TALIA HOMES

REQUIRED ATTACHMENTS

Talia Homes at Lamppost

By

Parmer Housing, LLC

a. Introduction:

Talia Homes at Lamppost is an affordable housing community being developed by a powerhouse team of Austin-based real estate professionals that will provide homeownership units affordable to households earning 80% or less of Median Family Income. This high-impact property will be nestled in a single-family, high-opportunity neighborhood right off of Parmer Lane and within a block of Parmer Lane Elementary School and Westview Middle School. The project will provide affordable homes in a family-centric neighborhood where the median home value is \$360k and the average market rent is \$1,664 per month.

Parmer Housing, LLC, is the owner/developer entity for Talia Homes at Lamppost, which is being led by Eyad Kasemi and Fayez Kazi of Civilitude - an engineering firm that has been a part of numerous AHFC-funded affordable housing communities: The Works II, Cardinal Point, Live Oak Trails, Homestead Oaks, The Jordan at Mueller and AHA! at Briarcliff to name a few. The technical expertise of the Civilitude duo is enhanced by a "give-back" mentality that leads in both their professional and personal lives. Besides being brain trusts on real estate development, Mr. Kasemi and Mr. Kazi have a deep understanding of affordable housing financing and entitlements.

The team supporting Talia Homes at Lamppost includes:

Parmer Housing, LLC – Developer and Owner – made up of Eyad Kasemi and Fayez Kazi of Civilitude, Hind T. Hatoum, Mothafar Mahmoud, Tom Kolko, and Ghassan Mahmoud.

Civilitude, Inc. – Civil Engineer

Jennifer Hicks – True Casa Consulting, LLC – Affordable Housing Financing Consultant

Kenda Dawwami – Keller Williams Realty, Inc. – Realtor for Homeownership Units, Property Manager and Asset Manager

Austin Design Group – Steve Todd, Project Architect

Constructinople – General Contractor

Please see Section 2: Development Team for Experience.

Talia Homes at Lamppost is a high-impact housing community worthy of City of Austin investment for the following reasons:

1) 17 affordable units in the heart of a family-friendly, high-opportunity neighborhood in Urban Austin

- 2) A skilled development team whose experience can expedite the project through development ensuring rapid delivery of units
- 3) The project is backed and supplemented with owner equity from an impressive pool of investors who are putting their money into innovative affordable housing solutions. This leverage by private funders is exactly the innovation that Austin needs to be nimble and get quality affordable housing on the ground quickly.
- 4) Talia Homes at Lamppost (and concurrent Talia Homes at St. Georges Green) are the first of many in-fill affordable housing communities planned by this team. The City of Austin funding is a direct return on investment by not only delivering affordable units in desirable neighborhoods, but also building the capacity of the next generation of affordable housing developers.

b. Certificate of Status:

Please find Certificate of Status attached.

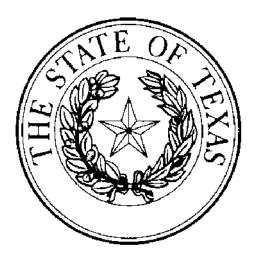

Office of the Secretary of State

Certificate of Fact

The undersigned, as Secretary of State of Texas, does hereby certify that the document, Certificate of Formation for PARMER HOUSING LLC (file number 803363962), a Domestic Limited Liability Company (LLC), was filed in this office on July 10, 2019.

It is further certified that the entity status in Texas is in existence.

In testimony whereof, I have hereunto signed my name officially and caused to be impressed hereon the Seal of State at my office in Austin, Texas on October 31, 2019.

Phone: (512) 463-5555

Prepared by: SOS-WEB

Ruth R. Hughs Secretary of State

ATTACHMENT 1: APPLICANT ENTITY

c. Applicant Capacity:

Parmer Housing, LLC – developer and owner of Talia Homes at Lamppost – is managed by members Eyad Kasemi and Fayez Kazi of Civilitude. As Founder and President of Civilitude, Fayez Kazi has been creating vibrant and complete communities in Austin for over a decade. As Civilitude celebrates its tenyear anniversary, Mr. Kazi and Mr. Kasemi are taking their unparalleled experience in affordable housing development and getting hands-on as owners/developers while adding capacity to the Austin-based community of "Housers."

"CIVILITUDE was born of a desire to serve Austin with elevated standards of excellence in land development. We call Austin our home, work-place, playground, and our community. Because both the public and private sectors contribute to fashioning the fabric of our city, Civilitude aims to represent clients in each of these areas exceptionally. From school districts to affordable housing builders, from municipalities to commercial developers, we at Civilitude support our clients in creating complete communities that are vibrant, flourishing and diverse."

Jennifer Hicks of True Casa Consulting has been retained to lead the finance of Talia Homes at Lamppost. Hicks has over 20 years of affordable housing development and finance experience working for Foundation Communities - the State's premier nonprofit, affordable housing developer. As Director of Housing Finance, Hicks led the development of 14 innovative and high-impact communities that provided 1,559 units of affordable housing. While at Foundation Communities, Hicks also helped create and implement the first supportive housing model in Austin and grew the model to 783 units before her departure. In her current consulting capacity, Hicks has continued working with nonprofit and mission-based for-profits to help structure and access capital for affordable housing projects in Texas. Hicks' passion and expertise is centered around high-impact housing and enjoys the complexity and challenge these projects provide. She marries her development and finance skills with a deep understanding of the target population that helps inform both the physical and programmatic design of the project that best suits the target population. Hicks has strong relationships with quality investors, lenders and local and state housing funders.

Jennifer Hicks and Civilitude worked together on the majority of projects developed during Hicks' tenure at Foundation Communities. Many of these projects were extremely complex and were delivered on time and within budget. This experience is directly translated to the development of Talia Homes and this history builds a solid relationship that will ensure the financial execution and accelerated delivery of affordable housing units.

i.) Project Management:

Civilitude has assisted in the development of over 15 affordable housing communities and 21 market multifamily communities. Please see Section 2 (Development Team) for a map of the impressive number of projects that Civilitude has developed in Austin from education to retail to subdivision. Civilitude will utilize this track record of expertise and the capacity of their skilled staff to oversee this project with primary oversight by Eyad Kasemi and Fayez Kazi.

ii.) Market Analysis:

Talia Homes at Lamppost will feature 17 units and due to its small size will not be pursuing funding from TDHCA – who normally requires a market analysis. Please see Section 4 (Project Proposal) for a Market Assessment.

iii.) Site Selection and Control:

Talia Homes at Lamppost is already owned by Parmer Housing, LLC.

iv) Planning and Construction:

The General Contractor for Talia Homes at Lamppost is Constructinople who has completed or is under construction on several SMART Housing Single Family and ADU infill projects.

Constructinople has worked with the same team assembled for Talia Homes at Lamppost on several project and therefore this project will benefit from that cohesion and efficiency.

v) Design, Architecture and Engineering:

A cohesive and experienced architecture and engineer team is critical to the overall project success. Luckily, Talia Homes at Lamppost is being spearheaded by the most well-qualified and experienced engineering firms in local affordable housing development – Civilitude, Inc.. Austin Design Group – who has worked with Kazi and Kasemi on numerous urban in-fill housing developments - will be the architect for Talia Homes at Lamppost. Together, the team is bringing an urban living model with a high-end feel to the affordable housing

vi) Legal and Accounting:

An attorney will be engaged for this project on as needed basis. All accounting is performed inhouse by Crystal Nuding of Civilitude, Inc. who currently manages the team's other properties.

vii) Federal Funding Rules:

Jennifer Hicks has extensive experience working with programs funded by HUD and their associated federal regulations including: Federal Labor Standards, Davis Bacon Reporting, Section 3, Affirmative Marketing, Environmental Clearances, Public Notices and Procurement Standards. Please see attachment for a list of properties developed/assisted by Jennifer Hicks and the funding sources in place at each property. Also, please see Section 2 (Development Team) for more detailed information on Financing Experience. Civilitude also has expansive knowledge of federal funding rules from their work on dozens of affordable housing communities.

viii) Other funding source rules (e.g. Low Income Housing Tax Credits):

Please see attachment for a list of properties developed/assisted by Jennifer Hicks and the funding sources in place at each property. Also, please see Section 2 (Development Team) for more detailed information on Financing Experience. Civilitude also has expansive knowledge of federal funding rules from their work on dozens of affordable housing communities.

PARMER HOUSING, LLC

Fayez Kazi, CEO, P.E

As Founder and President of Civilitude, Fayez is passionate about creating vibrant, complete communities. His expertise ranges from urban planning and zoning to civil infrastructure design and land development. In his 20 years of experience as a civil engineer, Fayez's work has changed the Austin skyline. More importantly, it has created opportunities for his employees and students alike to make a difference in the Austin community. Fayez's belief in bettering communities doesn't end with his professional work — he spends his time giving back as a teacher, as a mentor, and as a regular volunteer.

Eyad Kasemi, E.I.T.

