

Executive Summary

HousingWorks Austin is a nonprofit organization that aims to increase the supply of affordable housing in Austin by providing research, education, advocacy, and thoughtful, workable affordable housing policy recommendations.

The first iteration of HousingWorks Austin’s Blueprint Scorecard analyzes and tracks the City’s progress towards reaching 135,000 housing units over the next ten years as detailed in the Austin Strategic Housing Blueprint, adopted by City Council in 2017. The Blueprint includes goals for affordable housing in every City Council district to ensure that there is affordable housing throughout the city. The Blueprint includes goals for the construction of 60,000 housing units affordable to households at or below 80% median family income (MFI), and another 75,000 units for households earning greater than 80% MFI with specific goals for households at different income levels. The Blueprint Scorecard shows that although the City of Austin is making progress in supporting the values highlighted in the Austin Strategic Housing Blueprint, additional efforts are required to address affordability challenges and to ensure housing for all.

Major findings include:

GOAL 1: HOMES IN EACH DISTRICT

Distribution of new housing units throughout each district

Production of new affordable housing in City Council Districts missed the annual District by District goals outlined in the Blueprint in most Districts. Only District 4 reached its district-specific goal for new affordable housing units. In seven Districts, fewer than half of the goal units were built. In order to reach District by District Blueprint goals over the next ten years, an average of 583 units per District would need to be produced annually by 2028. This year, the average number of affordable housing units produced per District was 169.

GOAL 2: BUILD AFFORDABLE HOMES

20,000 Housing Units Affordable to 30% MFI and Below

92 units affordable to households earning at or below 30% MFI have been produced this year, which represents only 0.46% of the Blueprint’s ten-year goal to build 20,000 units for such households by 2028. In order to reach Blueprint goals over the next ten years, a total of 1,991 units would need to be produced annually by 2028.

25,000 Housing Units Affordable to 31-60% MFI and Below

1,282 housing units affordable to households earning between 31-60% MFI have been produced this year, which represents 5.13% of the Blueprint’s ten-year goal to build 25,000 units for households earning between 31-60% MFI by 2028. In order to reach Blueprint goals over the next ten years, a total of 2,372 units would need to be produced annually by 2028.

15,000 Housing Units affordable to 61-80% MFI and below

314 units affordable to households earning between 61-80% MFI have been produced this year, which represents 2.09% of the Blueprint’s ten-year goal to build 15,000 units affordable to households earning between 61-80% MFI. In order to reach Blueprint goals over the next ten years, a total of 1,469 units would need to be produced annually by 2028.

GOAL 3: BUILD MODERATE-INCOME HOMES AND OTHER HOUSING

25,000 Units at 81-120% MFI

2,101 units affordable to households earning between 81-120% MFI have been produced this year, which represents 8.40% of the Blueprint’s ten-year goal to build 25,000 units affordable to households earning between 81-120% MFI by 2028. In order to reach Blueprint goals over the next ten years, a total of 2,290 units would need to be produced annually by 2028.

50,000 Units at 121% MFI and Above

3,949 units affordable to households earning 121% MFI and above have been produced this year, which represents 7.90% of the Blueprint’s ten-year goal to build 50,000 units affordable to households earning 121% MFI and above by 2028. In order to reach Blueprint goals over the next ten years, a total of 4,605 units would need to be produced annually by 2028.

GOAL 4: HOUSING UNITS WITHIN EACH DISTRICT (DATA UNAVAILABLE FOR THIS YEAR)

Note: Data on the affordability of all housing units in Austin is not available annually. The City of Austin will have information responsive to this goal in 2023 when it conducts its next Comprehensive Housing Market Analysis, which is completed every five years and includes a comprehensive analysis of all housing units in the City of Austin, both new and existing.

GOAL 5: IMAGINE AUSTIN CENTERS & CORRIDORS & HIGH OPPORTUNITY AREAS

75% of New Housing Units within 1/2 mile of Imagine Austin Centers and Corridors

Approximately 91% of new housing units were located within 1/2 mile of the Centers and Corridors identified in the Imagine Austin Comprehensive Plan to encourage future growth of complete communities.

25% of New Income-Restricted Affordable Housing in High Opportunity Areas

Approximately 20% of new income-restricted affordable housing units were located within areas that provide residents with greater economic security, housing stability, mobility options, educational opportunities, and improved health and well-being, or High Opportunity Areas as defined by the Enterprise Opportunity360 Index. In order to reach the Blueprint goal of 25% of income-restricted housing units located within High Opportunities Areas, development of affordable housing should focus on building in these areas.

GOAL 6: PRESERVATION

Preserve 10,000 Affordable Housing Units over 10 Years

371 income-restricted housing units were preserved in 2018, approximately 3.71% of the Blueprint goal to preserve 10,000 affordable housing units by 2028. In order to reach the Blueprint goals over the next ten years, a total of 963 affordable housing units would need to be preserved annually.

GOAL 7: PREVENT HOMELESSNESS

Produce 100 Permanent Supportive Housing(PSH)/Continuum of Care (CoC) Units Annually

Zero Permanent Supportive Housing/Continuum of Care units were produced this year through the City of Austin’s Rental Housing Development Assistance program. No new PSH units were produced in 2018 due to Affordable Housing Bonds being fully committed and expended, in addition to the Rental Housing Development Assistance program being in transition. In order to reach the Blueprint goals over the next ten years, a total of 100 PSH units would need to be produced annually.

