SHAPING THE AUSTIN WE IMAGINE

## From Here to There: Setting a Path for Austin's Code

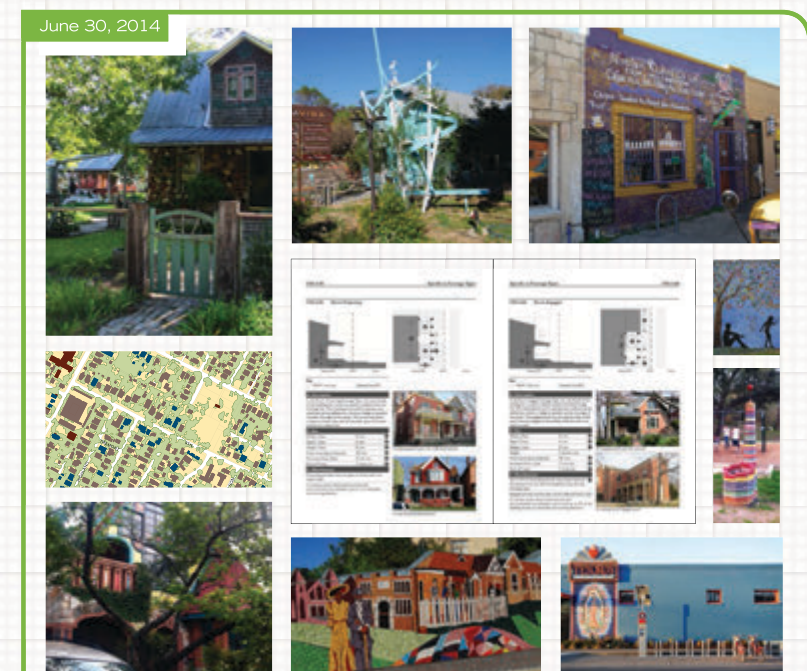

Code Approach Alternatives &  
Annotated Outlines Document  
Public Review Draft

Presented by:

**Daniel Parolek**, Principal  
Opticos Design, Inc.

Presented to:

