DEVELOPMENT TEAM

Ryan Steglich has been active in real estate for over 14 years in Austin and has a passion for the city and its culture. After moving to Austin to pursue an MBA at the University of Texas, he began remodelling homes for rental in central Austin. Becoming a licensed Realtor in 2007, he used his firsthand experience in real estate to help Austinites buy, sell and remodel their own properties. While working at Golfsmith as Director of FP&A for Real Estate, he oversaw a portfolio of commercial real estate that grew to 109 stores, 1.6m+ square feet, across the United States, including double digit new store openings in consecutive years. As a private real estate investor, he

rehabilitates, owns and manages a number of rental properties in Austin and Minneapolis, MN.

His work centers around projects to address the challenges of Austin's success and growth, while keeping the culture that made it successful in the first place. He partners with like-minded developers to create communities where Austinites can work, serving as a Development Consultant, Partner & Owner's Representative for real estate projects in Austin.

He's lives with his family in East Austin. His public service has included serving as chair of his neighborhood association, as a liason for his neighborhood on zoning issues, as currently as a Board Member of the Travis County Appraisal District appointed by AISD.

Our Team

Glen Coleman

A native of Junction, Texas, Glen Coleman has expertise in water issues, zoning and land use, political processes and community relations. For the City of Austin, he served as a City Council policy aide handling related issues; he also worked in the regulatory division of the Austin Water Utility, and served on the City's Water and Waste Water Commission. His public service has included serving on The Balcones Canyon Land Preserve Citizen's Advisory Committee and a Travis County Bond Committee, and leading his local neighborhood association.

After leaving the city, Glen led business development and government relations in Central Texas for Banyan Water, served on the Real Estate Council of Austin government relations committee, and was a founding member of Evolve Austin Partners. In 2013 he established South Llano Strategies to lobby for density, affordable housing and better resource management in central Texas.

STRATEGIES MADE SIMPLE

Clients & Projects

Infill developers such as PSW Real Estate, Rivendale Homes and Cedar Willow Creek have all relied on South Llano Strategies to successfully navigate every aspects of the zoning and entitlement process. South Llano is proud to represent such projects as Springdale General, The Yard at St. Elmo and Vuka LLC. as they transform the way central Texans work and play.

We have helped clients ranging from Elon Musk's Solar City, to Mr. Tramps neighborhood bar. Each had a vision.

- Zoning & Entitlements
- Service Extension Request
- Parkland Dedication
- Storm water reuse
- Water Conservation & Solar Power
- Boards & Commissions
- Neighborhood & Council Relations
- Projects that bring connectivity, mobility, homes and affordability to cities' desired development zones

We do not assist with low density sprawl, or development over environmentally sensitive areas

What's your vision?

732 SPRINGDALE RD

SPRINGDALE CROSSING

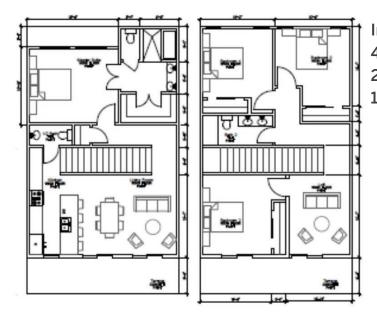

PROJECT DESCRIPTION

732 Springdale is located in the Govalle neighborhood one block north of 7th Street in East Austin. The property will be redeveloped into mixed-income, missing-middle residences of two and three stories with both affordable and market rate homes for sale.

FAMILY AFFORDABLE RESIDENCE

preliminary floorplan

Income Restricted @ 65% MFI 4 Bedroom 2.5 bathroom 1,800sf

The development will feature two, affordable, four-bedroom family-friendly homes to be income restricted to 65% MFI for a period of 99 years. Discussions with the Govalle Neighborhood Association, who filed a letter of support for the project indicated that affordable multi-bedroom units that can support families with children, or multi-generational and extended families are highly desired. These family friendly residences with great access to transit will contribute to the Strategic Housing Blueprint's goal of 60,000 affordable housing units by 2027.

KEY FINANCIALS

The total cost of the project will be \$5,148,750. The use of AHFC funds will be restricted to the acquisition costs related to the two, four bedroom affordable units. The cost of each unit is projected to be \$450,000 each (\$900,000 for both units) based on a cost per square foot of \$250/psf. Market value for comparable units in the area are \$612,000 or \$340 psf. We are requesting \$400,000 of AHFC funds to be used to defray acquisition costs and allow for the units to be sold below the 65% MFI level which is projected at \$250,000 for each home. This delivers AHFC Leverage of 44% for the affordable units.

The developer has obtained site control through one purchase contract to acquire all three lots from a previous owner. Copies of the sales contracts and addenda are attached as are the most recent tax appraisals. The total value of the sales contracts is \$726,100 and the value of the tax appraisals is \$730,000.

It is our belief that successful collaboration with NHCD to create a mixed-income missing middle project will encourage more developers to look for opportunities to include affordable housing in their developments.

MISSING MIDDLE HOUSING

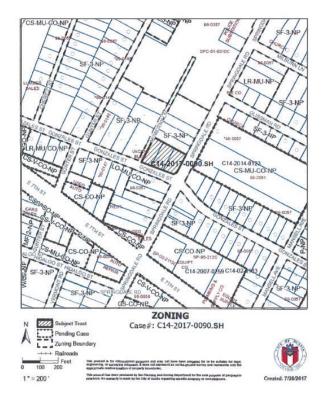

To enable more people to be able to afford to live in location-efficient areas is to make it easier to build smaller houses on smaller lots through land development code changes considered during the CodeNEXT process.

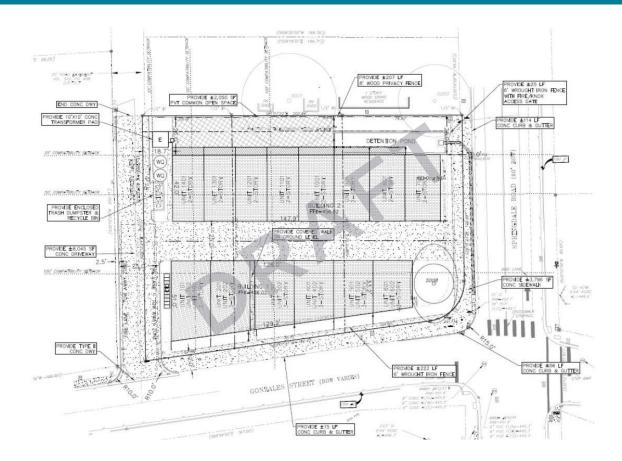

This would help produce more housing choices that are more likely to be affordable than houses built on larger lots.

