordinance takes effect on _____, 2006.

RESTRICTIVE COVENANT

OWNER: Flex Realty, L.P., a Texas limited partnership

ADDRESS: 6006 East Ben White Blvd., Austin, Texas 78741

CONSIDERATION: Ten and No/100 Dollars (\$10.00) and other good and valuable consideration paid by the City of Austin to the Owner, the receipt and sufficiency of which is acknowledged.

PROPERTY: A 15.025 acre tract of land, more or less, out of the Theodore Bissell League, Abstract No. 3, in Travis County, the tract being more particularly described by metes and bounds in Exhibit "A" attached and incorporated into this covenant

WHEREAS, the Owner of the Property and the City of Austin have agreed that the Property should be impressed with certain covenants and restrictions,

NOW, THEREFORE, it is declared that the Owner of the Property, for the consideration, shall hold, sell and convey the Property, subject to the following covenants and restrictions impressed upon the Property by this restrictive covenant. These covenants and restrictions shall run with the land, and shall be binding on the Owner of the Property, its heirs, successors, and assigns

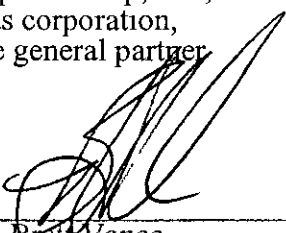

- 1 Development on the Property is subject to the recommendations contained in the Neighborhood Traffic Analysis memorandum from the Transportation Review Section of the Watershed Protection and Development Review Department, dated November 16, 2005.
- 2 If any person or entity shall violate or attempt to violate this agreement and covenant, it shall be lawful for the City of Austin to prosecute proceedings at law or in equity against such person or entity violating or attempting to violate such agreement or covenant, to prevent the person or entity from such actions, and to collect damages for such actions
- 3 If any part of this agreement or covenant is declared invalid, by judgment or court order, the same shall in no way affect any of the other provisions of this agreement, and such remaining portion of this agreement shall remain in full effect
- 4 If at any time the City of Austin fails to enforce this agreement, whether or not any violations of it are known, such failure shall not constitute a waiver or estoppel of the right to enforce it.
- 5 This agreement may be modified, amended, or terminated only by joint action of both (a) a majority of the members of the City Council of the City of Austin, and (b) by the owner(s) of the Property subject to the modification, amendment or termination at the time of such modification, amendment or termination

EXECUTED this the 11th day of March, 2006.

MUTUAL COVENANT and RESTRICTION

THE Parties to the Agreement and Covenant are:

1. The Owner, being FLEX REALTY, LP, a Texas limited partnership (herein after referred to as "The Owner") as Owner of that one certain 15.025 acre tract of land being legally described as 15.025 acres out of the THEODORE BISSELL LEAGUE, ABSTRACT 3, Travis County, Texas, and being the same property conveyed to The Frentrup Children Trust of 1986, according to Deed of Record in Volume 11591, Page 230, Real Property Records, Travis County, Texas (the "Subject Property");
2. The Neighborhood Members being any property owner within 200' of the Subject Property (herein after referred to as "Neighborhood Members", collectively and/or individually as the case may be).

Recitations: Owner is desirous of developing and improving the Subject Property, currently a vacant tract. Within the context of Owner's developmental plans, Owner will need to secure approval from the City of Austin (herein after referred to as "The City") for a zoning change of the Subject Property to SF-6 with a maximum of 130 units. Owner will additionally need to secure prior approval (herein after referred to as "The Developmental Process") by the City for the proposed development and improvements in order to undertake any proposed development of the Subject Property.

Agreement and Covenant: NOW FOR AND IN CONSIDERATION of the execution of this Agreement and Covenant is hereby agreed as follows

The Neighborhood Members agree to support Owner in securing a rezoning and development of the Subject Property to SF-6 status with a maximum of 130 units, in this regard support means affirmative assent as to rezoning and site plan approval

Owner agrees to have the main entrance of the Subject Property on Cameron Loop and that any development shall include a small wall around north and east sides of the Subject Property to divert water to Owner's detention pond.

SIGNED, EXECUTED and AGREED to this ____ day of September 2006.

FLEX REALTY, LP, a Texas Limited Partnership

BY: _____
BRET VANCE, on behalf of its general partner

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Dear Council Members:

I am writing in regards to the Flex Reality Rezoning case at 8420 Longview Rd. I am writing on behalf of the concerned neighbors in the surrounding neighborhood of the proposed development. After much negotiation between the developer and the neighborhood affected, we believe we have reached an agreement that is acceptable to both parties. This required some tough decisions and give and take by both sides.

