## Data Brief

### Fall-related Deaths and Hospitalizations due to Falls, Travis County

## A Growing Concern

Unintentional falls, especially among the elderly, are a growing public health concern in Travis County. Injuries from unintentional falls are preventable. This data brief summarizes deaths by falls and hospitalizations due to falls among Travis County residents.

Between 2006 and 2015, there were over 1,000 deaths by falls in Travis County (figure 1). Those adults older than 64 years of age have the highest mortality rate from unintentional falls (*2017 Critical Health Indicators Report*). The mortality rate increases with age, with those 85 years and older having the highest death rates.

Figure 1. Fall-related Mortality by Year, Travis County, 2006 - 2015

Table 1. Fall-related Mortality by Gender and Age Group, Travis County, 2006 - 2015

Characteristics		Number	Percent
