Shipe Pool Vision Workshop Questionnaire

Q21 Please share additional thoughts or comments.

Answered: 7 Skipped: 32

#	Responses	Date
1	We need to retain the square footage and volume of water we currently enjoy in the new facility. Reducing the swim space is not a desirable outcome.	5/23/2016 3:22 PM
2	The deep deep end is by far the most important thing to myself and my family. Your continuing attempts to ignore this strong community preference borders on planning malpractice.	5/23/2016 12:09 PM
3	Thank you	5/21/2016 11:05 PM
4	The most important thing for me is that the pool maintains its current size and depth. We do not need fancy design elements-- we need a large pool.	5/20/2016 9:20 PM
5	The recreation/lap pool seems too small given the number of people who use it. On the other hand, the baby/activity pool could probably be a little smaller.	5/20/2016 3:45 PM
6	Flip-Turn with access from the park seems like the only good option. Access from the street is a bad idea given that families often move between the pool and park (which the current design with the activity pool in the center of the park encouraged). In all designs there seems to be very little shade especially for the activity pool which will be frequented by babies a lot.	5/20/2016 2:07 PM
7	Ultimately The BackStroke is my favorite, followed by the Flip-Turn. I am strongly in favor of separation of the two pools provided by shade structures, which both of the two that I mentioned have. The Butterfly Stroke doesn't really move me from a design perspective, not just because of aesthetics, but also the lack of shade from western sun and also I am not in favor of an Avenue G entrance. It's a busy pass through street from 45th to 43rd. 44th street is more favorable from a parking and safety standpoint. I also prefer the longer entrance way depicted in The BackStroke. It allows for more separation of the pools, the bathrooms and the street, while also providing easier dual access from 44th Street and Avenue F.	5/19/2016 6:03 PM