Mr. Kasemi has over five years of experience providing public and private sector clients with entitlements and the design, management and construction administration of site developments projects. Through dozens of projects, he has developed a deep understanding and expertise in multifamily apartment complexes, subdivision design and processing, grading and drainage design and analysis and permitting, as well as environmental sensitivities. He designed – The Jordan at Mueller - a 132- unit AHFC-funded apartment complex that received a site development permit within a record four months. He is also involved in real estate development and construction with a focus on auxiliary dwelling units and even manages a few properties of his own. As Project Manager for Constructinople, LLC, Mr. Kasemi will develop 4 SMART housing auxiliary dwelling units for local non-profit – Blackland CDC. Mr. Kasemi strongly believes everyone should have a fair chance at affordable housing. Outside of work, Mr. Kasemi has worked with a local non-profit that aids refugees in the area for over 5 years. As an immigrant himself, he is aware of hardships that people encounter and enjoys helping those in need in his spare time.

Hind T. Hatoum, PhD.

After graduate education in Austin Texas, Hatoum established roots in Chicago Illinois where most affordable communities were mono-ethnic. After 30 years in Chicago, she now feels the multi-ethnic neighborhoods are expanding and the ability of the citizens to live side by side with other ethnic groups is possible. Hatoum's educational background includes bachelor's degree in pharmacy, masters in pharmacology and a doctorate degree (PhD) in Health Care Administration. She has taught at the University of Illinois at Chicago, for more than a decade, and spent 22 years as a research consultant to pharmaceutical companies. Hatoum was attracted as principal in Parmer Housing, LLC due to a belief that an integrated society provides a benevolent medium to raise families where good neighbors are not necessarily defined by their income brackets, but rather by their characters and neighborly acts. She believes the City of Austin SMART Housing program and AHFC funding provides a rather non-intrusive way to bring together folks with

different income levels and acts as model to bring the citizens of Austin closer by leveling up the playing fields for the less fortunate members of the community.

Mothafar Mahmoud

Mothafar Mahmoud has been building high end residential houses in the Austin area since 2000. He enjoys the construction business, overseeing all phases of the trade and coordinating all these efforts and coming up with a product that people would live in and call it their home. Mahmoud has a degree in Civil Engineering with emphasis in construction. As a member of Parmer Housing, LLC, Mahmoud is excited to use his construction experience and engineering background to be able to meet the demands of the Austin community through the affordable housing program and provide quality housing to benefit families of low to intermediate income levels.

Tom Kolko, P.E.

Tom Kolko knows the value of community. It was US government programs and the kindness of the community around him that helped him through the remaining semesters of his college career after his father's death while a junior at Texas A&M in the Civil Engineering program. In 2010, at the peak of his professional career, he took a leap of faith to start his own business, but it was the wrong time and the wrong opportunity. After depleting his life's savings before getting back on his feet, it was again community that helped him through tough times. Now it's time for him to give back and help the disadvantaged community improve where they live to provide them with a much-needed head start.

Ghassan Mahmoud

Ghassan Mahmoud has been in involved in the development and construction business since 1993 right after graduate school with a degree in Civil Engineering and Construction Management. He believes the affordable housing program offers great investment opportunities for investors that are well familiar with the construction business while providing an incentive to accommodate less privileged families to find quality homes and shelter at affordable prices.

ATTACHMENT 1: APPLICANT ENTITY

d.Statement of Confidence:

N/A

Eyad Kasemi and Fayez Kazi are locally involved in the development of affordable housing through the Civil Engineering firm, Civilitude, founded by Kazi about ten years ago. While Civilitude has worked on projects outside of Austin, this has only been for engineering services. Talia Homes at Lamppost and Talia Homes at St. Georges Green are the first affordable housing communities owned and developed by the team that are accessing City of Austin funding. All consultants and the professional team engaged are all local to Austin and have experience working on Austin-based, affordable housing projects.

ATTACHMENT 1: APPLICANT ENTITY

e. Financial Capacity:

PARMER HOUSING, LLC – managed by Eyad Kasemi and Fayez Kazi of Civilitude - is not a newcomer to affordable housing development. The development team assembled for Talia Homes at Lamppost have worked in differing capacities on numerous affordable housing developments featuring either City of Austin funding or are SMART Housing certified.

CIVILITUDE has assisted in the development of over 15 affordable housing communities and 21 market multifamily communities. Please see Section 2 (Development Team) for a map of the impressive number of projects that Civilitude has developed in Austin.

EYAD KASEMI AND FAYEZ KAZI – managers of Parmer Housing, LLC – have developed numerous urban in-fill projects that were SMART Housing certified.

JENNIFER HICKS of True Casa Consulting – the financing consultant engaged by Parmer Housing, LLC for the development of Talia Homes at Lamppost - has been engaged and working with City of Austin RHDA funds her entire career. Hicks also possesses extensive experience with the following housing programs:

- Low-Income Housing Tax Credit
- Texas Department of Housing and Community Affairs MFDL Program
- Federal Home Loan Bank AHP Program
- City of Austin, Neighborhood Housing and Community Development programs
- Section 811 PRA Program
- HUD Capital Financing programs, including HOME and CDBG
- HUD Continuum of Care
- Public Housing Authority programs, includes Housing Choice Vouchers

JENNIFER HICKS' portfolio of relevant experience includes:

Roosevelt Gardens - 40 units

Location: Austin, Texas

Project Type: demolition and expansion – 40 new construction MF units

Scope of Services: Led financial structuring of capital stack including: TDHCA MFDL

funding, City of Austin funding and FHLB AHP funding.

Burnet Place Apartments - 61 units

Location: Austin, Texas

Project Type: new construction of 61 units on urban in-fill site

Scope of Services: Led financial structuring of capital stack including: TDHCA MFDL

funding, City of Austin funding and FHLB AHP funding.

Eastern Oaks Apartments - 30 units

Location: Austin, Texas

Project Type: major rehabilitation of existing public housing-owned property
Scope of Services: Led financial structuring of capital stack including: TDHCA MFDL

funding, City of Austin funding and FHLB AHP funding.

Garden Terrace – Phases I, II and III – 123 Units

Location: Austin, Texas

Project Type: acquisition/rehabilitation, supportive housing, adaptive re-use, single

room occupancy, on-site supportive services

Scope of Services: Led pre-development, neighborhood support, financial structuring,

FHLB AHP award, TDHCA HOME/HTF funding, City of Austin funding, construction budget review and value engineering, part of development team, contract review, Section 8 Moderate Rehabilitation Project-Based

contract with Housing Authority of the City of Austin, TDHCA Multifamily Direct Loan program, environmental review, land and financial closings, design input for target population, voucher partnership with local nonprofit service organization, blended

management with property management and supportive service teams,

annual renewal of HAP contract, federal subsidy layering review.

Spring Terrace – 142 Units

Location: Austin, Texas

Project Type: acquisition/rehabilitation, supportive housing, single room occupancy,

adaptive re-use, emergency shelter, Enterprise Green Communities, on-

site supportive services

Scope of Services: Led pre-development, neighborhood support, financial structuring,

FHLB AHP award, TDHCA HOME/HTF funding, City of Austin funding, construction budget review and value engineering, part of development

team, contract review, environmental review, land and financial closings, design input for target population, voucher partnership with

local nonprofit service organization, blended management with

property management and supportive service teams.

Skyline Terrace - 100 Units

Location: Austin, Texas

Project Type: acquisition/rehabilitation, supportive housing, single room occupancy,

adaptive re-use, 9% HTC, Enterprise Green Communities, on-site

supportive services

Scope of Services: pre-development, neighborhood support, financial structuring, 9% Low

Income Housing Tax Credit application and award, FHLB AHP award, City of Austin funding, construction budget review and value engineering, part of development team, contract review, investor and lender RFP and selection, environmental review, land and financial closings, design input for target population, voucher partnership with local nonprofit service organization, blended management with property management

and supportive service teams.

Arbor Terrace - 120 Units

Location: Austin, Texas

Project Type: acquisition/rehabilitation, supportive housing, single room occupancy,

adaptive re-use, Enterprise Green Communities, on-site supportive

services

Scope of Services: pre-development, neighborhood support, financial structuring, FHLB

AHP award, Neighborhood Stabilization Program funding, City of Austin funding, construction budget review and value engineering, part of development team, contract review, environmental review, land and

financial closings, design input for target population, voucher partnership with local nonprofit service organization, blended

management with property management and supportive service teams.

M Station - 150 Units

Location: Austin, Texas

Project Type: new construction, 9% HTC, family, mixed-income, mixed-use, Transit

Oriented Development, LEED, on-site children's learning center and

adult-focused services, integrated units for homeless and at-risk families
Scope of Services: pre-development, neighborhood support, financial structuring FHLB

AHP award, 9% Low Income Housing Tax Credit application and award,

investor and lender RFP and selection, City of Austin funding,

construction budget review and value engineering, part of development

team, contract review, environmental review, land and financial

closings, tenant for commercial space.

Sierra Vista - 238 Units

Location: Austin, Texas

Project Type: acquisition/rehabilitation, re-location, 9% HTC, family, Enterprise Green

Communities, TDHCA Weatherization Assistance Program, on-site

children's learning center and adult-focused services, integrated units

for homeless and at-risk families

Scope of Services: pre-development, neighborhood support, financial structuring, FHLB

AHP award, 9% Low Income Housing Tax Credit application and award, investor and lender RFP and selection, layered TDHCA WAP funding for green improvements, partnerships with state agency and nonprofit service organization for vouchered units, City of Austin funding,

construction budget review and value engineering, part of development

team, contract review, environmental review, land and financial

closings.