Code Advisory Group  
September 22, 2014

**Code Approach Alternatives &  
Annotated Outlines**

Austin Land Development Code Update

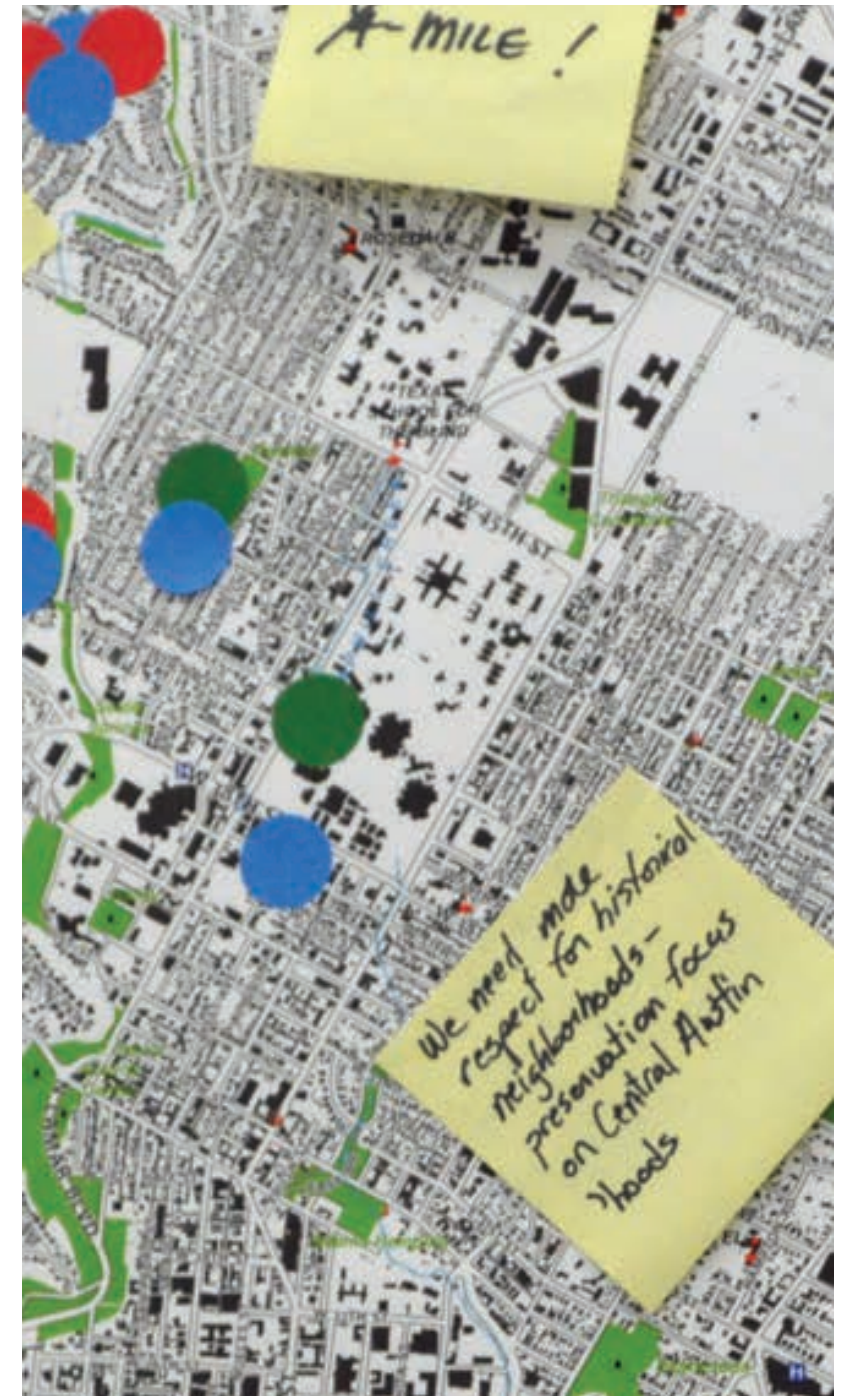

CODENEXT  
SHAPING THE AUSTIN WE IMAGINE

# From Here to There: Setting a Path for Austin's Code

## Presentation Overview:

1. Background
2. Overview of Approach Alternatives and **Recommended Approach**
3. Overview of **Elements**
  - These are the “ingredients” for the approaches
4. Comparison of Approach **Alternatives** and **Basis of Recommendation**
  - Overview of 3 Alternative Approaches
  - Comparing Approaches
  - Our recommended Approach
5. **Concluding Thoughts** & Next Steps

# What choosing an approach does and does not do:

## Selecting an approach...

### Does

- ✓ **Set a framework**  
Creates parameters to guide the revision of the LDC.
- ✓ **Allow for future flexibility**  
Future City Council will have opportunity to reaffirm selected Approach.
- ✓ **Establish a road map for updating the code**  
Chooses a direction for the CodeNEXT team to explore with Austinites.

### Does Not

- ✗ **Change existing regulations or policies such as neighborhood plans**  
Does not say which regulations will be kept, replaced, or removed.
- ✗ **Revise zoning districts, neighborhood plans or create new districts**  
No recommendation of districts.
- ✗ **Decide where new or revised zoning districts will apply within the City**  
Code Approach does not provide direction for mapping.

# Overview of the Alternatives

A Path Forward

# The Three Approach Alternatives Explored

# The Three Approach Alternatives Explored

# The Three Approach Alternatives Explored

## I. Brisk Sweep

# The Three Approach Alternatives Explored

1. Brisk Sweep

2. Deep Clean and Reset

# The Three Approach Alternatives Explored

1. Brisk Sweep
2. Deep Clean and Reset
3. Complete Makeover

# Approach Alternative I

## The Brisk Sweep:

- **No major structural/organizational changes to the Code.**
- **Clean-up** of the existing LDC.
- **Targeted refinements.**
- **Addition of a Form-Based Code** that will have **limited application.**
  - Primarily to future small area plans.