The major issues the neighbors have involve traffic, flooding, light pollution, uniformity of the subdivision in the existing neighborhood and property values. We acknowledge that development will eventually occur on the affected property and hope that it will be as unobtrusive as possible to the surrounding area. Mr. Vance has tried to alleviate our concerns in all areas agreeing to measures such as shielded lighting, a comprehensive water retention system and most importantly building the exit access to Cameron Loop to ease traffic impact on the neighborhood. Building the exit facing Cameron will allow traffic to be directed in a much safer and discreet way towards the major thoroughfares. Mr. Vance has also stated his intention to build only single family housing along the Longview facing to better incorporate the development with the surrounding neighborhoods of Siskin, Linnet and Longview. He has also spoken of his desire to phase in the development over a period of years to ease the strain on the neighborhood and hopefully increase the value of the entire area.

Because of Mr. Vance's sincerity in dealing with our concerns and knowing that the property will eventually be populated anyway, we have agreed to rescind our opposition to the proposed development being zoned as SF6 and agree to allow the developer to build as many as 130 units in exchange for the concessions in regard to our concerns. We would like you to approve a development based of his existing site plan and that it be zoned as SF6 with a maximum of 130 units. While this is more that we would have originally agreed to, we do feel that this is ultimately the best situation as SF6 will allow the city more oversight in the development process and Mr. Vance has in good faith addressed all of the neighbors concerns.

We would like to thank you all for your concern and tremendous support throughout this process. We could not have come this far without your respect and assistance.

If you have any questions, feel free to e-mail me.

Thank you,
Cheryl

Date: July 19, 2006

Subject: Flex 15
8420 Longview Rd.
C14-05-0151

The following information is provided in response to questions raised by City Council during first reading of this zoning case on March 23, 2006. Staff was asked to evaluate access to Cameron Loop and Longview Road, and to analyze the differences among SF-2, SF-4A, and SF-6 in terms of functional density.

Development Constraints

The subject property is located at the intersection of Longview Rd. and Cameron Loop, near the boundary of the Edwards Aquifer Recharge Zone. The property is also very near the boundary separating the Williamson Creek watershed from the South Boggy Creek watershed. Because the exact boundary of the Recharge Zone has not been determined in this area, the applicant will be required at the time of subdivision or site plan to conduct geologic testing at various points on the property to identify the watershed boundaries. The applicable watershed regulations will then be applied to the property to determine impervious cover limitations and other applicable restrictions. The property is also crossed by a pipeline and contains areas of steep slopes, which reduce the developable portion of the property by approximately 2.5 acres.

Based on existing information, staff has estimated that the results of on-site testing will likely be one of the following with respect to watershed boundaries:

- (A) Approximately 45% of the property (or 6.8 acres) is within the Barton Springs – Edwards Aquifer Recharge Zone and would be limited to 15% impervious cover. The remaining 55% (or 8.2 acres) is within the South Boggy Creek watershed and would be limited to

55% impervious cover for single-family development and 60% for multi-family development.

- (B) Approximately 45% of the property (or 6.8 acres) is within the Williamson Creek watershed, and the remaining 55% (or 8.2 acres) is within the South Boggy Creek watershed. In both watersheds, development would be limited to 55% impervious cover for single-family development and 60% for multi-family development.

Alternative Scenarios

Each of the watershed patterns described above was analyzed for four different development densities: SF-2 (single-family residence – standard lot), SF-4A (single-family residence – small lot), SF-6 (condominium), and MF-1 (multi-family – limited density). These eight scenarios are summarized in the attached table. All numbers in the table are approximations based on conceptual plans because detailed information about site characteristics is not available and the plans have not been engineered. For each scenario, the table identifies impervious cover, developable area, number of units, gross density, net density, and number of vehicle trips per day. Major findings are:

- Impervious cover is lowest under SF-2 and highest under SF-6 and MF-1. One reason is that the impervious cover allowed by the ordinance is probably not achievable under SF-2 or SF-4A scenarios due to site constraints.
- The developable area is similar for all the scenarios except 3A and 4A, where clustering of the development is assumed because of the watershed ordinance limitations.
- The number of vehicle trips per day is lowest under SF-2 and highest under MF-1-CO, as would be expected since the more intensive zoning districts allow for the development of more units.

The applicant also prepared proposed subdivision layouts for SF-2 and SF-4A which are attached. These layouts show slightly higher densities than the staff scenarios but did not take into account the steep slopes on the property which will likely require variances.

Access Issues

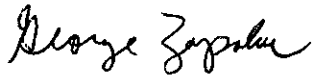

Two narrow residential streets abut the project: Longview Rd. and Cameron Loop. Both are substandard roads approximately 20 feet wide which were originally built in the County. The Land Development Code identifies the desirable operating level for residential streets less than 30 feet wide to be 1,200 trips per day. Both streets already carry more than this volume. Longview currently carries 1,585 vehicles and Cameron Loop carries 3,367 vehicles. Any zoning change on the property will result in additional increases in the undesirable operating levels on these streets. On first reading, Council limited the traffic to a maximum of 1,000 trips per day; however, staff's analysis has concluded that this limit is likely unattainable due to site constraints. Staff projects future traffic to vary from 509 trips per day for SF-2 to 872 trips per day for MF-1-CO.

