

Austin Brownfields Redevelopment Office

Application for Environmental Services

Section 1: Applicant Information:

Applicant Organization:
Address:
City/State/Zip:
Primary Contact:
Primary Contact Phone/Fax/Email:
Relationship to Property:
Is the applicant: <input type="checkbox"/> Nonprofit <input type="checkbox"/> Non-Federal Governmental Entity <input type="checkbox"/> COA <input type="checkbox"/> Other
If other, please elaborate:
Owner of Property (if different from Applicant):
Address:
City/State/Zip:
Owner Contact Phone/Zip/Email:
Is a property transaction (sale or lease) pending? What is the timeline?

Section 2: Eligibility Determination—General Questions:

Is the site federally owned?

Yes No

Has the site or facility received funding for remediation from the Leaking Underground Storage Tank (LUST) Trust Fund?

Yes No Unknown

Is the applicant in any way responsible for the potential contamination at the site, or related to those who may be responsible?

Yes No

Are there any federal or state enforcement or superfund actions associated with the site?

Yes No

If yes, please elaborate:

If you answered "yes" to any of the above questions, we recommend that you please phone to discuss the specifics of your eligibility determination.

Has there been any prior contact with any state or federal environmental regulatory programs or agencies relating to environmental issues at the site?

Yes No

If yes, please describe all prior contact with any state or federal environmental regulatory programs or agencies and provide any and all identification numbers related to the property in question (solid waste registration, leaking petroleum storage tank, RCRA, UIC, etc.):

Is this site currently listed on TCEQ's *Contaminated Sites* database?

Yes No Unknown

If yes, please list the project name:

Known or suspected contaminant(s) (check applicable boxes):

Hazardous Substances Petroleum Only

Hazardous Substances and Petroleum

Asbestos Lead Based Paint

Section 3: Site Information:

Property Name:
Address:
Zip:
Acres:
Is the property currently vacant: <input type="checkbox"/> Yes <input type="checkbox"/> No If yes, how long?

Project Need - Describe what you believe are the needed environmental assessment activities, and what result you would like to see from this project. Indicate any constraints as to when this work must be completed (e.g., to meet construction timeline, property transaction pending, etc.).

Reason for Concern - What is the reason for concern? Please discuss community concerns in general, and identify any specific problems if possible.

Current Site Condition and Use - Please provide information regarding types of buildings or structures onsite. Please attach a site map or aerial photograph showing the site's location in the community and identify approximate property boundaries.

Historical Site Use - Describe, to the best of your ability, the previous known uses of the site since development. Summarize any historic or cultural significance of the property. Identify when and how the site became or may have become contaminated, with what substance(s), and where any contamination is likely to be found.

Prior Environmental Assessments - Please describe any prior site assessment or cleanup activities at the site and briefly state what you know about the findings of that work. Provide an electronic copy of the report if possible, or the summary or conclusion sections of the reports if available. If reports are not available, provide the consultant, client, approximate date of the study, and any other pertinent information.

Section 4: Redevelopment Information:

Plans for Revitalization / Redevelopment - Do reuse plans include the incorporation of greenspace or sustainable, green building practices? If so, please describe.

Public Benefit - Briefly discuss how your proposed reuse or redevelopment plans for the property will provide a benefit to the public. (Things to consider: creation of jobs, preservation of historically or culturally significant property, preservation of habitat, reuse or recycling of materials or infrastructure, cost savings to the community, or increased property values.)

Community Support and Resources - Is the community strongly supportive of this project? Have resolutions been approved by city in support of it? Describe other resources and sources of funding that are available to assist with this project.
