

## Public Works Department, Transportation Department

505 Barton Springs Road

P.O. Box 1088

Austin, TX 78767

July 9, 2013

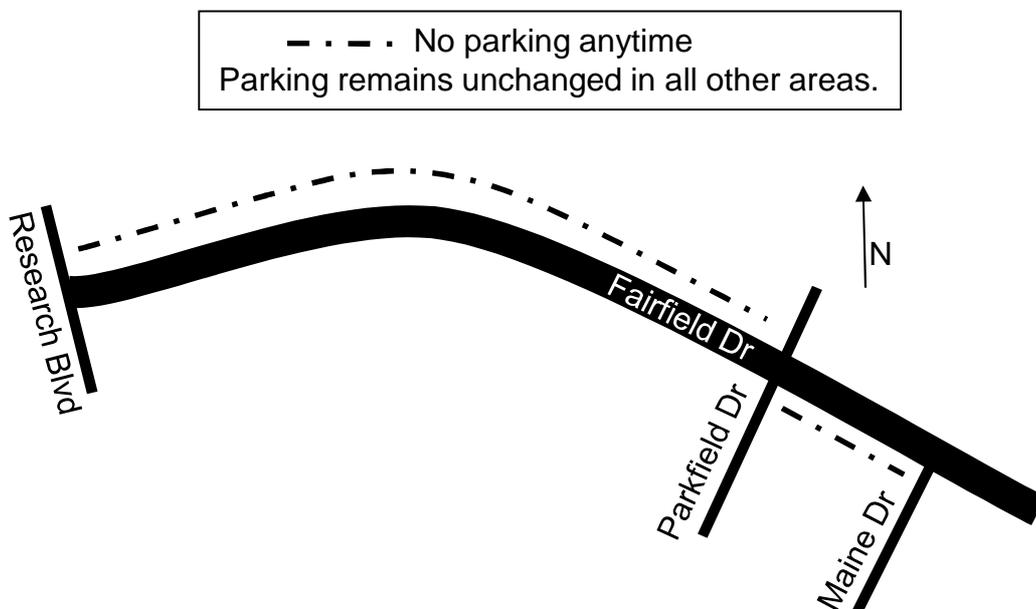

To Stakeholder, Property Owner, or Resident:

In order to improve safety for all modes of transportation, the City's Public Works Department is implementing and improving a bicycle route system, as directed by the Austin City Council per **City Ordinance No. 20090611-075 (The Austin Bicycle Plan)**. Fairfield Drive from Research Boulevard to Maine Drive is part of Route 41 of the City of Austin bicycle system. You are receiving this notification because you live on and/or own property adjacent to Fairfield Drive in Austin, Texas, and/or are a stakeholder in the area.

In coordination with routine street maintenance (road re-surfacing and re-striping), and to enhance mobility in the corridor for both motor vehicles and bicycles, the street striping will be reconfigured to include bicycle lanes. To accomplish this reconfiguration, on-street motor vehicle parking will be prohibited on certain sections of Fairfield Drive. The corridor's safety and mobility, as well as the results of an on-street parking use analysis, were considered to determine these parking modifications:

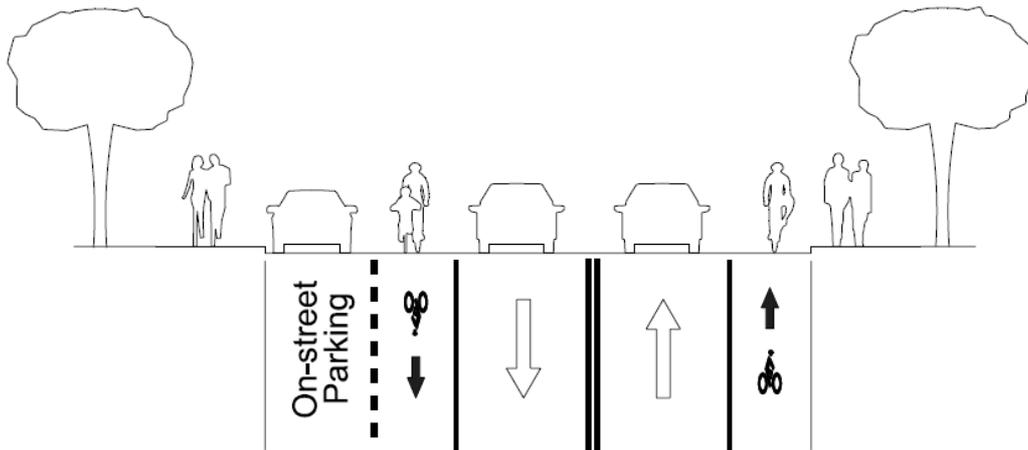

- **Fairfield Drive** (from Research Boulevard to Parkfield Drive) – prohibit parking on the north side of the street.
- **Fairfield Drive** (from Parkfield Drive to Maine Drive) – prohibit parking on the south side of the street.

**Figure 1 – Fairfield Drive Planned No Parking Zones**

The dashed line in Figure 1 does not indicate the location of bicycle lanes; it only indicates no parking areas. As indicated in Figure 1, parts of Fairfield Drive (from Research Boulevard to Maine Drive) will have permitted parking on only one side of the street. These locations will have bicycle lanes in both directions and will also have a parking lane on one side of the street as shown below in Figure 2.