The Zoning and Platting Commission recommended that access to Cameron Loop be limited to emergency access only. Access from the site to Cameron Loop is not essential and would have

to cross the pipeline easement, but staff would recommend that the access not be restricted because there are no houses which directly front on Cameron Loop and access would better disperse the traffic.

The Commission also recommended that left-turn access to Longview be prohibited. This restriction would discourage traffic from traveling along the residential portion of Longview north of the site where traffic volumes are already high. Therefore, staff supports this recommendation.

Please contact me at 974-2725 if you have any questions.

Re: 8420 Longview Road Sight Distance

INTRODUCTION

Alliance Transportation Group, Inc. has been contracted to conduct a sight distance evaluation for a proposed driveway providing access to the property located at 8420 Longview Road in Austin, Texas. The parcel is bounded by Cameron Loop to the south and by Longview Road to the east. **Figure 1** shows the parcel with respect to the surrounding roadway network.

The owner also wishes to construct a wall along the Right of Way line of Longview Road. In summary, the location of the driveway must be such that adequate sight distance is provided for vehicles exiting the driveway. Furthermore, the wall must also be located where it will not affect sight distance from either Longview Road or the site driveway.

REQUIREMENTS

A Policy on Geometric Design of Highways and Streets, AASHTO⁽¹⁾, (the "Green Book") defines sight distance as "... the distance along a roadway that an object of specified height is continuously visible to the driver." For this study, an object height of 3.5 feet is applied, as specified in the Green Book. The driver eye height was considered to be 3.5 feet above the road surface. The lateral position of the driver's eye in the stopped vehicle was considered to be 13 feet behind the edge of pavement.

Where traffic on the minor road of an intersection is controlled by stop signs, the driver of the vehicle on the minor road must have sufficient sight distance for a safe departure from the stopped position. The Green Book defines these intersections as **Case B – Intersections with Stop Control on the Minor Road**. This study evaluates **Case B1** and **Case B2**, left turns and right turns from the minor road respectively.

Sight distances for each maneuver depend on several variables. These variables include the design speed on the major roadway and characteristics of the design vehicle. The posted speed limit on the major roadway in this study is 30 mph. The design vehicle for this study is the standard passenger car. Accordingly, the following intersection sight distance guidelines were followed for this study:

- **Case B1** – Intersection Sight Distance = 335 ft
- **Case B2** – Intersection Sight Distance = 290 ft

Figure 1. Study Area

FINDINGS AND RECOMMENDATIONS

Based on the results of the study Alliance Transportation Group, Inc. has developed a set of recommendations based on the guidelines included in the Green Book, and the physical characteristics of the study area. The recommendations are as follows and are pictured in **Figure 2**:

- The driveway may be of no more than 30 feet wide with it's western edge of pavement located no closer than 335 feet from the curve and it's eastern edge of pavement no closer than 215 feet from Longview Road; and
- The wall should be located such that it is at least 13 feet behind Cameron Loop's northern edge of pavement, or wholly on private property, whichever is the greater distance from the edge of pavement

ZONING CHANGE REVIEW SHEET

CASE: C14-05-0151

Z.P.C. DATE: December 6, 2005
January 17, 2006

ADDRESS: 8420 Longview Road

OWNER: Flex Realty, L P. (Brett Vance)

AGENT: Jim Bennett Consulting
(Jim Bennett)

ZONING FROM: RR

TO: MF-3

AREA: 15.025 acres

AMENDED TO: SF-6 (March 23, 2006)

SUMMARY STAFF RECOMMENDATION:

The Staff's recommendation is to grant townhouse and condominium residence –conditional overlay (SF-6-CO) combining district zoning. The Conditional Overlay: 1) limits the density to 7 dwelling units per acre and 2) the number of daily vehicle trips to 1,000.

If the requested zoning is recommended for this site, then Staff recommends a Restrictive Covenant to include all recommendations listed in the Neighborhood Traffic Analysis memorandum, dated November 16, 2005 and provided as Attachment A.

ZONING & PLATTING COMMISSION RECOMMENDATION:

December 6, 2005 *POSTPONED TO 01/17/06 AT THE REQUEST OF THE NEIGHBORHOOD.*

[J MARTINEZ; M. HAWTHORNE – 2ND] (7-0) J PINNELLI – ILL; K JACKSON - ABSENT

January 17, 2006: *APPROVED MF-1-CO DISTRICT ZONING WITH THE CONDITIONAL OVERLAY FOR 1) 1,000 TRIPS; 2) MAXIMUM OF 8 UNITS PER ACRE; 3) DRIVEWAY AND EGRESS FROM THE PROPERTY TO LONGVIEW ROAD SHALL BE RIGHT TURN-OUT ONLY, 4) DRIVEWAY ACCESS TO CAMERON LOOP SHALL BE LIMITED TO EMERGENCY ACCESS ONLY; 5) HOODED AND SHIELDED LIGHTING IS REQUIRED AND WITHIN 25-FEET FROM THE NORTH, SOUTH, EAST AND WEST PROPERTY LINES; 6) THE HEIGHT FOR ALL BUILDINGS IS LIMITED TO TWO STORIES OR 28- FEET IN HEIGHT, 7) RESTRICTIVE COVENANT FOR THE CONDITIONS OF THE NEIGHBORHOOD TRAFFIC ANALYSIS*