# Approach Alternative 2 [Recommended Approach]

## The Deep Clean and Reset:

- **Significantly reworks content and structure.**
- **Substantially improves** the appearance, usability, and consistency of the existing LDC .
- Citywide framework for form-based standards will be created and applied to a **limited number of interested communities**. But Allow for easy future applications.
- Hybrid nature allows for **balanced mix** of by-right review, customized zoning, and discretionary review where appropriate.
- Combining districts compressed where feasible.

## Approach Alternative 3

# The Complete Makeover:

- **Most extensive modifications** to the existing LDC.
- **Significantly reworks content and structure.**
- Development standards include **significant form-based standards. Applied widely** across the city.
- Development **review process relies primarily on by-right review.**
- Combining districts are compressed where feasible

3

# Overview of Elements

---

Elements that Form an Approach

# Elements that Form an Approach

# Elements that Form an Approach

## I. Code Format & Organization

# Elements that Form an Approach

1. Code Format & Organization

# Code Format and Organization

---

How Standards are Presented

# Code Format and Organization:

## Code Format

- Format refers to the way information is laid out on a page;

size and style of text, indenting, clear graphics, tables, and paragraph structure help to make information easy to find and understand.

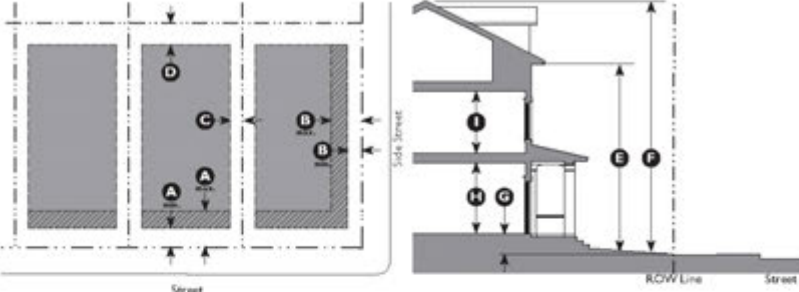

- A Clear break between major portions of code.
- B Table of Contents in each new section.
- C Clear indenting, section breaks, and labeling.
- D Strong headers and footers explain where you are in the document.
- E Clear graphics and illustrations visually explain regulations.

# Example of “Best Practices” for Usability and Clarity in Codes

## 10-40.40.050 T3 Neighborhood I (T3N.I) Standards

### Transect Zones

**Key**

- ROW/Property Line
- Building Setback Line
- Building Area
- Façade Zone

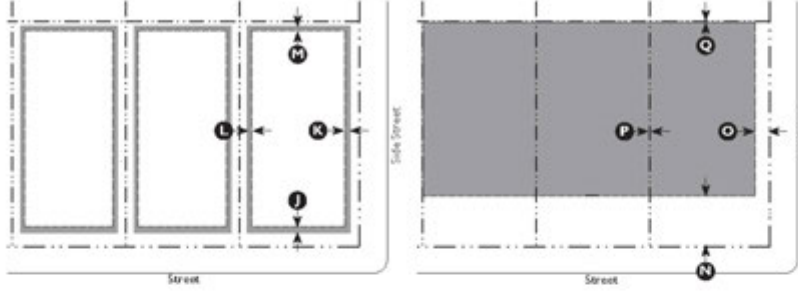

C. Building Placement	
Setback (Distance from ROW/Property Line)	
<b>Principal Building</b>	
Front <sup>1</sup>	20' min.; 30' max. <b>A</b>
Front Façade within Façade Zone	50% min.
Side Street/Civic Space	12' min.; 25' max. <b>B</b>
Side	5' min.; 12' min. combined <b>C</b>
Rear	25' min. <b>D</b>
<b>Accessory Building or Structure</b>	
Front	20' min.
Side	3' min.; 6' max.
Rear	3' min.

<sup>1</sup>The setback may match an existing adjacent building as follows: the building may be placed to align with the façade of the front most immediately adjacent property, for a width no greater than that of the adjacent property's façade that encroaches into the minimum setback.