The project spans three adjoining lots that are vacant with no existing structures. To allow for Missing Middle housing to be constructed, the property has been successfully rezoned to GR-MU-CO-NP on February 15, 2018 with the unanimous support of the City Council and Planning Commission. This new zoning ordinance shows the requirement with which the project complies with the existing Govalle Neighborhood Plan.

This project complies with the City of Austin Good Neighbor Guidelines. Through the rezoning process, the developer has engaged in extensive community conversations, in person and by correspondence with immediate neighbors, and through presentations with the Govalle Neighborhood Association, Planning Commission & Austin City Council. The project gained letters of support from the Govalle Neighborhood Association and Springdale General. Members of the development team have also been working with Casa Marianella, located two blocks to the north of the property. We intend to use these community relationships when marketing the affordable units to serve local residents and their families first and foremost. The team has also been in contact with NHCD staff throughout the process including receiving S.M.A.R.T. certification for the project.

This project will comply with the City of Austin's design standards for accessibility and GREEN ratings as established by the City's S.M.A.R.T. Housing Initiative. At least ten percent (10%) of all new units constructed are to be accessible to persons with mobility disabilities, and all other ground floor units are to be adaptable to accommodate the needs of persons with mobility impairments. In addition at least 1 unit is to be accessible to accommodate the needs of persons with hearing and/or visual disabilities. The homes will be attached to increase insulation and energy efficiency. On site water detention and drainage is included in our site plan.

MARKET ANALYSIS

As of January 2019, only studios less than 500 sf were available for sale in the AHFC/HODA program http://www.austintexas.gov/homesforsale To meet the needs of families and longtime residents in the Govalle and east Austin neighborhoods, larger homes with multiple bedrooms are required. Properties of this size and type, when they come available, sell for \$500K+, far out of reach for a local resident. Below is data from ABOR showing listings in Govalle Elementary zone, with a median price of \$592,000 and Average price per square foot of \$340. This would project each of these four bedroom residences at a market value of \$612,000.

LINKING HOUSING WITH TRANSPORTATION

Because of the centralized location, easy access to public transit and ridesharing options, residents have a greater opportunity to work, live and play without the expense of an automobile. This can be a savings of \$8,500 annually per automobile the family does not have to own. This savings can be invested instead into home ownership which is an appreciating asset, further creating wealth for affordable homeowners.

The residences are located in relation to transit:

- One block from the 4 bus line on 7th going directly to downtown
- Five blocks (1/2 mile) to the 300 High-Frequency Govalle route running north/south connecting Highland Mall, North Transit Center and South Congress Transit Center.
- Five blocks (1/2 mile) to the 135 MetroExpress bus line that serves Dell/Tech Ridge.

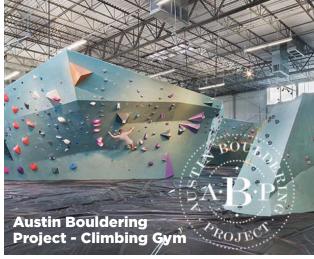

AREA AMENITIES

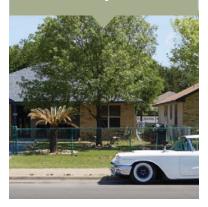

ABOUT GOVALLE

Govalle is an East Austin neighborhood about four miles east of downtown and just north of Lady Bird Lake.

Govalle is pronounced goh-VAL-ee, from the Swedish for "good grazing." It was named by Swen Magnus, who owned a ranch in the 19th century.

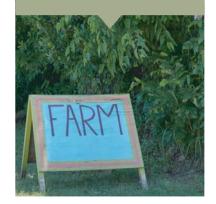

MetroRail passes E 7th Street on its way downtown. Public bus lines also run through Govalle.

Govalle doesn't really have a centralized business district.
Instead, businesses are scattered throughout the area.

The land in Govalle has drawn several urban farms and gardens to the neighborhood

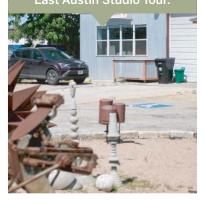

Casual joints with Mexican and Tex-Mex food are a common sight.

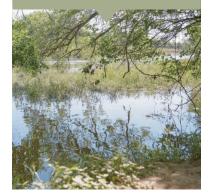

Some of Govalle's industrial spaces now house brewpubs or arts organizations.

n the southern part of Govalle many industrial spaces have been converted into artists' studios and are part of the

Govalle's Colorado River Park Wildlife Sanctuary has miles of hiking trails on the north band of the Colorado River.

City of Austin Good Neighbor Checklist

The Neighborhood Housing and Community Development Office (NHCD) offers a Good Neighbor Policy to standardize process and identify expectations for all projects funded through the City of Austin's Rental Housing Development Assistance (RHDA) and Acquisition and Development (A&D) programs. Applicants of these programs are required to prepare and begin implementing a community engagement plan, including neighborhood notification activities. The community engagement plan is required whether the application is for funding for new construction or renovation of an existing building, regardless of whether there is a change in ownership.

A successful community engagement plan leads to open, ongoing two-way communication between developers and neighbors. This requires good-faith efforts and cooperation by developers, City officials and residents. A positive, open dialogue between housing developers and neighbors can prevent misunderstandings, facilitate prompt resolution of any inadvertent misunderstandings, and provide a fair, thoughtful, dependable means of resolving differences.

The following checklist of items is required of all applicants for funding:

GOVALLE/JONSTON TERRACE NEIGHBORHOOD CONTACT TEAM "Strength through Unity"

November 7, 2017

To: City of Austin Planning Commission & City Council

From:

Govalle/Johnston Terrace Neighborhood Planning Team

Re: 3524 Gonzales NPA-2017-0016.01

Commissioners & Council members,

On behalf of the **Govalle/Johnston Terrace Neighborhood Plan Contact Team**, please accept this **letter of support** for the above zoning case with the following conditions:

- The area of the project fronting Springdale, and all other streets shall be entirely residential
- The area of the project fronting Springdale will not present a solid unbroken facade above the street
- The façade of the project along Springdale will not span the entire street front along Springdale
- Although a crash gate may be required by the City, no traffic shall enter or exit off of Springdale Road, if at all possible
- Applicant will not support additional parking off of Springdale Road
- The overall use of the site shall not exceed 40% commercial
- Applicant will stipulate to a conditional overlay removing uses listed below

These stipulations should still allow for a nice addition to the neighborhood incorporating some mixed use studios, 10 to 12 three and four bedroom units, one or two one bedroom units and a maximum of 36 spaces.

