Fiber is different – and getting it is too

Kansas City Fiberhoods
Community Connection Program

Eligibility-

Community Connections are intended for public or non-profit facilities whose primary purpose results in public participation in the services provided at the facility.

- Schools
- Libraries
- Community Centers
- Municipal Building
- Public Facilities

All sites must be within Austin City limits, and within qualifying fiberhoods.
Community Connections: Site Recommendations

• Framework
• Proposed Criteria for Site Selection
• Proposed Process for Site Selections
• Proposed Timeline for Site Recommendations from City of Austin to Google
Framework
The City is responsible for providing site recommendations to Google...

The goal is to develop a site application process that is

• Transparent
• Utilizes Clear Selection Criteria
• Efficient
• Available to all

...to ensure our community maximizes this opportunity
Proposed Criteria for Site Selections

Individual Site Considerations -

Community

- Will it enhance public participation in the entity’s service?
- Does it promote digital inclusion?
- Will it serve the underserved?
- How much of the community will benefit from the connections?
Proposed Criteria for Site Selections

Individual Site Considerations-

Innovation

• Are there potential innovative applications?
• Does the entity have or foresee high bandwidth applications?
• Does the entity have interest in advancing their technology?
• Does the entity have the capacity and resources to advance their technologies?
Proposed Criteria for Site Selections
Individual Site Considerations-

Pragmatic

- Will the connection help the entity financially?
- Will this be the entity’s primary or secondary connection?
- Does the entity have (or will they) have equipment necessary to connect?
- How long will the entity be at their current location?
Proposed Criteria for Site Selections

Collectively, the Site Selection List should-

- Be geographically dispersed
- Serve diverse populations by ethnicity, gender, age, and income
- Serve diverse sectors, e.g. public government services, education, social services, creative endeavors, health
Proposed Process for Site Selections

Adoption of Process & Criteria
- Community Tech & Telecommunications Commission (CTTC) Review & Comment
- Emerging Technology & Telecommunications Council Committee (ETT) Review & Comment
- Council Resolution Adopting Process & Criteria

Opportunity for Community Input

Community Applications
- Submissions
- Staff Review & Assessment

Site List Adoption
- CTTC Discussion & Input
- ETT Discussion & Recommendation to Council
- Council Discussion & Adoption of Community Connection Site List

Google
Proposed Timeline for Site Selection
Recommendations from the City to Google

**August 1**  Informational Session with Governmental and Educational Entities

**August 2**  Informational Session with Non-profits

### Adoption of Process & Criteria
- **August 14**  CTTC Discussion & Review of Process & Criteria
- **August 21**  ETT Discussion of Process & Criteria
- **August 22**  Council Resolution Adopting Process & Criteria

### Community Applications
- **August 26**  Community Site Applications Available
- **September 30**  Deadline for Site Applications for Community Connections
- **October 1-31**  Staff Review & Assessment

### Site List Adoption
- **Date to be determined**  CTTC Discussion & Input
- **November 13**  ETT Discussion & Recommendation to Council
- **November 21**  Council Discussion & Adoption of Community Connection Site List
- **End of Year**  Google requested Deadline for Community Connection Site List from City
Community Connections: The Product

- Understanding the Community Connections Product
- Commercially Reasonable Considerations
- Technical Offerings
- Getting Connected
Understanding the Community Connections Product

• All approved Community Connection sites will receive a free symmetric gigabit connection (up to 1 Gbps upload and 1 Gbps download)

• Fully dedicated Community Connections phone, email and chat support available 24 hours a day, 7 days a week, 365 days a year

• Next business day on-site response as needed if any service issues arise

• One Fiber Jack per Community Connection

• Google will provide this free connection for 10 years from the start of Google’s contract with the city

All information is current as of August 1, 2013. For most updated information, please refer to our website.
Commercially Reasonable Considerations

Google Fiber will cover the cost of commercially reasonable construction and installation expenses. This will be determined by:

1. The location of the site relative to Google Fiber’s network
2. The work that must be done on-site to route Google Fiber to the site’s preferred demarcation

All information is current as of August 1, 2013. For most updated information, please refer to our website.
Technical Offerings

- **IP Addresses:**
  - Dynamic Public IPv4 address
  - OR-
  - Up to 5 Static IP Address

  256 IPv^6 LAN addresses (/56)

- **Demarcation Options:**
  - Fiber Jack
  - Network Box (typically preferred by smaller locations who don’t have their own networking infrastructure in place)

---

*All information is current as of August 1, 2013. For most updated information, please refer to our website.*
Getting Connected

1. City will confirm site selection with each site. Installations will occur along other installations in the site’s fiberhood.

2. Google Account Rep will reach out to site’s contact to understand site requirements and discuss process prior to an onsite visit.

3. Site survey will be scheduled to evaluate set-up and if construction will be commercially reasonable.

4. Account Rep will send proposed design plan and terms of service to site for final approval.

5. Installation scheduled.

All information is current as of August 1, 2013. For most updated information, please refer to our website.