D. Building Form <sup>2</sup>	
Height	
<b>Principal Building</b>	
Stories	2-1/2 stories max.
To Eave/Parapet	24' max. <b>E</b>
Overall	35' max. <b>F</b>
<b>Accessory Building, Accessory Structure or Carriage House</b>	
Stories	1-1/2 stories max.
To Eave/Parapet	12' max.
Overall	24' max.
Ground Floor Finish Level:	18" min. above sidewalk <b>G</b>
Ground Floor Ceiling	8' min. clear <b>H</b>
Upper Floor(s) Ceiling	8' min. clear <b>I</b>
<b>Footprint</b>	
Lot Coverage	40% max.
<b>Miscellaneous</b>	
Mansard roof forms are not allowed.	

## 10-40.40.050 T3 Neighborhood I (T3N.I) Standards

### Transect Zones

**Key**

- ROW/Property Line
- Building Setback Line
- Encroachment Area
- Parking Area

E. Encroachments and Frontage	
Encroachments <sup>4</sup>	
Front	5' max. <b>J</b>
Side Street/Civic Space	5' max. <b>K</b>
Side	3' max. <b>L</b>
Rear	<b>M</b>
Property Line	5' max.
Rear Lane or Alley	15' max.
Encroachments are not allowed within a street ROW.	
<sup>4</sup> See Division 10-50.40 (Encroachments) for allowed encroachments.	
Allowed Private Frontage Types <sup>5</sup>	
Common Yard	
Porch	
<sup>5</sup> See Division 10-50.120 (Specific to Private Frontages) for private frontage type descriptions and regulations.	

F. Required Parking Spaces <sup>6</sup>	
<b>Residential Uses</b>	
Studio/1 Bedroom	0.5 space/unit min.
2+ Bedrooms	2 spaces/unit min.
<b>Service Uses</b>	
	2 spaces/1,000 sf min.
<sup>6</sup> Land use types not listed above shall meet the requirements in Table 10-50.80.040.A (Number of Motor Vehicle Parking Spaces Required).	
Location (Setback from ROW/Property Line)	
Front	<b>N</b>
Covered/Attached	50' min.
Uncovered	Match front façade min.
Side Street/Civic Space	12' min. <b>O</b>
Side	0' min. <b>P</b>
Rear	0' min. <b>Q</b>
Miscellaneous	
Linear Feet of Front or Side	
Façade that may be Garage	35% max.
See Division 10-50.80 (Parking Standards) for additional parking regulations.	

