

2016 MOBILITY BOND Since November 2016

Regional Mobility Program

- **Anderson Mill Road:** In design, anticipated construction to start in 2021
- **RM 620 at RM 2222:** Under construction
- **Spicewood Springs Road:** Preliminary Engineering Report complete
- **Parmer Lane/FM 734:** Design phase anticipated to start in 2021
- **Loop 360 Intersection Improvements:** Environmental process has begun on all 4 intersections the City is contributing funding to
- **Old Bee Caves Rd Bridge:** Included in Oak Hill Parkway project, anticipated design/build to start in 2020

Local Mobility Program*

*as of end of FY 18

Safe Routes to Schools

15 Projects complete

101 Walk Audits at elementary and middle schools

Sidewalks

\$11M+ spent on 2016 Local Mobility Sidewalk projects

50 Sidewalk projects completed to-date

80 Projects expected to launch in Fiscal Year 19

Bikeways

20 Projects completed

5 Projects in construction

38 Projects in active development

Intersection Safety/ Vision Zero

4 Projects completed:

- Pleasant Valley Rd/Elmont Dr
- Congress Ave/Oltorf St
- 45th St/Red River St
- Slaughter Ln/ Cullen Ln

2 Projects in construction phase with anticipated summer 2019 completion

- Slaughter Ln/ S 1st St
- I-35/ Braker Ln

Substandard Streets/ Capital Renewal

Fallwell Lane - Final Preliminary Engineering Report completed Aug. 2018

William Cannon Bridge Extension over Union Pacific Railroad- Preliminary Engineering Report completed Aug. 2018

Urban Trails

4 Trail connectors completed:

- Balcones Park Walnut Creek Trail Connection
- 51st St Mueller Trail Segment
- Boggy Creek Trail Connection to Webberville
- Country Club Creek – Low Water Trail Crossing

3 Preliminary Engineering Reports complete

4 Project designs complete

CORRIDOR CONSTRUCTION PROGRAM

Since November 2016:

KEEPING THE CONTRACT WITH VOTERS

- 9 Corridor Mobility Plans for key Austin corridors revisited and updated to conform to the region's most recently adopted transportation plans, policies and standards
- Developed a Corridor Construction Program made up of improvements for 9 key Austin corridors based on the Contract With Voters and community feedback
- Design of Corridor Construction Program improvements underway on all corridors
- \$24 million in grants already secured and seeking additional funding through grants, partnerships and coordination
- 200 private developments coordinated with to leverage funds

During Preliminary Engineering Phase(2018-2019)

Preliminary drainage and traffic analysis

7 Corridor Mobility Plans initiated or completed

Tree surveying

Land surveying including geotechnical borings

Updated cost estimates

Utility coordination

Right-of-Way retracement

Corridor design standards development

80 Outreach events/input opportunities

433 Schematics, traffic analyses, and other technical evaluations developed and reviewed