[M HAWTHORNE; J MARTINEZ – 2ND] (7-0) K. JACKSON, J GOHIL – ABSENT

ISSUES:

The Applicant and the Neighborhood have worked out a "Mutual Covenant and Restriction" addressing the number of dwelling units, and fencing and access locations

Watershed Protection and Development Review Staff has analyzed eight development scenarios of conceptual subdivision layouts and an estimated number of dwelling units that could be built. The scenarios also account for the application of two possible watershed regulations and combinations thereof for each zoning district: 1) a portion within the Barton Springs Zone and the South Boggy Creek watershed and 2) a portion in Williamson Creek and the South Boggy Creek watershed (The determination of applicable watershed regulations will be made during the site plan review process, when geologic testing at different points on the site is completed.) The number of units varies between 46 (all SF-2 development and site location within the Barton Springs Zone / South Boggy Creek) and 120 (MF-1 development and within the Williamson Creek and South Boggy Creek watersheds). Applicant has also provided two conceptual subdivision layouts, also attached, and would like to pursue SF-6 zoning.

The Applicant has provided a sight distance evaluation for a proposed driveway and wall along Cameron Loop, placed after the development scenarios

A petition of 15 96% has been filed by the adjacent property owners in opposition to this rezoning request. Petition information is located at the back of the Staff report

After the Zoning and Platting Commission meeting, members of the Neighborhood of Westgate and Plantation Neighborhood Association contacted Staff about their concerns with the Applicant's request for MF-1-CO zoning. Subsequently, on February 28, 2006, the Applicant met with these two associations who expressed their concern with the ZAP recommendation of right-turn out egress only to Longview Road

On December 21, 2005, the Applicant met with the Cherry Creek Southwest Homeowners Association and other nearby concerned neighbors to discuss the proposed rezoning application. The three parties agreed to MF-1-CO district zoning with the Conditional Overlay for trips, density, driveway access, lighting, and height as recommended by the Zoning and Platting Commission. The Applicant, Association and nearby concerned neighbors also agreed to pursue a private Restrictive Covenant regarding the directional outflow of the pond and sidewalk installation along the east side of Longview Road.

DEPARTMENT COMMENTS:

The subject property is undeveloped, has frontage on Longview Road and Cameron Loop, and is zoned rural residence (RR). There are established single family residential subdivisions to the north, east and south, as well as an undeveloped single family residential subdivision (north – SF-4A) and undeveloped commercial land at the northeast corner of Cameron Loop and Longview Road (LR). Adjacent to the west, there is a multi-family residential development which takes access to Brodie and Davis Lanes (MF-2-CO). Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View).

The applicant is proposing to rezone the property to the multi-family residence medium density (MF-3) district so that it may be developed with multi-family residential uses. The property is uniquely situated within two watersheds, the western one of which is located in

the Barton Springs Zone. There is also a natural gas liquids pipeline extending through the southern portion of the site. The topographic constraints and the pipeline present a challenge in site development, but also provide the opportunity for clustered development. The Staff recommends the townhouse and condominium residence (SF-6) district to provide greater compatibility with the surrounding single family residential character of Cameron Loop and Longview Road, and an SF-2 / SF-3 density consistent with the existing subdivision to the north. Applying an SF-2 / SF-3 density of 7 units per acre results in a maximum of 105 units that could be constructed on site. The Staff also recommends limiting the property to uses that generate less than 1,000 vehicle trips per day, given existing operational characteristics of Longview Road and Cameron Loop.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	RR	Undeveloped
<i>North</i>	SF-3; SF-4A	Single family residences, Undeveloped
<i>South</i>	SF-1; RR, P	Single family residences, both on large and standard lots; Detention pond
<i>East</i>	LR; SF-3, SF-4A, SF-6-CO	Undeveloped; Pipeline easement; Single family residences
<i>West</i>	MF-2-CO	Apartments

MEMORANDUM

TO: Wendy Walsh, Case Manager
CC: Jim Bennett
FROM: Emily M. Barron, Transportation Planner
DATE: November 16, 2005
SUBJECT: Neighborhood Traffic Analysis for Longview Road and Cameron Loop
Zoning Case: Cameron Loop and Longview Road C14-05-0151

The Transportation Section has performed a neighborhood traffic impact analysis for the above referenced case and offers the following comments.