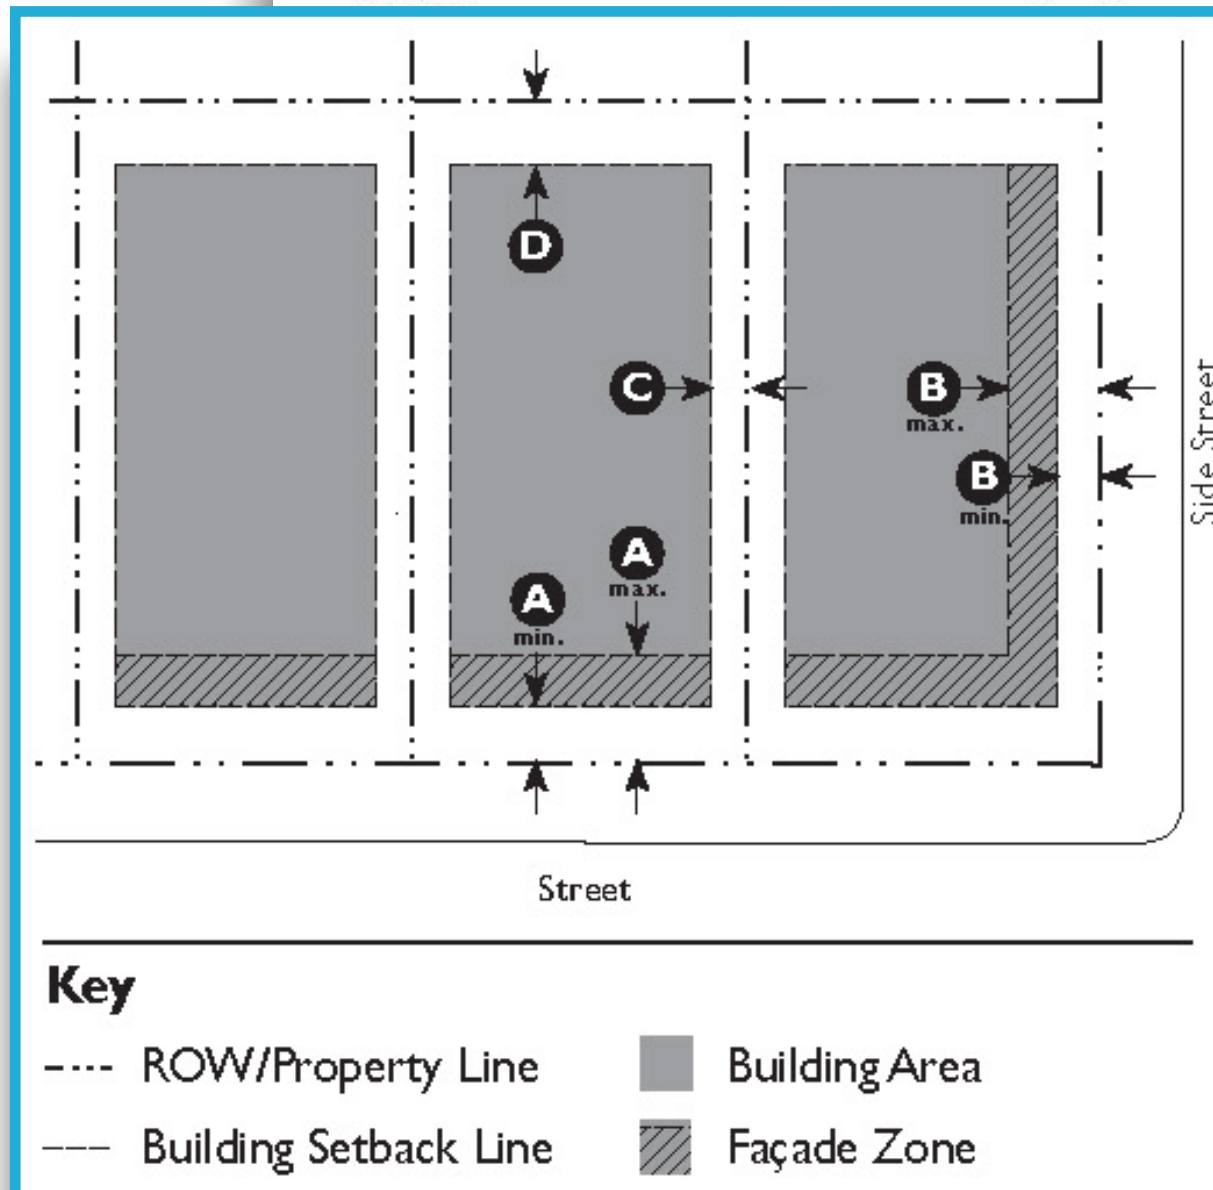

40.40-14

Flagstaff Zoning Code

Flagstaff Zoning Code

40.40-15

# Example of “Best Practices” for Usability and Clarity in Codes

## C. Building Placement

### Setback (Distance from ROW/Property Line)

#### Principal Building

Front <sup>1</sup>	20' min.; 30' max. <b>A</b>
Front Façade within Façade Zone	50% min.
Side Street/Civic Space	12' min.; 25' max. <b>B</b>
Side	5' min.; 12' min.
	combined <b>C</b>
Rear	25' min. <b>D</b>

#### Accessory Building or Structure

Front	20' min.
Side	3' min.; 6' max.
Rear	3' min.