Capital Studios - 135 Units

Location: Austin, Texas

Project Type: new construction, zero lot line construction, Central Business District,

9% HTC, family, LEED, supportive housing, single room occupancy,

commercial space and parking, on-site supportive services.

Scope of Services: pre-development, neighborhood support, financial structuring, FHLB

AHP award, 9% Low Income Housing Tax Credit application and award,

investor and lender RFP and selection, partnership with housing authority for VASH referrals, design input for targeted population, City of Austin funding, construction budget review and value engineering,

part of development team, contract review, environmental review, land

and financial closings

Homestead Oaks - 140 Units

Location: Austin, Texas

Project Type: new construction, high opportunity area, 9% HTC, family, LEED, on-site

children's learning center and adult-focused services, mixed income,

integrated units for homeless and at-risk families

Scope of Services: pre-development, neighborhood support, financial structuring, FHLB

Re: Talia Homes

Property: 12500 Lamppost Ln, Austin TX 78727

To whom it may concern:

This letter is to inform you the above mentioned borrowers have been pre-qualified for construction financing of \$1,000,000 to build a +/- 17 unit residential condominium development, subject to the following conditions:

- Bank review and approval of construction budget, plans, and builder, including information necessary for underwriting
- Satisfactory title policy, loan documentation, survey and appraisal
- Final satisfactory credit underwriting
- Final approval from Loan Committee

Additional items may be required during the underwriting prior to closing. This is not a commitment to lend. Final approval will be determined upon the review of these conditions.

Thank you for your interest in Prosperity Bank. If you have any questions, please feel free to contact me at 512-891-1800.

Sincerely,

Sam Kent

President – Oak Hill Banking Center Prosperity Bank

7001 Hwy 290 W.

TRUE CASA CONSULTING, LLC

Bio for Jennifer Hicks, Founder:

Jennifer Hicks has over 20 years of affordable housing development and finance experience working for Foundation Communities - the State's premier nonprofit, affordable housing developer. As Director of Housing Finance, Hicks led the development of 14 innovative and high-impact communities that provided 1,559 units of affordable housing. While at Foundation Communities, Hicks also helped create and implement the first supportive housing model in Austin and grew the model to 783 units before her departure. In her current consulting capacity, Hicks has continued working with nonprofits to help structure and access capital for permanent supportive housing projects in Texas. Hicks' passion and expertise is centered around high-impact housing and enjoys the complexity and challenge these projects provide. She marries her development and finance skills with a deep understanding of the target population that helps inform both the physical and programmatic design of the project that best suits the target population. Hicks has strong relationships with quality investors, lenders and local and state housing funders. Hicks was honored to be a part of Affordable Housing Finance's first round of 40 and Under Young Leaders, but her greatest reward is creating places for people to call home.

Affordable Housing Development Experience

True Casa has the following experience in Affordable Housing Development:

- 1) Leading affordable housing site selection for new communities including analyzing sites for scoring and threshold requirements with Housing Tax Credit program.
- 2) Structuring purchase contracts to meet requirements of Housing Tax Credit program.
- 3) Reviewing purchase contracts and ensuring milestones are all achieved.
- 4) Coordinating professionals to conduct third party due diligence reports and reviewing all reports (i.e. Phase I ESA, appraisals, market studies, property condition assessments, civil engineering reports, and surveys.)
- 5) Managing the required follow-up for any third party due diligence reports (i.e. Phase II ESA work.)
- 6) Coordinating RFQ's for architect and general contractor selection, including participating in selection committee.
- 7) Overseeing the financial structuring and development of 1,800 units of affordable housing.
- 8) Running project budgets and proformas for proposed affordable housing developments.
- 9) Managing the construction budget process including reviewing bids and participating in value engineering.
- 10) Leading the contract review and finalization for general contractor and architect and ensuring all federal requirements are properly referenced and adhered to, as well.
- 11) Participating in design review and input to ensure housing is designed with target population in mind.
- 12) Creating the organizational structure for new affordable housing developments including name registration and new entity creation with the Texas Secretary of State.

TRUE CASA CONSULTING, LLC

- 13) Ensuring that design and construction team is made aware of State and Federal housing construction requirements and that they are properly adhered to.
- 14) Overseeing compliance with Davis Bacon wage reporting and Federal labor standard laws.
- 15) Coordinating with development team on zoning and permit issues and timing, as needed.
- 16) Engaging with neighborhoods and community organizations on affordable housing education and specific development support.
- 17) Raising over \$218 million in grants and loans from public and private sources for the acquisition, rehabilitation and new construction of affordable housing.
- 18) Winning 9% low income housing tax credits in Texas on 11 developments in the past 10 years.
- 19) Preparing and processing 9% HTC applications including leading response to all deficiencies, underwriting and ensuring project meets all required reporting milestones.
- 20) Completing all reporting due to TDHCA on all HTC-funded projects commitment, Carryover Allocation Agreement, 10% Test, construction monitoring reports, LURA origination, and Cost Certification.
- 21) Creating RFP for equity investors and lenders on affordable housing developments and analyzing responses for a final selection recommendation.
- 22) Negotiating the final LOIs from investors and lenders, as well as reviewing and negotiating the limited partnership agreement for tax credit projects.
- 23) Securing over \$10M in grant awards from the Federal Home Loan Bank Affordable Housing Program in 12 awards application, underwriting, subsidy draw and initial compliance monitoring.
- 24) Securing gap funding from a variety of funding sources including: City of Austin Rental Housing Development Assistance Program, TDHCA Multifamily Direct Loan Program and Capital Magnet Fund.
- 25) Ensuring construction stays on timeline and meets any funder required deadlines (i.e. HTC PIS deadline.)
- 26) Leading the construction draw requests to construction lender and equity provider.
- 27) Ensuring all tax credit equity is drawn according to agreed upon milestones.
- 28) Coordinating with property management on lease-ups for HTC projects.
- 29) Structuring housing vouchers in new developments.
- 30) Designing supportive housing models based on site and project parameters.
- 31) Tracking project stabilization and leading the conversion to permanent mortgage.
- 32) Facilitating the refinancing of six different communities and preserving affordability.
- 33) Coordinating the Year 15 response on HTC financed communities.
- 34) Leading the closing on land acquisition and all project financing including coordinating the closing team and responding to due diligence calls from lender and investor.
- 35) Creating a compliance checklist that details all funder requirements for ongoing operations.

Civilitude Firm Bio

RELEVANT EXPERIENCE

Over the last seven years, Civilitude has provided design surveying, civil engineering, and construction services at 14 Foundation Communities properties, four GNDC properties, 1 Green Doors property and 1 AHA property in partnership with HACA. We have grown to appreciate affordable housing provider's service to Austin's low-income families and their perspective with regard to the pains, goals and challenges with maintaining and developing such properties. More specifically, we have learned that safety of tenants and their children, value for construction cost and timing of permitting rank high on their list of priorities. We are happy to have fulfilled those priorities and are excited to have another opportunity to work with HACA.

FIRM & HEADQUARTER ADDRESS 5110 Lancaster Ct., Austin, TX 78723

Contact Person Fayez Kazi, PE, LEED AP

Office Telephone 1 512 761 6161

Facsimile 1 512 761 6167

Date of Organization April 2008

Type of Organization
Limited Liability Company

We believe this project is a perfect fit for Civilitude for the following reasons – previous collaboration on multiple affordable housing projects with Tyson and Billy Architects and Encotech, our centrally located office, our integrated design approach, our success with permitting site plans, exemptions and our experience with repurposing existing properties to new tenants and new uses by restructuring parking, ADA and drainage.

PRINCIPAL ATTENTION & INTEGRATED APPROACH

Unlike other firms, Civilitude provides senior level attention where Fayez Kazi and Nhat Ho are fully involved with proposal, charettes, design, value engineering and construction phase services. Their diverse background in Architectural Engineering allows for an integrated design approach where civil engineering decisions are integrated rather than performed in isolation <<; for example, tying in roof downspouts may be suggested or rerouting the accessible path may be suggested or items that affect building plans may be noticed and brought to the Owner's attention.

Mr. Kazi has worked on projects as small as ADA improvement projects to complex site development and roadway projects. Mr. Kazi brings a unique combination of technological savvy, professional service, technical knowledge and enthusiastic commitment to his clients. His strengths also include a deep understanding of the permitting process, environmental sensitivities, grading and drainage as demonstrated by the list of selected projects below:

Project Experience

Guadalupe-Saldana Netzero Subdivision – GNDC – Austin, Texas

Project Principal & Project Manager for 90-unit fully affordable detached condominium and single-family Netzero development in East Austin. Design included flood plain modeling and modification, low-impact development techniques such as raingardens and biofiltration pond.

