

PREVENT THE SPREAD OF COVID-19

There are simple steps you can take to help flatten the curve, including:

Cover your coughs and sneezes with a bent elbow or tissue

Take your temperature, stay home if your fever is 99.6°F or higher

Wash your hands often with soap and water for 20 seconds

Wear a face covering when around others or at a business

Maintain a clean work environment, sanitize your work station frequently

Do not touch your face

Practice social distancing, keep 6 feet or more between yourself and others

Do not shake hands, use other greetings

Wear proper equipment, like gloves, to protect yourself and others