<sup>1</sup>The setback may match an existing adjacent building as follows: the building may be placed to align with the façade of the front most immediately adjacent property, for a width no greater than that of the adjacent property's façade that encroaches into the minimum setback.

Tables and diagrams make information easy to find and simple to understand.

# Code Format and Organization: Code Organization

Organization refers to the way information is arranged within the overall code document (the table of contents).

**3.03.050 Residential Low Density (R-L) Zone**

**A. Purpose**  
The Residential Low Density (R-L) zone is established to provide for the development of single-family detached dwellings on lots of one-half acre or more, with no more than one detached dwelling unit per lot. The zone is intended to be used for residential purposes only.

**B. Building Requirements**  
1. **Setbacks**  
Front: 10 feet  
Side: 5 feet  
Rear: 10 feet  
2. **Height**  
Maximum height: 12 feet  
3. **Lot Coverage**  
Maximum lot coverage: 40%  
4. **Driveway**  
Maximum width: 10 feet

**C. Building Form Requirements**  
1. **Roof**  
Pitch: 12:12 or greater  
2. **Windows**  
Minimum height: 6 feet  
3. **Doors**  
Minimum height: 6 feet  
4. **Stairways**  
Minimum width: 3 feet

**D. Land Use Requirements**  
1. **Signage**  
Maximum height: 6 feet  
2. **Lighting**  
Maximum height: 6 feet  
3. **Landscaping**  
Minimum height: 6 feet

**E. Other Requirements**  
1. **Utilities**  
Minimum height: 6 feet  
2. **Drainage**  
Minimum height: 6 feet  
3. **Fire Protection**  
Minimum height: 6 feet

Potential Code: one location for all of the same regulations.

**3.03.050 Residential Low Density (R-L) Zone**

**A. Purpose**  
The Residential Low Density (R-L) zone is established to provide for the development of single-family detached dwellings on lots of one-half acre or more, with no more than one detached dwelling unit per lot. The zone is intended to be used for residential purposes only.

**B. Building Requirements**  
1. **Setbacks**  
Front: 10 feet  
Side: 5 feet  
Rear: 10 feet  
2. **Height**  
Maximum height: 12 feet  
3. **Lot Coverage**  
Maximum lot coverage: 40%  
4. **Driveway**  
Maximum width: 10 feet

**C. Building Form Requirements**  
1. **Roof**  
Pitch: 12:12 or greater  
2. **Windows**  
Minimum height: 6 feet  
3. **Doors**  
Minimum height: 6 feet  
4. **Stairways**  
Minimum width: 3 feet

**D. Land Use Requirements**  
1. **Signage**  
Maximum height: 6 feet  
2. **Lighting**  
Maximum height: 6 feet  
3. **Landscaping**  
Minimum height: 6 feet

**E. Other Requirements**  
1. **Utilities**  
Minimum height: 6 feet  
2. **Drainage**  
Minimum height: 6 feet  
3. **Fire Protection**  
Minimum height: 6 feet

Existing Code: Many different locations to look for basic regulations.

# Code Format and Organization Options:

## I. Revised Format & Organization

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Implementation	Administration
1   REVISED CODE FORMAT AND ORGANIZATION							
Key:  High Level  Medium Level  Low Level							

- Use the **existing code framework**/organization.
- Clean up and **targeted recalibration** of standards.
- This might mean creating **new districts** and compressing some existing districts, but **few changes** to the overall code structure.

# Code Format and Organization Options:

## 2. Replacement Format & Organization

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
2   REPLACEMENT CODE FORMAT AND ORGANIZATION	●	●	●	●	●	○	●
Key: ● High Level    ○ Medium Level    ○ Low Level							

- Replace the entire code with a **new, alternative framework**.
- **Recalibrate the standards** in detail.

# Code Format and Organization Options:

# Comparing Options

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
1   REVISED CODE FORMAT AND ORGANIZATION	○	○	●	○	○	●	○
2   REPLACEMENT CODE FORMAT AND ORGANIZATION	●	●	●	●	●	○	●
Key: ● High Level   ○ Medium Level   ○ Low Level							

- **Replacing** the code format and organization will produce a document that is:
  - **Substantially more simple to use** than revising code format and organization.
  - More **clear and predictable**.