Trails at Vintage Creek – Foundation Communities – Austin, Texas

Project Principal on four separate contracts addressing stormwater inlet & drainage analysis to replace storm inlets; water utility design, construction documents and contract administration to upgrade water meter connections and provide adequate fire flow to site; structural retaining wall design of 700 LF at 9' height immediately adjacent to occupied units; and field survey of wastewater flow-lines to assist plumbing repairs. The water utility and retaining wall projects required Site Plan Exemptions and involved Fire Dept, Water Utility, and building review.

Sierra Vista Apartments – Foundation Communities – Austin, Texas

Project Principal on three separate contracts beginning with a tree & topographical survey of 9-acre tract with existing multi-family apartment units. The survey was used to provide a report with profiles of the accessible paths and sections at every 5' to help identify non-compliant slopes. Involvement led to preparation of well plugging plan and permitting through the Barton Springs Edwards Aquifer Conservation District for a 4' wide, 37' deep unrecorded well on the property. Currently developing construction plans for sidewalk & grading to provide ADA accessibility and improve drainage. Design includes 315 LF stormwater line & area inlets and site improvements for proposed Learning Center.

Mr. Schissler manages the design, submittal and permitting of site development projects in the Austin metropolitan area including conceptual design and feasibility, preliminary plans, subdivision platting, hydrologic and hydraulic studies, stormwater management facility design, roadway and utility layout, site grading and erosion control, design report and specifications writing, project budgeting and cost estimating. His site development project experience includes preparation of street and drainage improvement construction plans and specifications for numerous large site development projects, permit application and approvals for projects from local, county and state agencies, team building and coordination with other design professionals to ensure deadlines and budgets are met and his clients' goals are achieved.

Project Experience

Land Development Project Experinece – Austin, Texas

Mr. Schissler has more than 30 years of experience in overall project planning, platting, construction administration and overall engineering project management of land development projects. He is familiar with water, sanitary sewer, drainage, and paving design for numerous projects, some of which are described below:

Institutional/School Experience

School of the Hills Montessori Schools - Site Improvements – Austin, Texas

Designed the water, wastewater, drainage, and paving for this 15,800 SF preschool and elementary school campus on a 5-acre tract on the River Place Center Campus within the Edwards Aquifer Recharge Zone. Services provided included the rezoning of the property to obtain the necessary entitlements for the development. The design also included changes to an approved site plan permit from an oce building to the school project with associated amenities.

Accessible Housing Austin!
1640A East 2nd Street
Austin Texas 78702

Completion Date

Summer 2019 (Expected)

Construction Cost

\$3 Million

Founded by leaders in Austin's disability rights community, Accessible Housing Austin! (AHA!) is excited to be breaking ground later this year for AHA! at Briarcliff. The 27-unit complex in northeast Austin will provide one and two-bedroom apartments for households with incomes below 50% of the median family income. Six of the units will be designated at "deeply affordable."

In keeping with its mission to provide affordable and accessible housing for tenants with disabilities, AHA! will exceed federal integration standards with half of the units being accessible and the other half adaptable.

Civilitude worked closely with AHA! & HACA to minimize public sidewalk improvements required by the City of Austin under subchapter E. We also assist the successful partnership with Public Works that built the missing section of sidewalk in front of the site which further reduced project construction cost. Civilitude assisted HACA in understanding and resolving issues related to the unified development agreement due to complex site ownership structure.

Construction Cost

\$19 Million

128-unit SMART Housing multi-family development with Learning Center, Trail and Sidewalk to LakelineTOD Station in the northwest corner of Rudledge Spur and 620 North. The project was within the Northwest Park and Ride TOD district which required partial street and pedestrian improvements in both City and TxDOT public right of way.

The project also required a water main extension through private property.

Civilitude provided context sensitive site design and permitting which includes pavement repair and expansion, street parking and pedestrian path improvements along the southern most section of Rutledge Spur (one of eight local mobility areas to be studied by the City). The team resolved various challenges along this narrow street including above ground electrical infrastructure, topography, and existing trees.

Vice President

As Founder and President of Civilitude, Fayez is passionate about creating vibrant, complete is passionate about cleaning violanic, Compinete communities. His expertise ranges from urban planning and zoning to civil infrastructure design and land development. In his 20 years of experiences as a civil enginee, Fayez's work has changed the Austin skyline. More importantly, it has created opportunities for his employees and students alike to make a difference in the Austin community. Fayez's belief in bettering communities doesn't end with his professiona work — he spends his time giving back as a teacher, as a mentor, and as a regular volunteer.

Nhat Ho brings a passion for integrated design into land development through his background in Architectural Engineering. As Vice President, he manages multiple

projects and clients, develops new business,

projects and clients, develops new business, and oversees building Information Modeling and construction document production. He is the resident expert on all things related to athletic running tracks and artificial turf. With intimate knowledge of

the permitting processes and personal relationships with City staff, Nhat is the

experience in Central Texas, Jim has secured projects with private sector clients and has assisted them through the feasibility,

design, permitting and construction

phases of their projects. With his extensive

and requirements, he is able to minimize the time and cost of securing site plan

permits. Past work experiences in several

states and on hundreds of projects enable him to find solutions that are outside the box and cost effective. CIVILITUDE was born of a desire to serve Austin with elevated standards of excellence in land development. We call Austin our home, workplace, playground and our community. Because both the public and private sectors contribute to fashioning the fabric of our city. Civilitude aims to represent clients in each of these areas exceptionally. From school districts to affordable housing builders, from municipalities to commercial developers, we at Civilitude support our clients in creating complete communities that are vibrant, flourishing and diverse.

Vice Chair, Planning Commission, City of Austin Boards & Commissions

Former Board Member, Real Estate Council of Austin

It is said that hindsight is 20/20. For Civilitude, it means looking forward Starting 2010 2020 marks an important milestone: 10 years in business with an average of 75% growth 2020 75% growth each year each year. With our flagship company firmly

permitting time for future housing.

Civilitude contended with immense challenges in design, permitting and construction to complete the bond masterplan. From the site location in the recharge zone surrounded by voids, caves and endangered species, to its 30-plus-year history of improvements, Civilitude navigated through the following seven local, state and federal entities to deliver the site permit and a finessed product: City of Austin, Travis County Transportation & Natural Resources. Emergency Services District ESD#4, the Balcones Canyon Conservation Plan, the Williamson County Conservation Foundation. Texas Commission on Environmental Quality and US Fish & Wildlife.

10 Partners with NINTERN Local Affordable Housing Builders

Civilitude is extremely proud to have worked with several local non-profits to address one of the most critical issues Austin is facing today — the lack of high quality affordable housing. Most notable are our projects with Foundation Communities at Lakeline Station. Cardinal Point and the Jordan at Mueller. Other partners include Guadalupe Neighborhood Development Corporation, Lifeworks,

Accessible Housing Austin! and Green Doors.

navigate the human conflicts that are frequently part of working with regulatory bodies. We accomplish all this, and address the myriad issues our clients bring to us by using broad perspectives, fresh insight and forward thinking. We help our clients envision the raw potential of greenfields, reimagine infill redevelopments, manage projects mid-stream or elevate projects in crises. We team up with you to engineer your visions.

Mobility Bond Sidewalk

The 2016 Mobility Bond Election Proposition 1 promised Austin voters improvements to multi-modal forms of transportation. Civilitude was one of four firms awarded with a prime contract for this highly competitive project to provide field engineering for prioritized ADA compliant pedestrian infrastructure as well as bicycle facilities that meet both transportation and recreational options.

\$105,000,000 Bond

Exclusive Civil Partners of San Marcos CISD

Through partnership with the architecture firm of Perkins Will,

Civilitude assisted with the successful planning of 2017 Bond election, feasibility studies, and implementation. In addition to the Bond work. Civilitude provided regional drainage analysis. field monitoring, and flood mitigation recommendations for the existing Bonham Pre-K facility.

Green Framework & Infrastructures

Suburban Communities & Sites

Civilitude understands that the priorities that are native to subur-ban sites may differ from those of their urban infill counterparts. Through successful school, affordable housing, senior housing, industrial complex, and other residential and commercial projects adjacent to natural preserves, near endangered species habitats, and nestled within critical environmental features, we understand

I have worked with Civilitude for 4 Civilitude quickly and efficiently vears. I first met them at Round Rock ISD and was impressed with their energy and ability to identify one of our pressing needs.. Civilitude brought the same amount of attention and detail to every project we gave them. I would wholeheartedly

Firm Overview & History

Constructinople is a construction firm established in early 2016 as a sole proprietor and quickly brought on partners and incorportated in 2018. Located in Austin, Texas and led by Kenda Dawwami, Fayez Kazi and Eyad Kasemi, Constructinople provides senior level attention and the flexible, timely response only a small, nimble firm can deliver. Constructinople is associated with Falcon Eye Asset Holdings, Parmer Housing and Realview Development Group of companies. The shareholders and executives of these companies are comprised of seasoned businessmen and engineers, who bring to the table not only over 52 years of professional experience both locally and internationally but also the following strengths:

- -Development as well as construction of over 60 dwelling units collectively.
- -Providing public and private sector clients with entitlements and the design, management and construction administration of site developments projects
- -Extensive understanding and expertise in multifamily apartment complexes, subdivision design and processing, grading and drainage design and analysis and permitting, as well as environmental sensitivities.
- -Urban planning and zoning to civil infrastructure design and land development.