We note the developer's SMART Housing acceptance letter this week! To review, this includes 20% of the units, at 65% MFI for 20 years.

We also encourage any attempts to canti-levered the site along Gonzales to avoid creating a canyon effect to enhance the walkability and neighborhood scale of the project.

Respectfully,

Daniel Llanes, Chair G/JTNP Contact Team 512-431-9665

Conditional Overlay

By conditional overlay, applicant agrees to strike the following uses from GR-MU.

Hospital Services, general or limited Local Utility Services Residential Treatment Telecommunication Tower Alternative Financial Services **Automotive Rentals** Automotive Repair Services **Automotive Sales** Automotive Washing of any type **Bail Bond Services** Drop Off Recycling Collection Facility **Extermination Services Funeral Services** Hotel-Motel Medical Offices that are greater than 5,000 sqft Off-Site Accessory Parking Outdoor Entertainment Outdoor Sports and Recreation Pawn Shop Services Restaurant: general and limited Service Station Theater

May 7, 2018 (Revision to letter dated October 3, 2017)

S.M.A.R.T. Housing- Certification Anmol Mehra – Springdale Arts – 3524, 3528 and 3532 Gonzales Street (Project ID # 410)

TO WHOM IT MAY CONCERN:

Anmol Mehra (development contact: Glen Coleman, 512.407.9357 and glen@southlano.com) has submitted a S.M.A.R.T. Housing application for the construction of a 22 unit Multi-family residential development at 3524, 3528, and 3532 Gonzales Street, Austin TX 78702. The applicant has agreed to a minimum 20 year affordability period after issuance of a certificate of occupancy, unless project funding requirements are longer.

This revision increases the number of units from 14 to 22, increases the affordability period on the 2 income restricted units from 20 years to 99 years, increases the S.M.A.R.T. Housing fee waiver from 50% to 100%, with the exception as explained below.

The applicant has submitted evidence that they have contacted the Govalle/Johnston Terrace Neighborhood Plan Contact Team. In addition, a meeting was held with the Govalle/Johnston Terrace Neighborhood. The applicant indicated they are addressing neighborhood residents concerns but overall the neighborhood supports the housing component of the project.

NHCD certifies that the proposed construction will meet the S.M.A.R.T. Housing standards at the presubmittal stage. Since 10% of the units (2 units) will serve households at or below 65% Median Family Income (MFI), the development will be eligible for 100% waiver of the fees listed in the S.M.A.R.T. Housing Ordinance adopted by the City Council with the exception of Capital Recovery Fees. This development is not 100% in accordance with the requirements under the Texas Local Government Code, Chapter 395.16(g) and 42 U.S.C. Section 12745 (A)(1) as it relates to how housing qualifies as affordable housing and therefore the 12 market rate units are not eligible to receive any CRF fee waivers under the S.M.A.R.T. Housing Ordinance. The expected fee waivers include, but are not limited to, the following fees:

Capital Recovery FeesSite Plan ReviewLand Status DeterminationBuilding PermitMisc. Site Plan FeeBuilding Plan ReviewConcrete PermitConstruction InspectionParkland Dedication (by separate

Electrical Permit Subdivision Plan Review ordinance)

Mechanical Permit Misc. Subdivision Fee Plumbing Permit Zoning Verification

Prior to issuance of building permits and starting construction, the developer must:

♦ Obtain a signed Conditional Approval from the Austin Energy Green Building Program stating that the plans and specifications for the proposed development meet the criteria for a Green Building Rating. (Contact Austin Energy Green Building: 512-482-5300 or greenbuilding@austinenergy.com).

Submit plans demonstrating compliance with the required accessibility or visitability standards.

Before a Certificate of Occupancy will be granted, the development must:

- Pass a final inspection and obtain a signed Final Approval from the Green Building Program. (Separate from any other inspections required by the City of Austin or Austin Energy).
- Pass a final inspection to certify that accessibility standards have been met.
- ♦ An administrative hold will be placed on the certificate of occupancy, until the following items have been completed: 1) the number of affordable units have been finalized and evidenced through a sealed letter from project architect and/or engineer, 2) a Restrictive Covenant stating the affordability requirements and terms has been filed for record at the Travis County Clerk Office.

The applicant must demonstrate compliance with the reasonably-priced standard after the completion of the units, or repay the City of Austin in full the fees waived for this S.M.A.R.T. Housing certification.

Please contact me by phone 512.974.3128 or by email at Sandra.harkins@austintexas.gov if you need additional information.

Sincerely,

Sandra Harkins, Project Coordinator Neighborhood Housing and Community Development

CONTRACT ADDENDUM

This Contract Addendum is attached to and made part of that certain Unimproved Property Contract concerning the property located at 3524, 3528 and 3532 Gonzales Street (fka 732 Springdale Road), Austin, Texas (the "Contract") by and between RLS-WBW Springdale, LLC, a Texas limited liability company ("Seller") and Anmol Mehra ("Buyer").

Seller has delivered or will deliver to Buyer all permits and architectural and engineering drawings and reports related to the development of the Property in Seller's possession (the "Development Information"). To the extent that such Development Information is owned and assignable by Seller on the Effective Date of this Contract, Seller will assign Seller's rights in said Development Information to Buyer at closing.

Buyer acknowledges that Seller has afforded or will afford Buyer the opportunity to conduct such studies, tests, inspections and property development research as Buyer deems necessary or appropriate with respect to the Property, and that Buyer is relying exclusively upon those studies, tests, inspections and property development research in making Buyer's decision to purchase the Property. Buyer agrees that Buyer is purchasing the Property in an arm's-length agreement with Seller, that the Sales Price was bargained on the basis of an "AS IS, WHERE IS" transaction, and that the Sales Price reflects the agreement of the parties that the Property is being conveyed with all faults and defects, whether apparent or latent. Buyer hereby expressly acknowledges that, except for the warranty of title set forth in the deed conveying the Property from Seller to Buyer, neither Seller nor Seller's agents or representatives have made any warranty or representation, express, implied or arising by operation of law, including, without limitation, any warranty of condition, habitability, or fitness for a particular purpose, in respect of the Property or any portion thereof.

