

2013 National Week of Prayer for the Healing of AIDS

The National Week of Prayer for the Healing of AIDS is the coming together of people of all faiths to unite with purpose, compassion and hope.

Through the power of God's love we will educate every American about HIV prevention facts; encourage and support HIV testing; advocate for the availability of compassionate care and treatment for all those living with the disease in every community in America; and love unconditionally all persons living with and affected by HIV/AIDS.

On Sunday, March 3, 2013, many Austin area churches will focus their Sunday services on awareness and prevention of HIV/AIDS in our community. We would like to thank our partners for speaking out about HIV/AIDS, reaching out to those infected or affected, and fighting stigma.

A special thank you to all the participating churches for your time, support, and attention to this growing pandemic. We could not have done this without you!