Non-Profit Experience

Non Profit Name	Project Experience	Contact & Reference
Blackland Community Development Corporation	1910 Salina St. Austin, Texas 78722 2203 Salina Unit B Austin, Texas 78722 2106 Chicon St. Austin, Texas 78722	Joseph Martinez jmartinez@blacklandcdc.org Executive Director 1902 E. 22nd Street Austin, TX 78722 512-810-9153

Constructinople has experience working with Austin based non-profit and public entities such as Blackland Community Development Corporation, Austin Community Design and Development Center, as well as Neighborhood Housing & Community Development. We understand the balance between initial investment versus long term benefits and that the best design is not always the cheapest design up front. We understand that with nonprofit entities, fostering good relationships with neighbors and preserving the reputation of the organization is just as important as obtaining permits on time. We also understand the critical challenge of controlling cost once the budget is set. Our standard of practice includes meeting with Client weekly once construction begins in order to ensure all errors are caught and all unforeseen conditions are resolved with the least cost impacts.

Cedar Alley Flat

Ex-chair South Congress Combined Neighborhood

UT Austin Projects for Underserved Communities, Service Learning Advisory Board

Austinites for Action Advisory Board Mr. Kazi has over 20 years of experience providing public and private sector clients with entitlements and the design, management and construction of site development projects. Mr. Kazi has worked on projects as small as ADA improvement projects to complex site development and roadway projects. Mr. Kazi brings a unique combination of technological savvy, professional service, technical knowledge and enthusiastic commitment to his clients. His strengths also include a deep understanding of the permitting process, environmental sensitivities, grading and drainage.

Land Acquisition and Development

Horseshow Townhouses

Investor and Developer for 4.7-acre property zoned for single-family use located at 510 Horseshoe Drive in Leander, Texas. Existing zoning would only allow 14 units on the property. The future land use map called for more variety in housing opportunities. Mr. Kazi advocated with city staff, planning and zoning commission and city council for PUD zoning that would allow up to 50 units thus creating market-rate affordable missing middle housing typologies.

Horizon Park Homes

Investor and Developer for 3.6-acre property zoned for single-family use located at 700 Horizon Park Blvd in Leander, Texas. Mr. Kazi opted to subdivide the property to provide small lot homes in an area where large expensive homes were the norm and is creating a community of 15 modestly priced homes.

Engineering & Planning

The Jordan at Mueller

Project Principal for 132-unit affordable housing apartment complex that leveraged both City GO housing bonds and State tax credit programs. Fayez provided high level design and permitting strategy for the grading, drainage and utilities. He advocated for a dead-end utility main that Austin Water Utility was requiring to be looped by modeling an acceptable alternative.

Waterloo Terrace

Project Principal for 132-unit permanent supportive housing for single adults on 2.5 acres near the MoPac Expressway and Parmer Lane intersection - near the Domain, job opportunities, medical services at St. David's Hospital and the Walnut Creek Greenbelt. Fayez provided high level design and permitting strategy for the grading, drainage and utilities.

Afliations & Involvement

Vice Chair, Paradiso Villas HOA Planning Committee, Nueces Mosque Mr. Kasemi has over five years of experience providing public and private sector clients with entitlements and the design, management and construction administration of site developments projects. Through dozens of projects, he has developed a deep understanding and expertise in wet ultility distribution system design, subdivision design and processing, grading and drainage design and analysis, and permitting as well as environmental sensitivities. To sum it up in three words- he gets permits. He designed a 132-unit apartment complex in Mueller and obtained a site development permit within a record four months. In his free time, he dabbles in real estate development and construction. He actively helps Syrian refugee families in Austin with accommodations and job replacements.

Land Acquisition and Development

Horseshow Townhomes

Land Hunt Manager and Pro Forma creator for 4.7-acre property zoned for single-family use located at 510 Horseshoe Drive in Leander, Texas. Existing zoning would only allow 14 units on the property. The future land use map called for more variety in housing opportunities. Mr. Kasemi managed the consultants through the rezoning and marketed the property to responsible developers.

Horizon Park Homes

Land Hunt Manager and Pro Forma creator for 3.6-acre property zoned for single-family use located at 700 Horizon Park Blvd in Leander, Texas. Mr. Kasemi ran pro forma numbers and negotiated street centerline location with city staff to ensure a dense small lot community.

Engineering & Planning

The Jordan at Miller

Project Manager for 132-unit affordable housing apartment complex that leveraged both City GO housing bonds and State tax credit programs. Eyad performed grading, drainage, utilities and site plan production and permitting.

Cardinal Point Apartments

Project Manager for 120-unit affordable housing apartment complex in the Four Points area near the intersection of 2222 and 620, close to great schools and job opportunities. Eyad performed grading, drainage, utilities and site plan production and permitting.

Lakeline Station Apartments

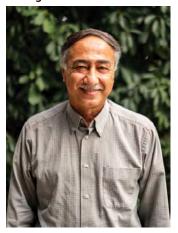

Project Manager for 128-unit affordable housing apartment complex with an on-site Community Learning Center, built using the ultra-sustainable Living Building Challenge standards, located near the Lakeline Train Station on Rutledge Spur. Eyad performed grading, drainage, utilities and site plan production and permitting.

Waterloo Terrace

Project Manager for 132-unit permanent supportive housing for single adults on 2.5 acres near the MoPac Expressway and Parmer Lane intersection - near the Domain, job opportunities, medical services at St. David's Hospital and the Walnut Creek Greenbelt. Eyad performed grading, drainage, utilities and site plan production and permitting.

Mothafar Mahmoud

Construction Manager Constructinople LLC Designers & Builders

Education
BS Civil Engineering
University of Bagdad
Baghdad, Iraq

Mothafar Mahmoud has built high-end residential houses in the Austin area since 2000. Mr. Mahmoud passion is the construction business. He enjoys producing properties that people can truly call their homes, through his estimating and keen supervision over all phases of construction. Mr. Mahmoud has a rich background in construction. He not only has a degree in Civil Engineering with an emphasis in construction but he also has 19 years of experience in construction which he is excited to utilize in order to meet the demands of the growing Austin community.

Fayez Kazi, CEO, P.E

As Founder and President of Civilitude, Fayez is passionate about creating vibrant, complete communities. His expertise ranges from urban planning and zoning to civil infrastructure design and land development. In his 20 years of experience as a civil engineer, Fayez's work has changed the Austin skyline. More importantly, it has created opportunities for his employees and students alike to make a difference in the Austin community. Fayez's belief in bettering communities doesn't end with his professional work — he spends his time giving back as a teacher, as a mentor, and as a regular volunteer.

Eyad Kasemi, E.I.T.

Mr. Kasemi has over five years of experience providing public and private sector clients with entitlements and the design, management and construction administration of site developments projects. Through dozens of projects, he has developed a deep understanding and expertise in multifamily apartment complexes, subdivision design and processing, grading and drainage design and analysis and permitting, as well as environmental sensitivities. He designed – The Jordan at Mueller - a 132- unit AHFC-funded apartment complex that received a site development permit within a record four months. He is also involved in real estate development and construction with a focus on auxiliary dwelling units and even manages a few properties of his own. As Project Manager for Constructinople, LLC, Mr. Kasemi will develop 4 SMART housing auxiliary dwelling units for local non-profit – Blackland CDC. Mr. Kasemi strongly believes everyone should have a fair chance at affordable housing. Outside of work, Mr. Kasemi has worked with a local non-profit that aids refugees in the area for over 5 years. As an immigrant himself, he is aware of hardships that people encounter and enjoys helping those in need in his spare time.

Hind T. Hatoum, PhD.

After graduate education in Austin Texas, Hatoum established roots in Chicago Illinois where most affordable communities were mono-ethnic. After 30 years in Chicago, she now feels the multi-ethnic neighborhoods are expanding and the ability of the citizens to live side by side with other ethnic groups is possible. Hatoum's educational background includes bachelor's degree in pharmacy, masters in pharmacology and a doctorate degree (PhD) in Health Care Administration. She has taught at the University of Illinois at Chicago, for more than a decade, and spent 22 years as a research consultant to pharmaceutical companies. Hatoum was attracted as principal in Parmer Housing, LLC due to a belief that an integrated society provides a benevolent medium to raise families where good neighbors are not necessarily defined by their income brackets, but rather by their characters and neighborly acts. She believes the City of Austin SMART Housing program and AHFC funding provides a rather non-intrusive way to bring together folks with

different income levels and acts as model to bring the citizens of Austin closer by leveling up the playing fields for the less fortunate members of the community.

Mothafar Mahmoud

Mothafar Mahmoud has been building high end residential houses in the Austin area since 2000. He enjoys the construction business, overseeing all phases of the trade and coordinating all these efforts and coming up with a product that people would live in and call it their home. Mahmoud has a degree in Civil Engineering with emphasis in construction. As a member of Parmer Housing, LLC, Mahmoud is excited to use his construction experience and engineering background to be able to meet the demands of the Austin community through the affordable housing program and provide quality housing to benefit families of low to intermediate income levels.