Specifically, but not by way of limitation, Buyer understands that the Property has been the subject of initial land planning efforts which suggest that residential condominiums may be an appropriate use for the Property. Notwithstanding any such initial land planning efforts, however, Buyer understands and agrees that Seller does not warrant or represent that residential

condominiums may be constructed on the Property. To the contrary, it is Buyer's sole responsibility to determine the lawful and permitted development uses of the Property.

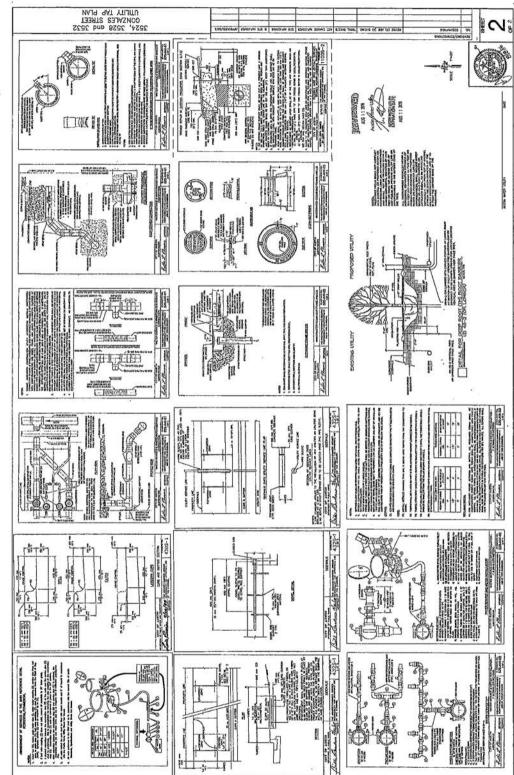

Buyer agrees to accept title to the Property subject to any and all restrictions, easements, covenants, conditions, encumbrances, reservations, rights of way, subdivision regulations and city ordinances that affect the Property.

The provisions of this Contract Addendum shall survive closing.

If you qualified your home for a 65 and older or disabled person exemption for school taxes, the school taxes on that home cannot increase as long as you own and live in that home. The tax ceiling is the amount that you pay in the year that you qualified for the 65 and older or disabled person exemption. The school taxes on your home may not go above the amount of the ceiling, unless you improve the home (other than normal repairs and maintenance). If you improved your property (by adding rooms or buildings) or you are transferring a freeze percentage, your school, county, city, or junior college Ceiling may increase from prior years.

Enclosed are copies of the following documents published by the Texas Comptroller of Public Accounts: (1) Property Tax Remedies; and (2) notice of protest.

- * The flood zone determination is based solely on a graphical interpretation of the FEMA Flood Insurance Rate Map (FIRM). Parcels with flood zones A, AE, AO, or AH are located or partially located within the FEMA Special Flood Hazard Area designated 1% annual chance flood hazard (100-year floodplain). Parcels with flood zone 0.2% annual chance flood hazard (500-year floodplain) are located or partially located within the shaded zone X portion of the FIRM. Parcels with flood zone X Protected by Levee are located within in an area protected by a levee from the 1% annual chance flood hazard. Parcels with flood zone X are located outside the 0.2% annual chance flood hazard. The 1% annual chance flood hazard is the base flood and is used to determine the base flood elevation (BFE) for flood insurance purposes. BFEs must be determined using the flood profiles contained in the effective Flood Insurance Study (FIS). The FEMA 1% annual chance floodplains may differ from the City of Austin regulatory floodplains.
- * *The City of Austin uses the fully developed 25-year and 100-year floodplains to regulate development within the full purpose and extra territorial jurisdiction (ETJ) as established in the Land Development Code. The City of Austin regulatory floodplains *may differ* from the FEMA 1% annual chance floodplains.

The City provides the information on this form using the best available engineering and topographic data. Floodplain elevations to be used for development applications must be determined by a Texas Registered Professional Engineer. The official determination of a parcel's floodplain status may necessitate a comparison of the floodplain elevations to an on-the-ground topographic survey by a registered design professional.

ATLAS 14 QUICK REFERENCE SHEET

What is Atlas 14?

The National Weather Service, in partnership with many other federal, state, and local agencies, is in the process of reassessing historic rainfall intensities for Texas with a study called Atlas 14. Rainfall intensities tell us the likelihood of rainfall events of different sizes. Rainfall intensities are used by FEMA and local communities to determine flood risk and to make floodplain maps. Rainfall intensities for the State of Texas have not been assessed since 1994. Atlas 14 is an update of this data meant to incorporate almost a quarter century of rainfall data collected statewide since the last study, up to and including Hurricane Harvey. The graphic to the right indicates in green the areas of Texas where rainfall intensities are increasing.

How Does Atlas 14 Affect Austin?

The Atlas 14 draft study shows the Austin area to be one of the most significantly impacted areas in the State of Texas. In general, this means that, in Austin, what had been considered a 500-year rainfall is in fact a 100-year rainfall. This indicates that many homes and businesses in Austin may be expected to flood more frequently than had been previously thought. However, only 9% of the land area in Austin is projected to be in the new 100-year floodplain.

How Is the City of Austin Responding?

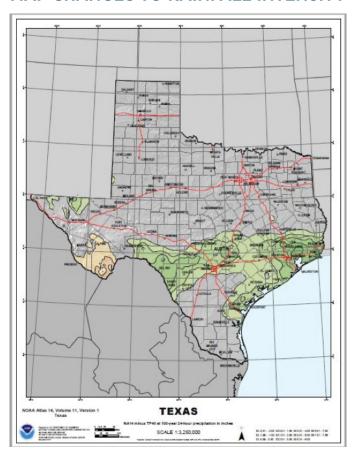

The Watershed Protection Department is acting quickly to respond to this more accurate assessment of flood risk. It is critical that we continue to ensure that future development is built to be sufficiently resilient to protect lives and properties of our residents. To that end, we have initiated a code amendment process to adopt this new rainfall information as well as other changes meant to enable properties to redevelop in a safer fashion.

IMPACTS TO HOMEOWNERS

How does this affect my property?

Visit our website **www.austintexas.gov/atlas14** to access maps of floodplain changes in Austin.