In keeping with our motto, “All Kinds of Homes, In All Parts of Town, For All Kinds of People,” HousingWorksAustin has partnered with numerous stakeholders in the community to address the affordability concerns that many Austinites face daily. The Blueprint Scorecard identifies benchmarks in ensuring all Austin residents have affordable housing opportunities and showcases the progress already being made to achieve this. Considering the increase in housing prices across the city and other affordability challenges analyzed in our annual District Analysis, innovative investment, community partnerships and programs, and policy initiatives are required to tackle affordability concerns for low- to moderate-income households and close all gaps for a more equitable and inclusive Austin.

AUSTIN STRATEGIC HOUSING BLUEPRINT SCORECARD 2018

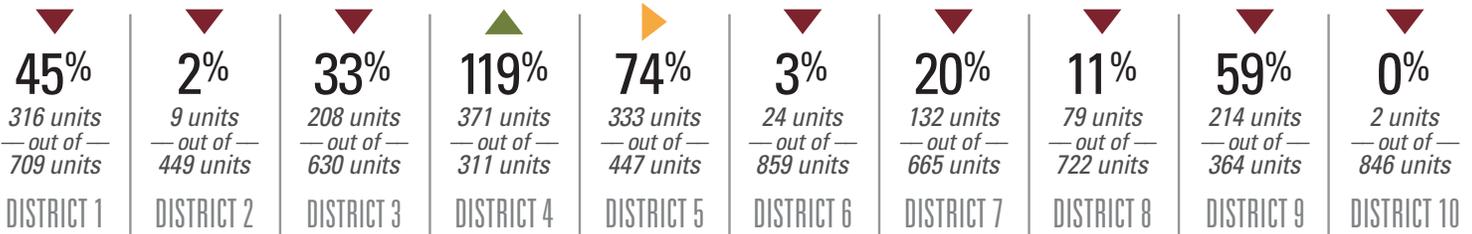

A Holistic Approach to Affordable Housing

In 2017, Austin City Council adopted the Austin Strategic Housing Blueprint detailing goals to reach 135,000 housing units over the next ten years (2018-2028). The Blueprint includes goals for affordable housing in every City Council District to ensure that there is affordable housing throughout the city. It also includes goals for the construction of 60,000 housing units affordable to households at 80% median family income (MFI) and below, and another 75,000 units for households earning greater than 80% MFI broken into specific goals for households at different income levels.

KEY: ▲ MAKING PROGRESS ▶ SLOW PROGRESS ▼ LOSING GROUND
See scoring section in Methodology for further information

GOAL 1: DISTRIBUTION - NEW AFFORDABLE HOUSING UNITS 1-YR GOAL

DISTRICT BY DISTRICT ANNUAL GOALS

KEY:

- 10-YEAR GOAL 2 (2018-2028)
- CUMULATIVE GOAL 2 UNITS BUILT (achieved in 2018)
- 10-YEAR GOAL 3 (2018-2028)
- CUMULATIVE GOAL 3 UNITS BUILT (achieved in 2018)

GOAL 2: AFFORDABLE UNITS 2018 1-YR GOAL

GOAL 3: MIDDLE - & HIGH-INCOME UNITS 2018 1-YR GOAL

AUSTIN STRATEGIC HOUSING BLUEPRINT SCORECARD 2018

GOAL 4: HOUSING UNITS WITHIN EACH DISTRICT (DATA UNAVAILABLE FOR THIS YEAR)

Data on the affordability of all housing units in Austin is not available annually. The City of Austin will have information responsive to this goal in 2023 when it conducts its next Comprehensive Housing Market Analysis, which is completed every five years and includes a comprehensive analysis of all housing units in the City of Austin, both new and existing.

GOAL 5: IMAGINE AUSTIN CENTERS & CORRIDORS & HIGH OPPORTUNITY AREAS*

KEY: ● INCOME-RESTRICTED UNITS (≤ 80% MFI) ● UNITS AFFORDABLE TO ≥ 80% MFI ■ IMAGINE AUSTIN CENTERS & CORRIDORS ■ HIGH OPPORTUNITY AREAS

Units within 1/2 miles of Imagine Austin Centers & Corridors or in High Opportunity Areas

Imagine Austin Centers & Corridors: Areas identified in the Imagine Austin Growth Concept Map where future growth can be directed to promote a city of complete communities for all, where your daily needs are met within a short trip.

High Opportunity Areas: Areas that provide residents with greater economic security, housing stability, mobility options, educational opportunities, and improved health and well-being.

GOAL 6: PRESERVATION

PRESERVE 10,000 AFFORDABLE HOUSING UNITS OVER 10 YEARS

Preservation: Maintain existing homes affordable to community members through acquisition and rehabilitation, creating supportive financial environments, and advancing new ownership models.

GOAL 7: PREVENT HOMELESSNESS

PRODUCE 1,000 PERMANENT SUPPORTIVE HOUSING (PSH)/ CONTINUUM OF CARE (COC) UNITS OVER 10 YEARS

Permanent Supportive Housing and Continuum of Care: New units that provide housing and supportive services to extremely low-income households who are experiencing chronic homelessness and face multiple barriers to housing stability.

No PSH units produced in 2018 because Affordable Housing Bonds were fully committed/expended and the RHDA program was in transition.

Blueprint Scorecard

The citywide Housing Scorecard analyzes and tracks progress toward achieving the seven goals that are key to implementing the Blueprint. This scorecard can help Austin track its efforts to sustainably achieve affordability goals, expand housing opportunities throughout town, and to ensure Austin remains a welcoming city for all. Austin has made considerable progress towards achieving its strategic housing goals, but significant work remains. Achieving these goals will require leveraging existing funding sources, increasing future funding opportunities, ensuring that existing regulations and programs align with affordability goals, and expanding collaborations with non-profit and private sector partners. Continued progress also depends on a strong community commitment to address the needs of the most vulnerable and create a more equitable and inclusive Austin.