Tom Kolko, P.E.

Tom Kolko knows the value of community. It was US government programs and the kindness of the community around him that helped him through the remaining semesters of his college career after his father's death while a junior at Texas A&M in the Civil Engineering program. In 2010, at the peak of his professional career, he took a leap of faith to start his own business, but it was the wrong time and the wrong opportunity. After depleting his life's savings before getting back on his feet, it was again community that helped him through tough times. Now it's time for him to give back and help the disadvantaged community improve where they live to provide them with a much-needed head start.

Ghassan Mahmoud

Ghassan Mahmoud has been in involved in the development and construction business since 1993 right after graduate school with a degree in Civil Engineering and Construction Management. He believes the affordable housing program offers great investment opportunities for investors that are well familiar with the construction business while providing an incentive to accommodate less privileged families to find quality homes and shelter at affordable prices.

ATTACHMENT 3: PROPERTY MANAGEMENT TEAM

Talia Homes at Lamppost will be managed by Kenda Dawwami – a real estate agent with Keller Williams Realty – and an experienced property manager of a portfolio of housing communities very similar in form and function to the proposed Talia Homes at Lamppost.

Bio for Kenda Dawwami:

Kenda Dawwami has extensive knowledge in the real estate and property management field. For over 5 years, Dawwami has successfully aided the property investors of a multi-family apartment complex in increasing the value of their investment by keeping track of the day-to-day financial operations and facilities management. She manages not only her own properties but her client's as well. Over the years, Dawwami has developed client relation skills necessary to thrive in the field and understand clients' needs. As a first generation immigrant mother of two daughters, she believes in the City of Austin's SMART Housing and RHDA funding programs to help the low-income community be able to grow and find affordable homes.

Current properties managed by Kenda Dawwami:

3466 Willowrun Dr. Unit A, B, C, D, F Austin, Texas 78704

3452Willowrun Dr. Unit A, B, C, D, E Austin, Texas 78704

5110 Lancaster Ct. Building 1, 2 Austin, Texas 78723

411 W. St. Elmo Dr. Unit 1 Austin, Texas 78745

11603 Tedford Dr. Austin, Texas 78753

Project Description:

Talia Homes at Lamppost is 17 units of affordable housing in a high-opportunity neighborhood in close proximity to employment, schools, transit and amenities. This property will be 100% affordable and will offer 8 units of rental housing and 9 units of for-sale housing. All units are being designed and developed in a townhome model that feels high-end and provides a unique option in the existing Austin affordable housing portfolio.

The project is being developed by a strong team that is extremely well-versed in affordable housing development. The property is acquired, has secured certification with Affordability Unlocked, and a site plan has been submitted. This project is ready to go. The City's funding will be leveraged 100% with owner equity being provided by a pool of investors with total backing of over \$10 Million.

THIS IS A PROJECT BORN OUT OF A SPIRIT OF GIVING BACK AND IS THE PERFECT EXAMPLE OF LEVERAGING HOME-GROWN SKILLS AND FUNDING IN OUR COMMUNITY TO DELIVER AFFORDABLE HOUSING.

1. Describe the proposed tenant population, income levels, and services, if any, to be provided to or made available to residents.

100% of the units at Talia Homes at Lamppost will be affordable with the rental units set-aside for households with less than 50% of the Median Family Income and the homeownership units set-aside for households with less than 80% of the Median Family Income. All units will be made available to individuals and families who want to live in a transit-connected and amenity rich neighborhood in Austin. Due to the mall number of units at the property, services will not be provided on-site. Referrals to services available in the community will be made on an as-needed basis.

Unit Type	# of Units	Square Footage	Median Family
			Income Level
2 BR/2 BA-	3	1132 SF	50% MFI
RENTAL			
3 BR/2.5 BA –	9	1344-1479 SF	80% MFI
OWNERSHIP			
3 BR/2.5 BA –	5	1344-1479 SF	50% MFI
RENTAL			
TOTAL UNITS	17		

2. Indicate the number of units reserved for Housing Choice Voucher holders.

All rental units at Talia Homes at Lamppost will be available to a Housing Choice Voucher holder.

3. Indicate the number of units that are or will be made accessible and adaptable for persons with mobility, sight or hearing disabilities.

At a minimum, 10% of the total units (2 units) will be designed for persons with mobility impairments. In addition, at a minimum, 2% of total units (1 unit) will be made accessible for persons with hearing and visual impairments.

4. If Applicable, demonstrate the Project's compatibility with current Neighborhood Plan.

Not Applicable – Talia Homes at Lamppost is located off of Parmer Lane where there is not yet a Neighborhood Plan in place.

5. Summarize the key financials of the project, clearly indicating the total project cost, the amount and intended use of AHFC/NHCD funds being requested, and the amount(s) and provider(s) of other funding and the status of those funding commitments.

The total cost to construct the 17-unit Talia Homes at Lamppost is approximately \$4,699,377. The sources of funds for this project include:

City of Austin, in the total amount of \$1,391,927. These funds will be used to pay for pre-development and/or hard and/or soft costs. We request these funds from the City to be in the form of a deferred forgivable loan with a loan term of at least 40 years.

Owner Equity in the amount of \$3,307,450. Parmer Housing, LLC – made up of investor members – have already raised equity to cover the \$300,000 acquisition and will back the remaining \$3,007,450 until the sale of the homes which will repay \$2,007,450 of that investment. Their remaining equity investment of \$1,300,000 will be paid out in cash flow from the property plus any allowable fees charged to project. While the investment pool of this project (and Talia Homes at St Georges Green) is at \$10M, in order to increase financial liquidity the project is seeking out a line of credit with Prosperity Bank in the amount of \$1M. This line can also be drawn upon and paid off with the proceeds from the home sales.

6. If the property is occupied by residents at the time of application submission, specify that along with the following additional information: Include details on the type of structures (multi-family or single-family), number and size of units in square feet.

The current site does not contain an occupied structure.

7. Indicate whether the project meets the requirements of the City's Vertical Mixed-Use (VMU) Ordinance, or is in a Planned-Unit Development (PUD)or Transit Oriented Development (TOD) or any other City of Austin density bonus program.

Talia Homes at Lamppost is not located within a VMU, PUD, or TOD..

8. Indicate how the project will meet SMART Housing requirements.

A SMART Housing Certification letter was issued on September 17, 2019 and is included with this application.

Safe – Talia Homes at Lamppost is located in a high-opportunity neighborhood with a low crime rate. The new construction of the property will eliminate any potential safety concerns arising out of a vacant lot and will offer efficient, high-performing and healthy homes to better serve low-income Austinites.

Mixed Income – Talia Homes at Lamppost will be affordable housing in an otherwise unaffordable neighborhood.

Accessible – Talia Homes at Lamppost will be designed and constructed to meet and/or exceed the City's minimum accessibility requirements.

Reasonably Priced – Rental units at Talia Homes at Lamppost will be available to families with incomes less than 50% of the Median Family Income. Homes will be available for purchase at a price affordable to families with incomes less than 80% of Median Family Income.

Transit-Oriented – Talia Homes at Lamppost is located off of Parmer Lane and within ¾ mile of multiple bus stops and routes.

ATTACHMENT 4: PROJECT PROPOSAL

b. Market Assessment:

Talia Homes at Lamppost is responding to the overwhelming need for affordable housing within Austin by providing 8 units of rental housing affordable to families with incomes less than 50% MFI and 9 units of for-sale housing affordable to families with incomes less than 80% MFI.

i. Evaluate general demographic, economic, and housing conditions including:

1. Target Population and Area Demographic Makeup:

The target population of Talia Homes at Lamppost are individuals and families in need of affordable rental and homeownership housing in Austin. According to Neighborhood Scout, the neighborhood surrounding the property has a demographic makeup as follows:

- Race and Ethnic: 40.5% White, 10.4% Black or African American, 19.5% Asian, 24.4% Hispanic or Latino of any race. [More diverse than 99% of US Neighborhoods.]
- **Median Household Income:** \$72,663 [\$57,652 for the nation.]
- Homeownership Rate: 48.7% owners
- **Average Market Rent:** \$1,664 per month [Average market rent at Talia Homes at Lamppost will be \$1,168 per month for brand new construction.]
- Average Home Value: \$360,912 [Homes at Talia Homes at Lamppost will sale for \$223,050.]
- **Age:** 5.8% for under 5 years, 12.8% for 5 to 17, 16.6% are 18-29, 27.7% are 30-44, 26.7% are 45-64, 10.4% are 65 years and over.
- Household Type: 34.8% are 1-person household and 17.7% are married couple with child.
- **Gender:** 47.6% are male and 52.4% are female.

2. Overall Economic Conditions and Trends:

The neighborhood surrounding Talia Homes at Lamppost has a median real estate price of \$360,912, which is more expensive than 88.3% of the neighborhoods in Texas and 73.4% of the neighborhoods in the U.S. Also according to NeighborhoodScout, the average rental price is \$1,664 which is higher than 81.5% of the neighborhoods in Texas. NeighborhoodScout reports that this neighborhood is an uppermiddle income neighborhood, with only 9.5% of children living below the poverty line which is a lower rate of childhood poverty than is found in 60.4% of America's neighborhoods.