Do I need to buy flood insurance?

While FEMA flood insurance rate maps will not be immediately affected, property owners shown in the 500-year floodplain on the current FEMA maps should consider purchasing flood insurance as soon as possible to best protect their property.

How does this impact development regulations?

Properties located in the City's regulatory floodplain are subject to additional development restrictions. Please visit www.austintexas.gov/floodplainrules to learn more.

INTENDED USE:

This appraisal report is intended for the client's use in processing a lot loan.

SCOPE OF THE APPRAISAL

The scope of this appraisal was to inspect the subject neighborhood and subject property (unless otherwise stated in this report), collect, analyze, confirm, and report pertinent data while developing a final estimate of market value for the subject, as defined in this report. In arriving at an estimated market value for the subject property, the appraiser has analyzed, as applicable, past sales and current offerings of available properties found in the area, which are considered to be similar to the subject. In addition, consultations with brokers and builders active in the area further supported the estimate of market value for the subject property. The information, estimates, and opinions furnished to the appraiser and contained in this report were obtained from sources believed to be true and correct. This appraisal was based upon the Uniform Standards of Professional Appraisal Practice Act (USPAP) as promulgated by the Appraisal Foundation.

FLOOD HAZARD COMMENTS:

According to the Flood Insurance Rate Map (FIRM) which is published by the Federal Emergency Management Agency (FEMA) and cited in this report, the subject is located in an "unshaded Zone X". "Unshaded Zone X" is defined, per the legend of the map cited on the URAR form, as "areas determined to be outside the 500-year flood plain". It appears that the subject is not located in a flood hazard area (ie. area of 100-year flood). However, the appraiser is not a surveyor and not qualified to make this determination.

The appraiser does not guarantee the accuracy of the FEMA Flood Insurance Rate Maps, or the data utilized in preparing the maps, and is not liable for mapping inaccuracies. The appraiser does not claim that if a property is located outside of an identified flood plain (Zone A, AE, or B) it will never flood. In the event that flood damages do occur, the appraiser is not responsible or liable for those damages.

SITE COMMENTS:

No adverse encroachments, easements, special assessments, illegal or legal non-conforming zoning or use was observed, and the property is assumed to be free and clear of such adverse conditions. Should any such adverse conditions be revealed, this appraisal report is subject to revision.

SALES COMPARISON COMMENTS:

The subject is a muti-lot sales with three lot that totals .668 acre. The contract price is \$726,100. Contract price was divided by three or \$242,000 per lot as a sales price for each lot.

The number of available sales were very limited, which is typical when dealing with Central Austin lots. Some of the sales are over six months old, but this is typical when dealing with single family lot sales.

The site size adjustment was made at \$20.00 per square foot. All sales were considered in the final value estimate.

FINAL RECONCILIATION:

Greatest weight is given to the Sales Comparison Approach, as it best reflects the actions of buyers and sellers in the market place. Additional support was provided by the Cost Approach. The Income Approach was not utilized. It is not considered appropriate since homes such as the subject property are not typically purchased for their income producing capabilities.

COMMENTS AND CONDITIONS:

No warranty or guarantee is made or implied as to the condition of the roof, slab (or foundation), electrical systems, air conditioning and heating systems, insulation, appliances, or any other components of the improvements. This would require an inspection by a qualified expert in these areas. As an appraiser, I am not qualified to warrant the condition of these components of the subject improvements.

This appraisal should not be considered a report on the physical items that are part of this property. Although the appraisal may contain information about the physical items being appraised (including their adequacy and/or condition), it should be clearly understood that this information is only to be used as a general guide for property valuation and not as a complete, detailed inspection report. The appraiser is not qualified to render an opinion in these areas. If any party is concerned about the existence, condition, or adequacy of a particular item, it is strongly suggested that a home inspector, licensed by the Texas Real Estate Commission, be hired for a detailed investigation.

The appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

Compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.

ENVIRONMENTAL DISCLAIMER:

The value estimate in this report is based upon the assumption that the subject property is not negatively affected by

the existence of hazardous substances or detrimental environmental conditions. The appraiser's routine inspection of and inquiries about the subject property did not develop any information that indicated any apparent, significant hazardous substances or detrimental environmental conditions which would affect the value or use of the property negatively. However, the appraiser is not an expert in either hazardous material or environmental conditions. It is entirely possible that an inspection or testing by qualified experts in environmental conditions and/or hazardous materials could reveal the existence of hazardous materials or detrimental environmental conditions in, on, or around the subject property which might adversely affect the value, use, or marketability of the property.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

* Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer, consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
- 10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

File No. Rd170515a

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

CLIENT:

Independent Bank

INTENDED USE:

This appraisal report is intended for the client's use in processing a lot loan.

SCOPE OF THE APPRAISAL

The scope of this appraisal was to inspect the subject neighborhood and subject property (unless otherwise stated in this report), collect, analyze, confirm, and report pertinent data while developing a final estimate of market value for the subject, as defined in this report. In arriving at an estimated market value for the subject property, the appraiser has analyzed, as applicable, past sales and current offerings of available properties found in the area, which are considered to be similar to the subject. In addition, consultations with brokers and builders active in the area further supported the estimate of market value for the subject property. The information, estimates, and opinions furnished to the appraiser and contained in this report were obtained from sources believed to be true and correct. This appraisal was based upon the Uniform Standards of Professional Appraisal Practice Act (USPAP) as promulgated by the Appraisal Foundation.

FLOOD HAZARD COMMENTS:

According to the Flood Insurance Rate Map (FIRM) which is published by the Federal Emergency Management Agency (FEMA) and cited in this report, the subject is located in an "unshaded Zone X". "Unshaded Zone X" is defined, per the legend of the map cited on the URAR form, as "areas determined to be outside the 500-year flood plain". It appears that the subject is not located in a flood hazard area (ie. area of 100-year flood). However, the appraiser is not a surveyor and not qualified to make this determination.

The appraiser does not guarantee the accuracy of the FEMA Flood Insurance Rate Maps, or the data utilized in preparing the maps, and is not liable for mapping inaccuracies. The appraiser does not claim that if a property is located outside of an identified flood plain (Zone A, AE, or B) it will never flood. In the event that flood damages do occur, the appraiser is not responsible or liable for those damages.