# Development Review Models

---

How the Code is Used

## Approach Elements:

# Development Review Models

- Process by which development applications are submitted, evaluated, and ultimately approved or denied. Or more simply, **“how do you use the code.”**
- The **length of the review process**, the number of review loops, and the **subjective or objective** nature of the process should be kept in mind.
- In any of the development review models, careful consideration should be given to the development standards to ensure predictability in the built results.

**Approach Elements:**

# **Development Review Models**

**Approach Elements:**

# **Development Review Models**

I. By-right (Standards-based)

**Approach Elements:**

# **Development Review Models**

1. By-right (Standards-based)
2. Discretionary Review

**Approach Elements:**

# **Development Review Models**

1. By-right (Standards-based)
2. Discretionary Review
3. Customized

## Development Review Models:

# I. By-Right (Standards-Based)

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
1   BY-RIGHT (STANDARDS-BASED)	●	●	●	●	●	●
Key: ● High Level   ● Medium Level   ○ Low Level						

- In a by-right system, development **applications that comply** with zoning can **move** to the building department/permit **quickly**.
- This system is **most effective** when **clear development standards** provide **predictable built results**.
  - This can be applied to any Euclidean, performance or form-based standards.
- Example Administrative Site Plan Review.

# Development Review Models:

## 2. Discretionary Review

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
2   DISCRETIONARY REVIEW	●	●	○	○	○	○
Key: ● High Level   ● Medium Level   ○ Low Level						

- **Standards are less specific** and allow for more interpretation.
- Requires a **more extensive**, and **sometimes subjective review** process to ensure the intent is met.
- Projects often undergo **multiple review loops** to obtain approval.
- Permits are **issued at the “discretion”** of the review authority.
- Example Sub-chapter E: Alternative Equivalent Compliance.

# Development Review Models:

## 3. Customized Zoning

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
3   CUSTOMIZED ZONING	○	○	○	○	○	○
Key: ● High Level   ● Medium Level   ○ Low Level						

- In a customized zoning system, **new and independent regulations** are necessary to successfully regulate major projects.
- These new regulations are **not coordinated** with the overall LDC.
- **Hard to administer** in the long term.
- Examples are planned unit developments (**PUD**) and small area plans (**regulating plans**).

# Development Review Models:

# Comparing Development Review Models

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation & Administration
1   BY-RIGHT (STANDARDS-BASED)	●	●	●	●	●	●
2   DISCRETIONARY REVIEW	●	○	○	○	○	○
3   CUSTOMIZED ZONING	○	○	○	○	○	○

Key: ● High Level ○ Medium Level ○ Low Level

- **By-Right** achieves the **best scores** using these criteria.
- Discretionary Review can be **very effective in targeted applications**, especially when a clear process and criteria are defined.
- Customized Zoning achieves the weakest scores when assessed using these criteria.

# Development Standards Models

---

Determine What and How a Code  
Regulates

## Approach Elements:

# Development Standards Models

- Development standards determine **what and how a code regulates**.
- Also affect the **efficiency** of different development review.

**Approach Elements:**

# **Development Standards Models**

**Approach Elements:**

# **Development Standards Models**

**Approach Elements:**

# **Development Standards Models**

I. Euclidean Zoning Standards;

**Approach Elements:**

# **Development Standards Models**

1. Euclidean Zoning Standards;
2. Performance Zoning Standards;

**Approach Elements:**

# **Development Standards Models**

1. Euclidean Zoning Standards;
2. Performance Zoning Standards;
3. Form-Based Zoning Standards; and,

**Approach Elements:**

# **Development Standards Models**

1. Euclidean Zoning Standards;
2. Performance Zoning Standards;
3. Form-Based Zoning Standards; and,
4. Hybrid code.

# Development Standard Models:

## I. Euclidean Zoning Standards

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
1   Euclidean Zoning Standards	●	●	●	○	●	●	○
Key: ● High Level    ○ Medium Level    ○ Low Level							

- Zones and code structure **based primarily on desired uses**  
Focus on use separation.
- Also sometimes called **use-based zoning** standards.