The 15.02-acre tract proposes a multi family use. The site is located in south Austin at the northwest corner of Cameron Loop and Longview Road. The project, which is currently zoned Rural Residence (RR), is requesting a change to Multi Family Residence (MF-3). The tract will have vehicular access to Longview and Cameron Loop. Surrounding the tract to the north is single family, to the west is multi family, Cameron Loop creates the southern border and to the east is Longview Road.

Roadways

Long view Road is classified as a collector street with a varying right-of-way and 20' of pavement and carries approximately 1,585 vehicles per day (vpd).

Cameron Loop is classified as a collector street with 60' of right-of-way and 20' of pavement and carries approximately 3,367vpd

Trip Generation and Traffic Analysis

Based on the ITE's publication Trip Generation, the proposed development at the time of site plan will generate approximately 1,996 vehicles per day (vpd).

Trip Generation		
LAND USE	SIZE	VPD
Condominiums	380du	1,996
TOTAL		1,996

Distribution of trips was estimated as follows

Street	Site Traffic
Longview Road	34%
Cameron Loop	66%

Below is a table containing the estimated number of trips that will affect each street:

ATTACHMENT A

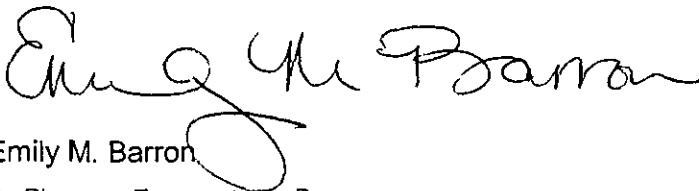

Street	Existing Traffic (vpd)	Site Traffic (vpd)	Total Traffic after Project (vpd)
Longview Road	1,585	680	2,265
Cameron Loop	3,367	1,320	4,687

The Land Development Code specifies desirable operating levels for certain streets in section 25-6-116. These levels are as follows: A residential local or collector street with a pavement width of less than 30' should carry 1,200 vehicles per day or less.

Conclusions

1. The neighborhood traffic analysis was triggered because the projected number of vehicle trips generated by the project exceeds the vehicle trips per day generated by existing uses by at least 300 trips per day, and the project has access to a local or residential collector street where at least 50 percent of the site frontage has an SF-5 or more restrictive zoning designation. Cameron Loop and Longview Road are both classified as collector roadways.
2. The traffic along both Longview Road and Cameron Loop exceed the minimum requirements established in Section 25-6-116. The traffic along Longview Road exceeds the requirements of this section by 1,065vpd while Cameron Loop is exceeded by 3,487vpd.
3. Staff recommends that boundary street improvements be required at the time of subdivision and/or site plan. Longview Road should be upgraded to 36' of pavement and Cameron Loop should both be upgraded to 40' of pavement, which would allow for an increase in the desirable operating level to 1,800vpd and 4,000vpd, respectively.
4. This site should be limited through a conditional overlay to 1,000 trips per day. This would allow for 168 dwelling units to be constructed on site. With this limitation the traffic on Longview Road would increase to 1,925vpd and Cameron Loop would increase to 4,027.
5. The City Council may approve a zoning application if it is determined that the applicant has satisfactorily mitigated adverse traffic effects or the projected additional traffic from a project has an insignificant effect on the residential street.

If you have any questions or require additional information, please contact me 974-2788.

Emily M. Barron

Sr. Planner ~ Transportation Review

Watershed Protection and Development Review Department

SUMMARY STAFF RECOMMENDATION:

The Staff's recommendation is to grant townhouse and condominium residence –conditional overlay (SF-6-CO) combining district zoning. The Conditional Overlay 1) limits the density to 7 dwelling units per acre and 2) the number of daily vehicle trips to 1,000.

If the requested zoning is recommended for this site, then Staff recommends a Restrictive Covenant to include all recommendations listed in the Neighborhood Traffic Analysis memorandum, dated November 16, 2005 and provided as Attachment A.

BACKGROUND

The subject property is undeveloped, has frontage on Longview Road and Cameron Loop, and is zoned rural residence (RR). There are established single family residential subdivisions to the north, east and south, as well as an undeveloped single family residential subdivision (north – SF-4A) and undeveloped commercial land at the northeast corner of Cameron Loop and Longview Road (LR). Adjacent to the west, there is a multi-family residential development which takes access to Brodie and Davis Lanes (MF-2-CO).

The applicant is proposing to rezone the property to the multi-family residence medium density (MF-3) district so that it may be developed with multi-family residential uses. The property is uniquely situated within two watersheds, the western one of which is located in the Barton Springs Zone. There is also a natural gas liquids pipeline extending through the southern portion of the site. The topographic constraints and the pipeline present a challenge in site development, but also provide the opportunity for clustered development. The Staff recommends the townhouse and condominium residence (SF-6) district to provide greater compatibility with the surrounding single family residential character of Cameron Loop and Longview Road, and an SF-2 / SF-3 density consistent with the existing subdivision to the north. Applying an SF-2 / SF-3 density of 7 units per acre results in a maximum of 105 units that could be constructed on site. The Staff also recommends limiting the property to uses that generate less than 1,000 vehicle trips per day, given existing operational characteristics of Longview Road and Cameron Loop.

BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)

1 The proposed zoning should be consistent with the purpose statement of the district sought.

The SF-6, Townhouse and Condominium Residence District, is intended as an area for moderate density single family, duplex, two-family, townhouse and condominium use. The applicant intends to develop the property with a condominium project consisting of two attached condominium units per structure.

2 Zoning changes should promote an orderly and compatible relationship among land uses

The Staff recommends the townhouse and condominium residence (SF-6) district to provide greater compatibility with the surrounding single family residential character of Cameron Loop and Longview Road, and an SF-2 / SF-3 density consistent with the existing subdivision to the north. Applying an SF-2 / SF-3 density of 7 units per acre results in a maximum of 105 units that could be constructed on site. The Staff also recommends limiting the property to uses that generate less than 1,000 vehicle trips per day, given existing operational characteristics of Longview Road and Cameron Loop.

EXISTING CONDITIONS

Site Characteristics

The site is undeveloped. The middle portion of the site is moderately wooded and slopes to the south and east. A natural gas liquids (Longhorn) pipeline extends through the southern portion of the site.

Impervious Cover

The maximum impervious cover allowed by the **MF-3** zoning district (as requested by the Applicant) would be 60% within the South Boggy Creek watershed which is based on the more restrictive watershed regulations. Within the Williamson Creek watershed, the maximum impervious cover would be either 15% or 25%, based on the more restrictive watershed regulations, and as further explained in the Environmental section below.

The maximum impervious cover allowed by the **SF-6** zoning district (as recommended by the Staff) would be 55% within the South Boggy Creek watershed which is a consistent figure between the watershed and zoning regulations. Within the Williamson Creek watershed, the maximum impervious cover would be either 15% or 25%, based on the more restrictive watershed regulations, and as further explained in the Environmental section below.

Environmental

According to current City of Austin maps, the site lies in two watersheds that are classified as follows

South Boggy Creek - The eastern portion of the site lies within the South Boggy Creek Watershed which is classified as Suburban Watershed. This watershed lies within the Desired Development Zone.

Williamson Creek - The western portion of the site lies within the Williamson Creek Watershed, a portion of which is classified as Barton Springs Zone. This portion lies within the Drinking Water Protection Zone.

The site is not currently considered to lie over the Edward's Aquifer Recharge Zone, however the property is transected north to south by a Georgetown rock formation outcrop.

that contributes to the Edwards Aquifer. Due to the complicated nature of the watersheds on this site, further study of the drainage of this site should be done to determine the exact boundaries.

Under current watershed regulations, development or redevelopment within the *Suburban* portion this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

Areas within the Barton Springs Zone are subject to the SOS Ordinance that allows 15% impervious cover in the recharge zone, 20% impervious cover in the Barton Creek watershed and 25% impervious cover in the Contributing zone.

According to flood plain maps, there is no floodplain within, or adjacent to the project boundary

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, this site is not known to contain any Critical Environmental Features. Since this site is not currently developed, this does not preclude the possibility that features may still exist.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

- *Structural controls:* Sedimentation and filtration basins with increased capture volume and 2 year detention.
- Within the BSZ, runoff is required to comply with pollutant load restrictions as specified in LDC Section 25-8-514.

Transportation

The trip generation under the requested zoning is estimated to be 3,604 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics)

A Neighborhood Traffic Analysis is required and will be performed for this project by the Transportation Review staff. Results are provided in Attachment A [LDC, Sec. 25-6-114]

Water and Wastewater

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing the water and wastewater utility improvements, offsite main extension, system upgrades, utility relocation, and adjustments. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. The plan must be in accordance with the City design criteria. The water and wastewater utility construction must be inspected by the City. The landowner must pay the associated and applicable City fees.

Site Plan

A large portion of the site contains a hazardous pipeline overlay; any new development would be required to comply with Section 25-2-516.

Site plans will be required for any new development other than single-family or duplex residential

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Compatibility Standards

The site is subject to compatibility standards. Along the north, south and east property lines, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- Additional design regulations will be enforced at the time a site plan is submitted.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website.

www.ci.austin.tx.us/development

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: The proposed development is not

centrally located and multiple use is not

desirable. This neighborhood includes single

family homes. Young children play in many of

these yards. We already have too much

traffic on Longview and Plantation Roads

without adding this burden to the current

homeowners. Also, this could potentially lower

our property values. These apartments should not

be on the same road (Longview) as a rural plot

with horses and cows.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City's staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:

www.ci.austin.tx.us/development

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: I AM CONCERNED ABOUT FLOODING ON OAK ALLEY STREET IF THIS AREA IS DEVELOPED. THE NEW APARTMENTS THAT WERE RECENTLY BUILT, HAVE THEIR DRAINAGE TAPPED INTO OAK ALLEYS DRAINAGE SYSTEM. WE ALREADY HAD MILD FLOODING IN THE LOW AREAS OF THE STREET, PRIOR TO THE CONNECTION. IT HAS NOT RAINED ENOUGH SINCE THE CONNECTION TO SEE WHAT WILL HAPPEN. (2) IF THIS DOES GET DEVELOPED, PLEASE PUT A 200 FT BUFFER ZONE FROM THE BACK FENCES OF THE OAK ALLEY ST. HOMES. THESE DEVELOPMENTS PUSH ALL THE VARIANTS INTO THE NEIGHBORHOOD.

