**For More Information:** Byron Johnson, Purchasing Officer/974-2050  
Pete Collins, CIO/974-2344

**Purchasing Language:** Contract amendment

**MBE/WBE:** This contract was awarded in compliance with Chapter 2-9C of the City Code (Minority-Owned and Women-Owned Business Enterprise Procurement Program). No goals were established for the equipment portion of this contract (Related to item #33)

**Prior Council Action:** 11/30/00- approved original contract, 3/20/03- approved Amendment No 3, 11/17/05- approved Amendment No 4

On November 30, 2000, Council approved the original contract with Motorola for the 911 RDMT Radio Project, later to become known as the Regional Radio System (RRS). There are five original partners in addition to the City of Austin including: Travis County, Capital Metropolitan Transportation Authority, The University of Texas at Austin, Austin Independent School District, and the Texas House of Representatives/Texas Legislative Council. More than 80 government public safety and public service agencies are currently served by this system; the largest of its kind in central Texas.

With most local government operations in Austin able to use the same radio platform, instantaneous radio communication inter-operability between the system's many users is possible. This improved inter-operability is a concept widely endorsed by local, state, and federal homeland security experts.

Council's last action on this contract was approval of an \$8,056,000 increase on November 17, 2005 to improve the system's "master site" in Austin and to build-out the radio system infrastructure into Williamson County using a \$6-million Department of Justice, Community Oriented Policing Services (COPS) 2005 Grant to the Austin Police Department. Williamson County's match for the infrastructure upgrade was \$1.85 million, and the City of Austin's match was \$150,000 for the "master site" improvements. When completed, by January 3, 2008, Williamson County and its municipalities will benefit from the above-described improved inter-operability in radio communications with Austin and Travis County agencies.

This contract amendment No. 6 will allow for the purchase of radios and related equipment and services for the build-out of the Austin/Travis County 9-1-1 Back-Up Center, and for the routine add-on radios and related equipment for City of Austin departments. The original Motorola radio contract did not cover radio needs for the 9-1-1 Back-Up Center, which is a project that developed since then.

This amendment will also extend the contract through December 19, 2015, so that the City of Austin may continue to take long-term advantage of the special discount pricing structure negotiated with Motorola in 2000.

In addition, the amendment allows agencies, counties and municipalities to participate in this contract via interlocal agreements with the City of Austin.

**AGENDA DATE: 12/14/06**

**VENDOR NAME: Motorola Communications and Electronics, Inc.**

Contract Summary		
Contract History	Description	Amount
Original Contract	Purchase of equipment and services for the 911 RDMT Radio Project	\$73,962,244
Amendment No. 1	Changed contract language	No cost impact
Amendment No. 2	Changed contract language	No cost impact
Amendment No. 3	Increased the contract to upgrade the radio system infrastructure	\$4,385,132
Amendment No. 4	Increased the contract to upgrade the radio system operating software	\$8,056,000
Amendment No. 5	Incorporate documents regarding extension of system into Williamson County, revise project timeline	No cost impact
Proposed Amendment No. 6	Increase the contract for the purchase of add-on radio equipment and services and extend the contract through 2015.	\$1,789,098,
	Total Revised Contract Amount	\$88,192,474
