**Boards and Commission Action** Briefed to the Water and Wastewater Commission November 15, 2006

---

The Austin Water Utility is providing reuse, water and wastewater services to the Robert Mueller Municipal Airport (RMMA) Redevelopment site. There will be several reuse, water and wastewater line projects that will coincide with and accommodate development of RMMA. This request is to support an agreement with TxDOT for the City of Austin to assume the responsibility for Airport Boulevard from 45th Street to Martin Luther King, Jr Boulevard (MLK). Airport Boulevard from Lamar Boulevard to 45th Street is already a city street. This agreement will extend this agreement to the next intersection with a State maintained street (MLK). By doing this the City will be in control of the roadway south of the new RMMA development opening new opportunities to support current and future street modifications and utility support in Airport Boulevard for the RMMA development and local residence without negotiation with TxDOT.

A Council resolution is needed for the next Transportation Commission meeting stating effectively that "The City Council requests and accepts transfer of control, jurisdiction, and maintenance responsibility to the City for LP 111 (Airport Boulevard) from 45th Street to FM 969 (MLK), from the Texas Department of Transportation, which acceptance is to be effective upon the entry of the Highway Commission Minute Order. This transfer of responsibility being made necessary by the construction of a 24-inch waterline from Parkwood Road to Aldridge to supply the Dell Children's Hospital on the Robert Mueller Development site."