SITE COMMENTS:

No adverse encroachments, easements, special assessments, illegal or legal non-conforming zoning or use was observed, and the property is assumed to be free and clear of such adverse conditions. Should any such adverse conditions be revealed, this appraisal report is subject to revision.

SALES COMPARISON COMMENTS:

The subject is a muti-lot sales with three lot that totals .668 acre. The contract price is \$726,100. Contract price was divided by three or \$242,000 per lot as a sales price for each lot.

The number of available sales were very limited, which is typical when dealing with Central Austin lots. Some of the sales are over six months old, but this is typical when dealing with single family lot sales.

The site size adjustment was made at \$20.00 per square foot. All sales were considered in the final value estimate.

FINAL RECONCILIATION:

Greatest weight is given to the Sales Comparison Approach, as it best reflects the actions of buyers and sellers in the market place. Additional support was provided by the Cost Approach. The Income Approach was not utilized. It is not considered appropriate since homes such as the subject property are not typically purchased for their income producing capabilities.

COMMENTS AND CONDITIONS:

No warranty or guarantee is made or implied as to the condition of the roof, slab (or foundation), electrical systems, air conditioning and heating systems, insulation, appliances, or any other components of the improvements. This would require an inspection by a qualified expert in these areas. As an appraiser, I am not qualified to warrant the condition of these components of the subject improvements.

This appraisal should not be considered a report on the physical items that are part of this property. Although the appraisal may contain information about the physical items being appraised (including their adequacy and/or condition), it should be clearly understood that this information is only to be used as a general guide for property valuation and not as a complete, detailed inspection report. The appraiser is not qualified to render an opinion in these areas. If any party is concerned about the existence, condition, or adequacy of a particular item, it is strongly suggested that a home inspector, licensed by the Texas Real Estate Commission, be hired for a detailed investigation.

The appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

Compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.

ENVIRONMENTAL DISCLAIMER:

The value estimate in this report is based upon the assumption that the subject property is not negatively affected by

the existence of hazardous substances or detrimental environmental conditions. The appraiser's routine inspection of and inquiries about the subject property did not develop any information that indicated any apparent, significant hazardous substances or detrimental environmental conditions which would affect the value or use of the property negatively. However, the appraiser is not an expert in either hazardous material or environmental conditions. It is entirely possible that an inspection or testing by qualified experts in environmental conditions and/or hazardous materials could reveal the existence of hazardous materials or detrimental environmental conditions in, on, or around the subject property which might adversely affect the value, use, or marketability of the property.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower, the mortgagee or its successors and assigns; the mortgage insurer, consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
- 10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

File No. Rd170515b

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

INTENDED USE:

This appraisal report is intended for the client's use in processing a lot loan.

SCOPE OF THE APPRAISAL

The scope of this appraisal was to inspect the subject neighborhood and subject property (unless otherwise stated in this report), collect, analyze, confirm, and report pertinent data while developing a final estimate of market value for the subject, as defined in this report. In arriving at an estimated market value for the subject property, the appraiser has analyzed, as applicable, past sales and current offerings of available properties found in the area, which are considered to be similar to the subject. In addition, consultations with brokers and builders active in the area further supported the estimate of market value for the subject property. The information, estimates, and opinions furnished to the appraiser and contained in this report were obtained from sources believed to be true and correct. This appraisal was based upon the Uniform Standards of Professional Appraisal Practice Act (USPAP) as promulgated by the Appraisal Foundation.

FLOOD HAZARD COMMENTS:

According to the Flood Insurance Rate Map (FIRM) which is published by the Federal Emergency Management Agency (FEMA) and cited in this report, the subject is located in an "unshaded Zone X". "Unshaded Zone X" is defined, per the legend of the map cited on the URAR form, as "areas determined to be outside the 500-year flood plain". It appears that the subject is not located in a flood hazard area (ie. area of 100-year flood). However, the appraiser is not a surveyor and not qualified to make this determination.

The appraiser does not guarantee the accuracy of the FEMA Flood Insurance Rate Maps, or the data utilized in preparing the maps, and is not liable for mapping inaccuracies. The appraiser does not claim that if a property is located outside of an identified flood plain (Zone A, AE, or B) it will never flood. In the event that flood damages do occur, the appraiser is not responsible or liable for those damages.

SITE COMMENTS:

No adverse encroachments, easements, special assessments, illegal or legal non-conforming zoning or use was observed, and the property is assumed to be free and clear of such adverse conditions. Should any such adverse conditions be revealed, this appraisal report is subject to revision.

SALES COMPARISON COMMENTS:

The subject is a muti-lot sales with three lot that totals .668 acre. The contract price is \$726,100. Contract price was divided by three or \$242,000 per lot as a sales price for each lot.

The number of available sales were very limited, which is typical when dealing with Central Austin lots. Some of the sales are over six months old, but this is typical when dealing with single family lot sales.

The subject sides to Springdale Rd, which is a busy street and the subject's lot is afffected by traffic noise, thus the negative \$15,000 view adjustment was to all sales

The site size adjustment was made at \$20.00 per square foot. All sales were considered in the final value estimate.

FINAL RECONCILIATION:

Greatest weight is given to the Sales Comparison Approach, as it best reflects the actions of buyers and sellers in the market place. Additional support was provided by the Cost Approach. The Income Approach was not utilized. It is not considered appropriate since homes such as the subject property are not typically purchased for their income producing capabilities.

COMMENTS AND CONDITIONS:

No warranty or guarantee is made or implied as to the condition of the roof, slab (or foundation), electrical systems, air conditioning and heating systems, insulation, appliances, or any other components of the improvements. This would require an inspection by a qualified expert in these areas. As an appraiser, I am not qualified to warrant the condition of these components of the subject improvements.

This appraisal should not be considered a report on the physical items that are part of this property. Although the appraisal may contain information about the physical items being appraised (including their adequacy and/or condition), it should be clearly understood that this information is only to be used as a general guide for property valuation and not as a complete, detailed inspection report. The appraiser is not qualified to render an opinion in these areas. If any party is concerned about the existence, condition, or adequacy of a particular item, it is strongly suggested that a home inspector, licensed by the Texas Real Estate Commission, be hired for a detailed investigation.

The appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

Compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.