Comments: Intense development only
adds more traffic on these
already busy roads and I have
county roads. It has become
increasingly noisy on these
small back roads that our back
yards abut. Please keep the
current zoning or only allow
low density development.

Thank you!

Comments The surrounding streets, Longview Rd, Cameron Loop + Davis Lane are not adequate to support increase in traffic. Lack of controlled intersections are already a safety hazard with the current population density. Multifamily zoning is not appropriate for this area.

Comments: The proposed zoning change is not appropriate for this location. First, it is between two single family neighborhoods and across from a row of single family duplexes. The development would not fit in with the neighborhood. Second the roads next to the development are very narrow. They would not support a medium density development. Third the property is bisected by the longhorn pipeline. Putting a large development on the pipeline increases the chance there could be an accident during construction.

Comments: I am writing to oppose the development in question. My opposition is based on the fact that the existing streets can not handle the amount of traffic that would result from the development in question. There have been numerous traffic accidents at the intersection of Longview and Cameron Loop. The development at Davis Lane and Brodie is already causing persons to take other streets that feed into Cameron Loop. Even with speed bumps, the lack of traffic lights for this back road would create an even greater risk for all lives. There are no side walks on this part of Cameron Loop which is also used by students so this is an accident waiting to happen.

Thank you for the opportunity to comment.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

[M.HAWTHORNE; J. MARTINEZ 2ND] (7-0) K.JACKSON, J.GOHIL – ABSENT

SUMMARY

Wendy Walsh, staff, gave presentation.

Jim Bennett – We have met with the neighborhood association and other concerned neighbors; and have worked out the agreement that Wendy has given you. We did agree also that we'd provide a setback of 25-feet around their perimeter for all buildings. The pipeline on the south side, we've met with the fire department and we increased the setback over there, so that setback on the south side would be the 25-feet plus the pipeline setback. We're limiting the number of units and the other conditions, we think it would be an appropriate zoning and we request that you would consider it for MF-1, with the conditions as read in by staff.

Commissioner Baker – I presume the 25-foot setback is from the SF-4A and the SF-3 development?

Mr. Bennett – And the MF, all around the perimeter.

FAVOR

Susan Diedrich, Cherry Creek South Homeowner's Association – Spoke in favor. We do not have opposition to the development.

Lorraine Atherton – Spoke in favor.

OPPOSITION

No Speakers.

Commissioner Martinez and Hawthorne moved to close the public hearing.

Commissioner Hawthorne – I move for MF-1-CO, the CO limited to 1,000 vehicle trips per day, 8 units per acre; 2-story 28-feet in height with a depth of 25-feet from the north, south, east and west property lines; hooded and shielded lighting; conditions in the neighborhood traffic analysis; the improvements proposed, driveway into Longview should be right only, emergency access only on Cameron Loop.

Commissioner Martinez – Second.

Commissioner Baker – How would you get into the property, if it's right only?

Commissioner Hawthorne – Only as an exit

Ms. Walsh – Clearly we do need clarification; is it right in & right out? I need clarification from Mr. Bennett

Commissioner Baker – What if I want to make a left turn, I can't go home? I'm being tacky, but how about when someone needs to go left?

Mr. Bennett – When you leave the site, you have to turn right, it's a right out

Commissioner Hawthorne – So the exit will be right only?

Mr. Bennett – That's correct

Ms. Walsh – So you can make a left onto the site, when you exit it's right turn only?

Mr. Bennett – That's correct

Commissioner Baker – So when you leave that tract, you're going down to Davis Lane, period? So I can't go back onto Manchaca Road?

Mr. Bennett – That's correct

Commissioner Baker – That's quite a limitation

Mr. Bennett – Right out will take you to Cameron Loop, from Cameron Loop you'll have to turn right or left and go to Westgate.

Commissioner Baker – Okay, I guess I won't be able to go see "Suzy" if I can't turn left when I exit the site

Laughter

Motion carried (8-0)

File Number: C14-05-0151

Address of
Rezoning Request 8420 Longview Rd

To: Austin City Council

We, the undersigned owners of property affected by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would zone the property to any classification other than RR, SF-2, SF-3 or SF-4A.

We are opposed to the re-zoning of this property to Multi-Family Residence or Condominium Residence. This type of zoning would generate an intense amount of traffic to Longview Rd which it is not appropriately designed to handle. The traffic, noise and lighting that would come with allowing this type of structure to be built would degrade the quality of life and safety for our existing residents.