# Development Standard Models:

## 2. Performance Zoning Standards

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
2   Performance Zoning Standards	●	○	●	●	○	○	○
Key: ● High Level    ○ Medium Level    ○ Low Level							

- Regulates the **effects or impacts** of a proposed development or activity on the community. **Goal Oriented**
- Less specific standards, providing more flexibility, but often complex formulas that are hard to understand.
- Often used to protect natural resources.
- Performance standards can be negative or positive.
  - Ex. They can set a **maximum level for the noise** impacts or they can require **specified types of buffers** to be established between certain types of land uses.

# Development Standard Models:

## 3. Form-Based Zoning Standards

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
3   Form Based Zoning Standards	●	●	●	●	●	○	○
Key: ● High Level    ○ Medium Level    ○ Low Level							

- Zones and code structure **based primarily on desired form** rather than desired use.
- Focus on building form and **public space**.
- Typical Standards:
  - Build-to-Lines;
  - Broad Approach to Uses (still has allowed use tables);
  - Frontages and Building Types; and,
  - Thoroughfare Standards.

# Development Standard Models:

## 4. Mix of Zoning Standards (Hybrid Code)

Models	Effectiveness	Clarity	Consistency	Predictability	Simplicity	Ease of Implementation	Ease of Administration
4   Mix of Zoning Standards (Hybrid Code)	●	●	●	●	●	●	●

Combination and **careful coordination** of the best of conventional, performance and form-based elements.

# Development Standard Models: Comparing Models

Models	Effectiveness	Clarity	Predictability	Simplicity	Ease of Implementation	Ease of Administration
1   EUCLIDEAN-BASED ZONING STANDARDS	●	○	○	●	●	○
2   PERFORMANCE-BASED ZONING STANDARDS	●	○	●	○	○	○
3   FORM-BASED ZONING STANDARDS	●	●	●	●	○	○
4   MIX OF ZONING STANDARDS (HYBRID CODE)	●	●	●	●	●	○

Key: ● High Level ○ Medium Level ○ Low Level

- The mix of zoning standards – a Hybrid Code – **scores the highest** with this criteria.
- Form-Based Standards and Euclidean-Based Standards can be effectively applied to the right context.
- Performance standards can be **less simple and clear**, but can be effectively applied to implement certain goals.

## CodeNEXT Team Recommendation

# Deep Clean and Reset: Why this Approach?

- Code Format & Organization: This approach introduces a new format and re-organization of the document to **maximize usability and clarity**.
- Development Review Models: This approach introduces a **good balance** of by-right development in selected areas and discretionary review where appropriate.

## CodeNEXT Team Recommendation

# Deep Clean and Reset: Why this Approach?

- Development Standards Models: This approach creates a hybrid code that applies Euclidean standards and form-based standards to appropriate contexts, **maximizing the benefits and strengths** of each without pushing the application of a form-based approach too aggressively.
- This approach effectively implements Imagine Austin priority programs, community input (Listening to the Community Report) and Code Diagnosis.
- Important Note: This Option does not represent a compromise!

# Concluding Thoughts

---

The Road Ahead

**When does the team get more specific about code changes? How will detailed comments from the community and city staff be used?**

- Fleshing out Table of Contents, with the core management team on staff to a higher level of detail.
- Continue to engage community, stakeholders, staff, boards and commissions and Council.

# Approach Alternatives and Annotated Outline

## Recent/Current Schedule

### September 4:

- Approach Alternatives Document Released
- Council Comprehensive Plan & Transportation (CPT) Committee
- Community Presentation: Approach Alternatives Document

**September 8-22:** Board and Commission presentations

**September 9:** Planning Commission

**September 16:** Codes & Ordinances Committee of Planning Commission, and Zoning and Platting Commission

**September 22:** Code Advisory Group meeting

# Approach Alternatives and Annotated Outline

## Upcoming Schedule