ENVIRONMENTAL DISCLAIMER:

The value estimate in this report is based upon the assumption that the subject property is not negatively affected by the existence of hazardous substances or detrimental environmental conditions. The appraiser's routine inspection of and inquiries about the subject property did not develop any information that indicated any apparent, significant hazardous substances or detrimental environmental conditions which would affect the value or use of the property negatively. However, the appraiser is not an expert in either hazardous material or environmental conditions. It is entirely possible that an inspection or testing by qualified experts in environmental conditions and/or hazardous materials could reveal the existence of hazardous materials or detrimental environmental conditions in, on, or around the subject property which might adversely affect the value, use, or marketability of the property.

File No. Rd170515c

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. (Source: FDIC Interagency Appraisal and Evaluation Guidelines, October 27, 1994.)

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgement.

STATEMENT OF LIMITING CONDITIONS AND CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is valued on the basis of it being under responsible ownership.
- 2. Any sketch provided in the appraisal report may show approximate dimensions of the improvements and is included only to assist the reader of the report in visualizing the property. The appraiser has made no survey of the property.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. Any distribution of valuation between land and improvements in the report applies only under the existing program of utilization. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
- 5. The appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous waste, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. This appraisal report must not be considered an environmental assessment of the subject property.
- 6. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
- The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice, and any applicable federal, state or local laws.
- 8. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
- 9. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgage or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentalized that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.
- 10. The appraiser is not an employee of the company or individual(s) ordering this report and compensation is not contingent upon the reporting of a predetermined value or direction of value or upon an action or event resulting from the analysis, opinions, conclusions, or the use of this report. This assignment is not based on a required minimum, specific valuation, or the approval of a loan.

File No. Rd170515c

CERTIFICATION: The appraiser certifies and agrees that:

- 1. The statements of fact contained in this report are true and correct.
- 2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial and unbiased professional analyses, opinions, and conclusions.
- 3. Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- 4. Unless otherwise indicated, I have performed no services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- 5. I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- 6. My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- 7. My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- 8. My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
- 9. Unless otherwise indicated, I have made a personal inspection of the interior and exterior areas of the property that is the subject of this report, and the exteriors of all properties listed as comparables.
- 10. Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

DEVELOPMENT TEAM

Ryan Steglich has been active in real estate for over 14 years in Austin and has a passion for the city and its culture. After moving to Austin to pursue an MBA at the University of Texas, he began remodelling homes for rental in central Austin. Becoming a licensed Realtor in 2007, he used his firsthand experience in real estate to help Austinites buy, sell and remodel their own properties. While working at Golfsmith as Director of FP&A for Real Estate, he oversaw a portfolio of commercial real estate that grew to 109 stores, 1.6m+ square feet, across the United States, including double digit new store openings in consecutive years. As a private real estate investor, he

rehabilitates, owns and manages a number of rental properties in Austin and Minneapolis, MN.

His work centers around projects to address the challenges of Austin's success and growth, while keeping the culture that made it successful in the first place. He partners with like-minded developers to create communities where Austinites can work, serving as a Development Consultant, Partner & Owner's Representative for real estate projects in Austin.

He's lives with his family in East Austin. His public service has included serving as chair of his neighborhood association, as a liason for his neighborhood on zoning issues, as currently as a Board Member of the Travis County Appraisal District appointed by AISD.

Our Team

Glen Coleman

A native of Junction, Texas, Glen Coleman has expertise in water issues, zoning and land use, political processes and community relations. For the City of Austin, he served as a City Council policy aide handling related issues; he also worked in the regulatory division of the Austin Water Utility, and served on the City's Water and Waste Water Commission. His public service has included serving on The Balcones Canyon Land Preserve Citizen's Advisory Committee and a Travis County Bond Committee, and leading his local neighborhood association.

After leaving the city, Glen led business development and government relations in Central Texas for Banyan Water, served on the Real Estate Council of Austin government relations committee, and was a founding member of Evolve Austin Partners. In 2013 he established South Llano Strategies to lobby for density, affordable housing and better resource management in central Texas.

STRATEGIES MADE SIMPLE

Clients & Projects

Infill developers such as PSW Real Estate, Rivendale Homes and Cedar Willow Creek have all relied on South Llano Strategies to successfully navigate every aspects of the zoning and entitlement process. South Llano is proud to represent such projects as Springdale General, The Yard at St. Elmo and Vuka LLC. as they transform the way central Texans work and play.

We have helped clients ranging from Elon Musk's Solar City, to Mr. Tramps neighborhood bar. Each had a vision.

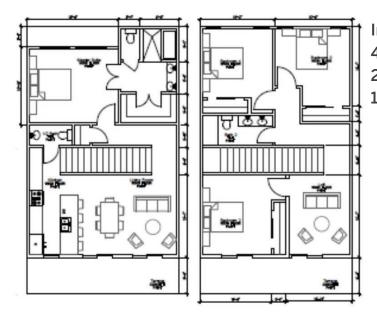

- Zoning & Entitlements
- Service Extension Request
- Parkland Dedication
- Storm water reuse
- Water Conservation & Solar Power
- Boards & Commissions
- Neighborhood & Council Relations
- Projects that bring connectivity, mobility, homes and affordability to cities' desired development zones

We do not assist with low density sprawl, or development over environmentally sensitive areas

What's your vision?

FAMILY AFFORDABLE RESIDENCE

preliminary floorplan

Income Restricted @ 65% MFI 4 Bedroom 2.5 bathroom 1,800sf

The development will feature two, affordable, four-bedroom family-friendly homes to be income restricted to 65% MFI for a period of 99 years. Discussions with the Govalle Neighborhood Association, who filed a letter of support for the project indicated that affordable multi-bedroom units that can support families with children, or multi-generational and extended families are highly desired. These family friendly residences with great access to transit will contribute to the Strategic Housing Blueprint's goal of 60,000 affordable housing units by 2027.

KEY FINANCIALS

The total cost of the project will be \$5,148,750. The use of AHFC funds will be restricted to the acquisition costs related to the two, four bedroom affordable units. The cost of each unit is projected to be \$450,000 each (\$900,000 for both units) based on a cost per square foot of \$250/psf. Market value for comparable units in the area are \$612,000 or \$340 psf. We are requesting \$400,000 of AHFC funds to be used to defray acquisition costs and allow for the units to be sold below the 65% MFI level which is projected at \$250,000 for each home. This delivers AHFC Leverage of 44% for the affordable units.

The developer has obtained site control through one purchase contract to acquire all three lots from a previous owner. Copies of the sales contracts and addenda are attached as are the most recent tax appraisals. The total value of the sales contracts is \$726,100 and the value of the tax appraisals is \$730,000.

