The Austin/ Travis County community health assessment (CHA) is a systematic examination of the health status of a population as well as key assets and challenges related to health in a community. The CHA describes health broadly to include clinical health, health behaviors, social and economic factors, and environmental factors that impact the health status of community residents. In addition, the CHA will assist the City in the preparation of our Health Strategic Outcome. For more information contact CHACHIP@austintexas.gov or call 512-972-5862.