The average annual change in per capita income over the last 5 years is 6.1% compared to 2.3% for the nation. The average annual change in household income over the last 5 years is 8.4% compared to 2% for the nation. The average change in unemployment rate over the last 5 years is -0.3% for the neighborhood.

Please see attached NeighborhoodScout Report for additional information on Economic Conditions and Trends for this neighborhood.

3. General Housing Conditions and Trends in the Community

A description of the neighborhood surrounding Talia Homes at Lamppost according to NeighborhoodScout:

"This is a suburban neighborhood (based on population density) located in Austin, Texas.

This neighborhood's real estate is primarily made up of medium sized (three or four bedroom) to small (studio to two bedroom) single-family homes and apartment complexes/high-rise apartments. Most of the residential real estate is occupied by a mixture of owners and renters. Many of the residences in this neighborhood are established but not old, having been built between 1970 and 1999. A number of residences were also built between 2000 and the present.

Home and apartment vacancy rates are 9.0% in this neighborhood. NeighborhoodScout analysis shows that this rate is lower than 49.6% of the neighborhoods in the nation, approximately near the middle range for vacancies."

The average annual homeownership trend over the last five years has increased by 2.0%. The average rent price trend in the neighborhood over the last five years has increased by 3.9%.

ii. Identify the geographic area

Talia Homes at Lamppost is located in census tract number 48453001848 in North Austin. Please see attached NeighborhoodScout report for the boundary outline.

iii. Quantify the pool of eligible tenants

The Austin Strategic Housing Plan, drafted in 2016 and now under review, identifies public policies and development incentives that can help increase the supply of affordable housing. The report estimates that by 2025, Austin will need an additional **60,000 units** of housing that are affordable to people earning 80% of the Median Family Income or less.

The Austin Chamber has partnered with 100 business and social service organizations to develop an Affordability Action Plan. The Plan calls for increasing housing supply by allowing at least **15,000 housing units to be built per year for 10 years**, with **at least 25% affordable housing for households at 80% Median Family Income (MFI) and below**, including 200 Housing First Permanent Supportive Housing units per year; and 25% "missing middle"/workforce housing at 140% MFI.

The Austin Housing Coalition brings together low income housing providers form across the community to network and share information with the goal of increasing our community supply of affordable housing. Most low-income renters earning less than \$35,000 who are not cost burdened are living in housing that is provided by these low-income housing providers, or in housing that is federally subsidized.

iv. Analyze the competition

Talia Homes at Lamppost is an innovative spin on affordable housing development. The team brings together seasoned development professionals with affordable housing expertise paired with solid financial backing and a high leverage of owner equity that will deliver units more efficiently and quicker than an average developer who does not have solid financial backing or a solid development team. The development team for Talia Homes at Lamppost has executed on numerous in-fill rental and homeownership projects and is now bringing this experience to deliver affordable units. Typically, these projects are going to be small-scale in-fill in high-opportunity neighborhoods, making this model more replicable and scalable than a larger, more-dense development. Besides one or two mission-based, nonprofit developers, there are no other competitors delivering units in such an efficient and replicable manner.

v. Assess the market demand

From the Community Advancement Network dashboard report, 33% of Travis County households are housing cost burdened (paying more than 30% of their income on housing.) A higher share of households in the City of Austin and Travis County are cost-burdened than in the five-county Austin MSA, the state and the nation.

Low-income renters are most impacted. According to census data, 85% of renters with a household income less than \$35,000 a year are housing cost-burdened, and the majority of those households (56%) are "severely cost-burdened," which means they pay more than half their total household income for housing.

In City Council District 7 where Talia Homes at Lamppost is located, there are **11,420 people living in poverty** (11.3% of the District.) **District 7 has a goal of 6,651 affordable units by 2025.**

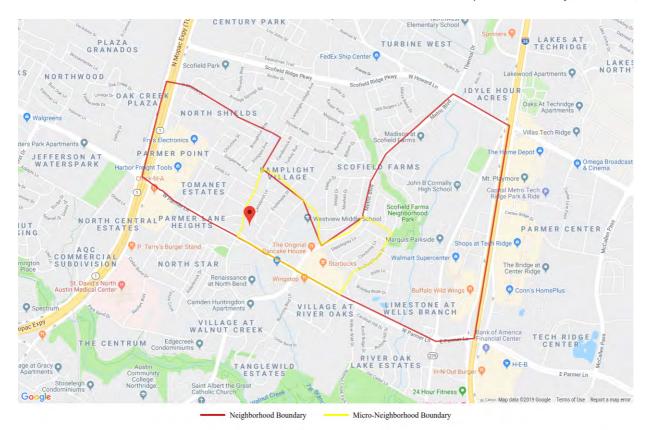

vi. Evaluate the effective demand and the capture rate

17 units/6,651 units in District 7 = 0.26%

vii. Estimate the absorption period

Once construction of Talia Homes at Lamppost is completed, the project will be filled systematically with residents of the surrounding neighborhood and through the networking of the development team. It is expected that the property will be 100% occupied in 5.5 months with an estimated absorption rate of 3 units per month.

ABOUT THE 12500 LAMPPOST LN NEIGHBORHOOD

Real Estate Prices and Overview

This neighborhood's median real estate price is \$360,912, which is more expensive than 88.3% of the neighborhoods in Texas and 73.4% of the neighborhoods in the U.S.

The average rental price in this neighborhood is currently \$1,664, based on NeighborhoodScout's exclusive analysis. The average rental cost in this neighborhood is higher than 81.5% of the neighborhoods in Texas.

This is a suburban neighborhood (based on population density) located in Austin, Texas.

This neighborhood's real estate is primarily made up of medium sized (three or four bedroom) to small (studio to two bedroom) single-family homes and apartment complexes/high-rise apartments. Most of the residential real estate is occupied by a mixture of owners and renters. Many of the residences in this neighborhood are established but not old, having been built between 1970 and 1999. A number of residences were also built between 2000 and the present.

Home and apartment vacancy rates are 9.0% in this neighborhood. NeighborhoodScout analysis shows that this rate is lower than 49.6% of the neighborhoods in the nation, approximately near the middle range for vacancies.

Notable & Unique Neighborhood Characteristics

The way a neighborhood looks and feels when you walk or drive around it, from its setting, its buildings, and its flavor, can make all the difference. This neighborhood has some really cool things about the way it looks and feels as revealed by NeighborhoodScout's exclusive research. This might include anything from the housing stock to the types of households living here to how people get around.

Notable & Unique: Diversity

Did you know that this neighborhood has more British and Slovak ancestry people living in it than nearly any neighborhood in America? It's true! In fact, 2.1% of this neighborhood's residents have British ancestry and 1.1% have Slovak ancestry.

This neighborhood is also pretty special linguistically. Significantly, 7.0% of its residents five years old and above primarily speak Vietnamese at home. While this may seem like a small percentage, it is higher than 99.1% of the neighborhoods in America.

The Neighbors

The Neighbors: Income

There are two complementary measures for understanding the income of a neighborhood's residents: the average and the extremes. While a neighborhood may be relatively wealthy overall, it is equally important to understand the rate of people - particularly children - who are living at or below the federal poverty line, which is extremely low income. Some neighborhoods with a lower average income may actually have a lower childhood poverty rate than another with a higher average income, and this helps us understand the conditions and character of a neighborhood.

The neighbors in this neighborhood in Austin are upper-middle income, making it an above average income neighborhood. NeighborhoodScout's exclusive analysis reveals that this neighborhood has a higher income than 72.7% of the neighborhoods in America. In addition, 9.5% of the children seventeen and under living in this neighborhood are living below the federal poverty line, which is a lower rate of childhood poverty than is found in 60.4% of America's neighborhoods.

The Neighbors: Occupations

What we choose to do for a living reflects who we are. Each neighborhood has a different mix of occupations represented, and together these tell you about the neighborhood and help you understand if this neighborhood may fit your lifestyle.

In this neighborhood, 41.6% of the working population is employed in executive, management, and professional occupations. The second most important occupational group in this neighborhood is clerical, assistant, and tech support occupations, with 23.1% of the residents employed. Other residents here are employed in sales and service jobs, from major sales accounts, to working in fast food restaurants (21.2%), and 14.1% in manufacturing and laborer occupations.

The Neighbors: Languages

The languages spoken by people in this neighborhood are diverse. These are tabulated as the languages people preferentially speak when they are at home with their families. The most common language spoken in this neighborhood is English, spoken by 61.0% of households. Other important languages spoken here include Spanish, Vietnamese and Chinese.

The Neighbors: Ethnicity / Ancestry

Culture is shared learned behavior. We learn it from our parents, their parents, our houses of worship, and much of our culture – our learned behavior – comes from our ancestors. That is why ancestry and ethnicity can be so interesting and important to understand: places with concentrations of people of one or more ancestries often express those shared learned behaviors and this gives each neighborhood its own culture. Even different neighborhoods in the same city can have drastically different cultures.