TO HAVE AND TO HOLD the above described premises, together with, all and singular, the rights and appurtenances thereto in any wise belonging, unto the said Grantees, their heirs and assigns forever. And Grantors do hereby bind themselves, their heirs, executors and administrators, to warrant and forever defend all and singular, the said premises unto the said Grantees, their heirs and assigns, against every person whomsoever lawfully claiming or to claim the same or any part thereof Taxes for the current year have been prorated and are assumed by Grantee This conveyance is made and accepted subject to any and all validly existing restrictions, mineral reservations and interests, conditions, covenants, easements, and rights of way, if any, applicable to and enforceable against the above described property as now reflected by the records of the County Clerk in said County and State and to any applicable zoning laws or ordinances

But it is expressly agreed and stipulated that the Vendor's Lien and the Superior Title are retained and reserved in favor of the payee in said note against the above described property, premises and improvements, until said note, and all interest thereon is fully paid according to the face and tenor, effect and reading thereof, when this deed shall become absolute.

The contract between GRANTOR, as seller, and GRANTEE, as buyer, may contain limitations as to warranties; to the extent said contract provides for such limitations to survive this conveyance they shall be deemed incorporated herein by reference The warranty of title contained in this deed is hereby expressly excluded from the limitations referenced in this paragraph

When this deed is executed by one person, or when the Grantee is one person, the instrument shall read as though pertinent verbs and pronouns were changed to correspond, and when executed by or to a corporation the words "heirs, executors and administrators" or "heirs and assigns" shall be construed to mean "Successors and assigns".

Rezoning Request: 8420 Longview Rd

To. Austin City Council

We, the undersigned owners of property affected by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would zone the property to any classification other than RR, SF-2, SF-3 or SF-4A

We are opposed to the re-zoning of this property to Multi-Family Residence or Condominium Residence. This type of zoning would generate an intense amount of traffic to Longview Rd which it is not appropriately designed to handle. The traffic, noise and lighting that would come with allowing this type of structure to be built would degrade the quality of life and safety for our existing residents.

Walsh, Wendy

From: Cheryl Cave [cheryl_cave@sbcglobal.net]
Sent: Monday, August 07, 2006 4 26 PM
To: Walsh, Wendy
Subject: Request for Postponement of Zoning Hearing

Please accept this request to postpone the hearing for zoning case # C14-05-0151 to Aug 31. I am currently working with the applicant to reach an agreement on zoning that would be acceptable to both the applicant and the neighborhood involved.

Thank you for your consideration-
Cheryl Cave

August 24, 2006

Wendy Walsh
City of Austin
512.974.7719

Re: Case # C14-05-0151
Address: 8420 Longview Road

Flex Realty would like to post pone the Zoning meeting to September 28th, 2006. We are requesting this extension so all agreements can be finalized with the neighborhood members. This will also give our Engineer time to complete the sight distance calculations for the driveway to assure access on Cameron Loop. Feel free to verify this with Cheryl Cave our neighborhood representative. Please let me know if you have any questions or concerns regarding this request.

Thank you,
April Holland
Assistant Project Manager
512.203 5774

MUTUAL COVENANT and RESTRICTION

THE Parties to the Agreement and Covenant are:

- 1 The Owner, being FLEX REALTY, LP, a Texas limited partnership (herein after referred to as "The Owner") as Owner of that one certain 15.025 acre tract of land being legally described as 15.025 acres out of the THEODORE BISSELL LEAGUE, ABSTARCT 3, Travis County, Texas, and being the same property conveyed to The Frentrup Children Trust of 1986, according to Deed of Record in Volume 11591, Page 230, Real Property Records, Travis County, Texas (the "Subject Property");
2. The Neighborhood Members being any property owner within 200' of the Subject Property (herein after referred to as "Neighborhood Members", collectively and/or individually as the case may be).

Recitations: Owner is desirous of developing and improving the Subject Property, currently a vacant tract. Within the context of Owner's developmental plans, Owner will need to secure approval from the City of Austin (herein after referred to as "The City") for a zoning change of the Subject Property to SF-6 with a maximum of 130 units. Owner will additionally need to secure prior approval (herein after referred to as "The Developmental Process") by the City for the proposed development and improvements in order to undertake any proposed development of the Subject Property.

Agreement and Covenant. NOW FOR AND IN CONSIDERATION of the execution of this Agreement and Covenant is hereby agreed as follows

The Neighborhood Members agree to support Owner in securing a rezoning and development of the Subject Property to SF-6 status with a maximum of 130 units, in this regard support means affirmative assent as to rezoning and site plan approval.

Owner agrees to have the main entrance of the Subject Property on Cameron Loop and that any development shall include a small wall around north and east sides of the Subject Property to divert water to Owner's detention pond.

SIGNED, EXECUTED and AGREED to this ____ day of September 2006