It is our belief that successful collaboration with NHCD to create a mixed-income missing middle project will encourage more developers to look for opportunities to include affordable housing in their developments.

MISSING MIDDLE HOUSING

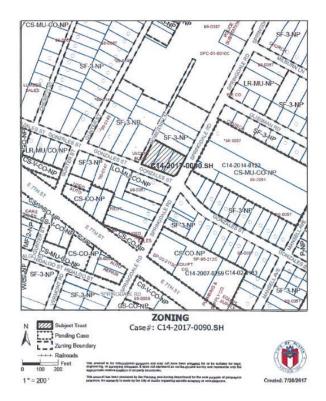

To enable more people to be able to afford to live in location-efficient areas is to make it easier to build smaller houses on smaller lots through land development code changes considered during the CodeNEXT process.

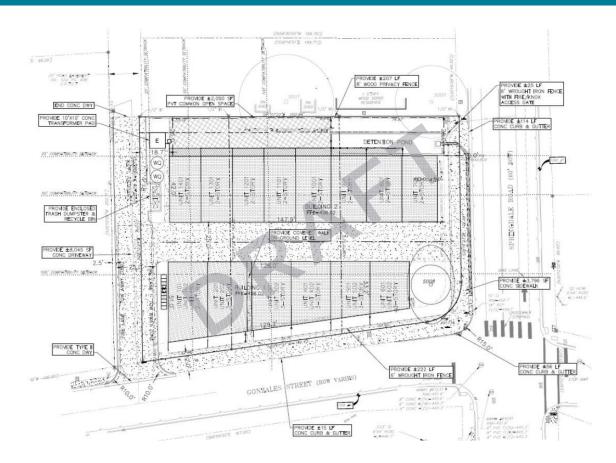

This would help produce more housing choices that are more likely to be affordable than houses built on larger lots.

The project spans three adjoining lots that are vacant with no existing structures. To allow for Missing Middle housing to be constructed, the property has been successfully rezoned to GR-MU-CO-NP on February 15, 2018 with the unanimous support of the City Council and Planning Commission. This new zoning ordinance shows the requirement with which the project complies with the existing Govalle Neighborhood Plan.

This project complies with the City of Austin Good Neighbor Guidelines. Through the rezoning process, the developer has engaged in extensive community conversations, in person and by correspondence with immediate neighbors, and through presentations with the Govalle Neighborhood Association, Planning Commission & Austin City Council. The project gained letters of support from the Govalle Neighborhood Association and Springdale General. Members of the development team have also been working with Casa Marianella, located two blocks to the north of the property. We intend to use these community relationships when marketing the affordable units to serve local residents and their families first and foremost. The team has also been in contact with NHCD staff throughout the process including receiving S.M.A.R.T. certification for the project.

This project will comply with the City of Austin's design standards for accessibility and GREEN ratings as established by the City's S.M.A.R.T. Housing Initiative. At least ten percent (10%) of all new units constructed are to be accessible to persons with mobility disabilities, and all other ground floor units are to be adaptable to accommodate the needs of persons with mobility impairments. In addition at least 1 unit is to be accessible to accommodate the needs of persons with hearing and/or visual disabilities. The homes will be attached to increase insulation and energy efficiency. On site water detention and drainage is included in our site plan.

MARKET ANALYSIS

As of January 2019, only studios less than 500 sf were available for sale in the AHFC/HODA program http://www.austintexas.gov/homesforsale To meet the needs of families and longtime residents in the Govalle and east Austin neighborhoods, larger homes with multiple bedrooms are required. Properties of this size and type, when they come available, sell for \$500K+, far out of reach for a local resident. Below is data from ABOR showing listings in Govalle Elementary zone, with a median price of \$592,000 and Average price per square foot of \$340. This would project each of these four bedroom residences at a market value of \$612,000.

LINKING HOUSING WITH TRANSPORTATION

Because of the centralized location, easy access to public transit and ridesharing options, residents have a greater opportunity to work, live and play without the expense of an automobile. This can be a savings of \$8,500 annually per automobile the family does not have to own. This savings can be invested instead into home ownership which is an appreciating asset, further creating wealth for affordable homeowners.

The residences are located in relation to transit:

- One block from the 4 bus line on 7th going directly to downtown
- Five blocks (1/2 mile) to the 300 High-Frequency Govalle route running north/south connecting Highland Mall, North Transit Center and South Congress Transit Center.
- Five blocks (1/2 mile) to the 135 MetroExpress bus line that serves Dell/Tech Ridge.

CONTRACT ADDENDUM

This Contract Addendum is attached to and made part of that certain Unimproved Property Contract concerning the property located at 3524, 3528 and 3532 Gonzales Street (fka 732 Springdale Road), Austin, Texas (the "Contract") by and between RLS-WBW Springdale, LLC, a Texas limited liability company ("Seller") and Anmol Mehra ("Buyer").

Seller has delivered or will deliver to Buyer all permits and architectural and engineering drawings and reports related to the development of the Property in Seller's possession (the "Development Information"). To the extent that such Development Information is owned and assignable by Seller on the Effective Date of this Contract, Seller will assign Seller's rights in said Development Information to Buyer at closing.

Buyer acknowledges that Seller has afforded or will afford Buyer the opportunity to conduct such studies, tests, inspections and property development research as Buyer deems necessary or appropriate with respect to the Property, and that Buyer is relying exclusively upon those studies, tests, inspections and property development research in making Buyer's decision to purchase the Property. Buyer agrees that Buyer is purchasing the Property in an arm's-length agreement with Seller, that the Sales Price was bargained on the basis of an "AS IS, WHERE IS" transaction, and that the Sales Price reflects the agreement of the parties that the Property is being conveyed with all faults and defects, whether apparent or latent. Buyer hereby expressly acknowledges that, except for the warranty of title set forth in the deed conveying the Property from Seller to Buyer, neither Seller nor Seller's agents or representatives have made any warranty or representation, express, implied or arising by operation of law, including, without limitation, any warranty of condition, habitability, or fitness for a particular purpose, in respect of the Property or any portion thereof.

Specifically, but not by way of limitation, Buyer understands that the Property has been the subject of initial land planning efforts which suggest that residential condominiums may be an appropriate use for the Property. Notwithstanding any such initial land planning efforts, however, Buyer understands and agrees that Seller does not warrant or represent that residential