In this neighborhood in Austin, TX, residents most commonly identify their ethnicity or ancestry as Asian (19.5%). There are also a number of people of Mexican ancestry (12.3%), and residents who report German roots (10.6%), and some of the residents are also of Irish ancestry (6.2%), along with some English ancestry residents (4.9%), among others. In addition, 28.4% of the residents of this neighborhood were born in another country.

Getting to Work

How you get to work – car, bus, train or other means – and how much of your day it takes to do so is a large quality of life and financial issue. Especially with gasoline prices rising and expected to continue doing so, the length and means of one's commute can be a financial burden. Some neighborhoods are physically located so that many residents have to drive in their own car, others are set up so many walk to work, or can take a train, bus, or bike. The greatest number of commuters in this neighborhood spend between 15 and 30 minutes commuting one-way to work (38.0% of working residents), which is shorter than the time spent commuting to work for most Americans.

Here most residents (73.2%) drive alone in a private automobile to get to work. In addition, quite a number also carpool with coworkers, friends, or neighbors to get to work (17.4%) . In a neighborhood like this, as in most of the nation, many residents find owning a car useful for getting to work.

c. Good Neighbor Policy:

Talia Homes at Lamppost Lane

12500 Lamppost Lane Austin, TX 78727

CONTACT

Eyad Kasemi Parmer Housing, LLC 5110 Lancaster Court Austin, TX 78723 (512) 761-6161 eyad@civilitude.com

COMMUNICATIONS PLAN FOR NEIGHBORHOOD ENGAGEMENT

Talia Homes will be developed under Affordability Unlocked and therefore a zoning change will not be necessary. Just like any multifamily development, if the need arises Parmer Housing, LLC will approach the neighborhood surrounding Talia Homes at Lamppost to receive input.

The following steps will soon be taken to communicate with the neighborhood surrounding the proposed development located at 12500 Lamppost Lane, Austin, TX 78727:

Preliminary Research: Using the City of Austin's Community Registry site and general Internet searches, True Casa Consulting researched the neighborhood organizations that contain the proposed site and identified the following active organizations.

Lamplight Village Area Neighborhood Association North Corridor Alliance

- 1) **Neighborhood Contact:** Parmer Housing, LLC will reach out to the priority neighborhood organization(s) on an as needed basis. NHCD will be updated if those meetings have occurred.
- **2) Implementation/Ongoing Relations** Parmer Housing, LLC will implement the following processes to encourage ongoing relations with neighborhood members:

- Neighborhood members will be invited to the Ground Breaking and Ribbon Cutting events that will be held for the property. Neighborhoods will be given recognition for their support.
- Parmer Housing, LLC will establish an open-door policy so that neighborhood members will feel comfortable communicating any concerns with either the property management or the single point of contact.

***PLEASE NOTE THAT A CITY OF AUSTIN GOOD NEIGHBOR CHECKLIST WAS NOT PART OF THE APPLICATION MATERIALS NOR AVAILABLE ON THE WEBSITE.

Neighborhood Housing and Community Development Department S.M.A.R.T. Housing Program

September 17, 2019

S.M.A.R.T. Housing Certification
Parmer Housing, LLC – 12500 Lamppost Ln (ID 675)

TO WHOM IT MAY CONCERN:

Parmer Housing, LLC (contact Eyad Kasemi; ph: 512.761.6161; email eyad@civilitude.com) is planning to develop 16 unit single family development at 12500 Lamppost Lane, Austin TX 78727. Eight (8) of the units will be sold to households at or below 80% Median Family Income (MFI) and Eight (8) of the units will be rented to households at or below 50% MFI. Due to the applicant applying for City of Austin, Housing Bond Funds, the ownership units will be subject to a 99 year affordability period and the rental units will be subject to a 40 year affordability period. The unit sales prices must be approved by Neighborhood Housing and Community Development (NHCD), prior to execution of any sales contract. The rental units will comply with rents that are established annually by NHCD.

Neighborhood Housing and Community Development (NHCD) certifies the proposed project meets the S.M.A.R.T. Housing standards at the pre-submittal stage. Since the ownership units will serve households at or below 80% MFI and will have a 99 year affordability period and the rental units will serve households at or below 50% MFI and will have a 40 year affordability period, the development will be eligible for 100% waiver of fees listed in Land Development Code, Chapter 25-1-704, as amended or other fees waived under a separate ordinance The expected fee waivers include, but are not limited to, the following fees:

AWU Capital Recovery Fees
Building Permit
Site Plan Review
Construction Inspection
Demolition Permit Fee

Concrete Permit
Electrical Permit
Subdivision Plan Review
Parkland Dedication Fee
(by separate ordinance)
Regular Zoning Fee

Mechanical Permit
Plumbing Permit
Zoning Verification
Land Status Determination
Building Plan Review

Prior to issuance of building permits and starting construction, the developer must:

- ♦ Obtain a signed Conditional Approval from the Austin Energy Green Building Program stating that the plans and specifications for the proposed development meet the criteria for a Green Building Rating. (Contact Austin Energy Green Building: 512-482-5300 or greenbuilding@austinenergy.com).
- Submit plans demonstrating compliance with the required accessibility or visitability standards.

Before a Certificate of Occupancy will be granted, the development must:

- Pass a final inspection and obtain a signed Final Approval from the Green Building Program. (Separate from any other inspections required by the City of Austin or Austin Energy).
- Pass a final inspection to certify that the required accessibility or visitability standards have been met.
- An administrative hold will be placed on the building permit, until the following items have been completed: 1) the number of affordable units have been finalized and evidenced through a sealed letter from project architect and/or engineer, 2) a Restrictive Covenant stating the affordability requirements and terms has been filed for record at the Travis County Clerk Office.

The applicant must demonstrate compliance with S.M.A.R.T. Housing standards after the certificate of occupancy has been issued or repay the City of Austin, in full, the fees waived for this S.M.A.R.T. Housing certification.

Please contact me by phone 512.974.3128 or by email at <u>Sandra.harkins@austintexas.gov</u> if you need additional information.

Sincerely,

Sandra Harkins, Project Coordinator

Thank you! Everything looks good on these two applications from an Affordability Unlocked standpoint. I will be leaving my position at the City effective next Friday, October 4th, so Sandra will be your point of contact for both Affordability Unlocked and SMART Housing from that time on. I am trying to get a final contract from the Law Department for rental units before I leave and will send it out to you when I have it!

Thanks again, Lauren

Eyad,

My apologies for the time it is taking to move through the process. We are getting very close to having a completed contract for rental projects to sign! In the meantime, I have reviewed your applications and wanted to point out one issue that I see with the George's Green proposal. Namely, for rental developments, 20% of the total units must be set aside at 50% MFI. It looks like your application proposes to have all 4 affordable units set aside at 60% MFI. To meet the requirements of the ordinance, 2 of these units will need to be set aside for households earning at or below 50% MFI.

Please let me know if you are able to proceed with the Georges Green project with these 2 units at 50% MFI and I'll update the application records.

Thank you!

Lauren

Hi Lauren,

Please see the updated applications. Let me know if you have any questions.

Thank You,

Eyad

Eyad,

I am working with our IT department to update the application to allow it to be revised. In the meantime, I am sending you Excel versions of the applications you submitted, with action items I need your review on in red. Please update your application to respond to those comments and highlight the text that you change or add so I can easily tell what is updated.

As a reminder, please provide me with a map showing the proximity of the St Georges Green site to Stassney so we can evidence that the site is eligible for the Type 2 bonus.

For information on our gap financing programs, please see this webpage: http://www.austintexas.gov/page/affordable-housing-development-funding .

From: Avioli, Lauren Sent: Friday, July 26, 2019 10:54 AM To: eyad@civilitude.com Subject: Affordability Unlocked applications			
Eyad,			
NHCD has received your two applications for Affordability Unlocked, one for a property at 5300 Georges Green and one at 12500 Lamppost. Can you please provide me some additional clarification on the following points?			
5300 Georges Green			
 Please confirm the number of total rental units and the number of affordable rental units by bedroom 			

Please confirm what MFI level the affordable units will be set at

- Is the project new construction or redevelopment of a site? If redevelopment, are there existing multifamily units on the property?
- If you want to obtain your Type 2 Level Bonus using your proximity to an Imagine Austin Corridor with transit, please provide a map that shows the property in relation to the nearest Imagine Austin Activity Corridor and transit routes. You can see the corridors and transit routes here: http://arcg.is/1DX8n1

12500 Lamppost Ln

Thank you,

- Please confirm the number of total ownership units and the number of affordable ownership units by bedroom
- Please confirm what MFI level the affordable units will be set at
- If you want to obtain your Type 2 Level Bonus using your proximity to an Imagine Austin Corridor with transit, please provide a map that shows the property in relation to the nearest Imagine Austin Activity Corridor and transit routes. You can see the corridors and transit routes here: http://arcg.is/1DX8n1
- The question about how many units you are able to build with the Affordability Unlocked bonuses was left blank. Can you explain how Affordability Unlocked will help your project if it won't result in additional units?

We are also meeting with applicants since this program is so new, to make sure applicants understand the process and requirements and that we can coordinate with funding from our Development Assistance programs if applicable. Do you have any availability next week for a meeting? I'm available every day next week from 3 pm to 6 pm.
