

**Universal Recycling Ordinance Phase 2
Administrative Rules Development Process**

**Stakeholder Group Meeting #7
Hotel, Motel, and Lodging Industry**

October 7, 2013

Austin's Zero Waste Goal

What is Zero Waste?

Visionary goal to:

- Reduce consumption
- Minimize waste
- Maximize recycling

Ideally, products are made to be:

- Reused
- Repaired
- Recycled

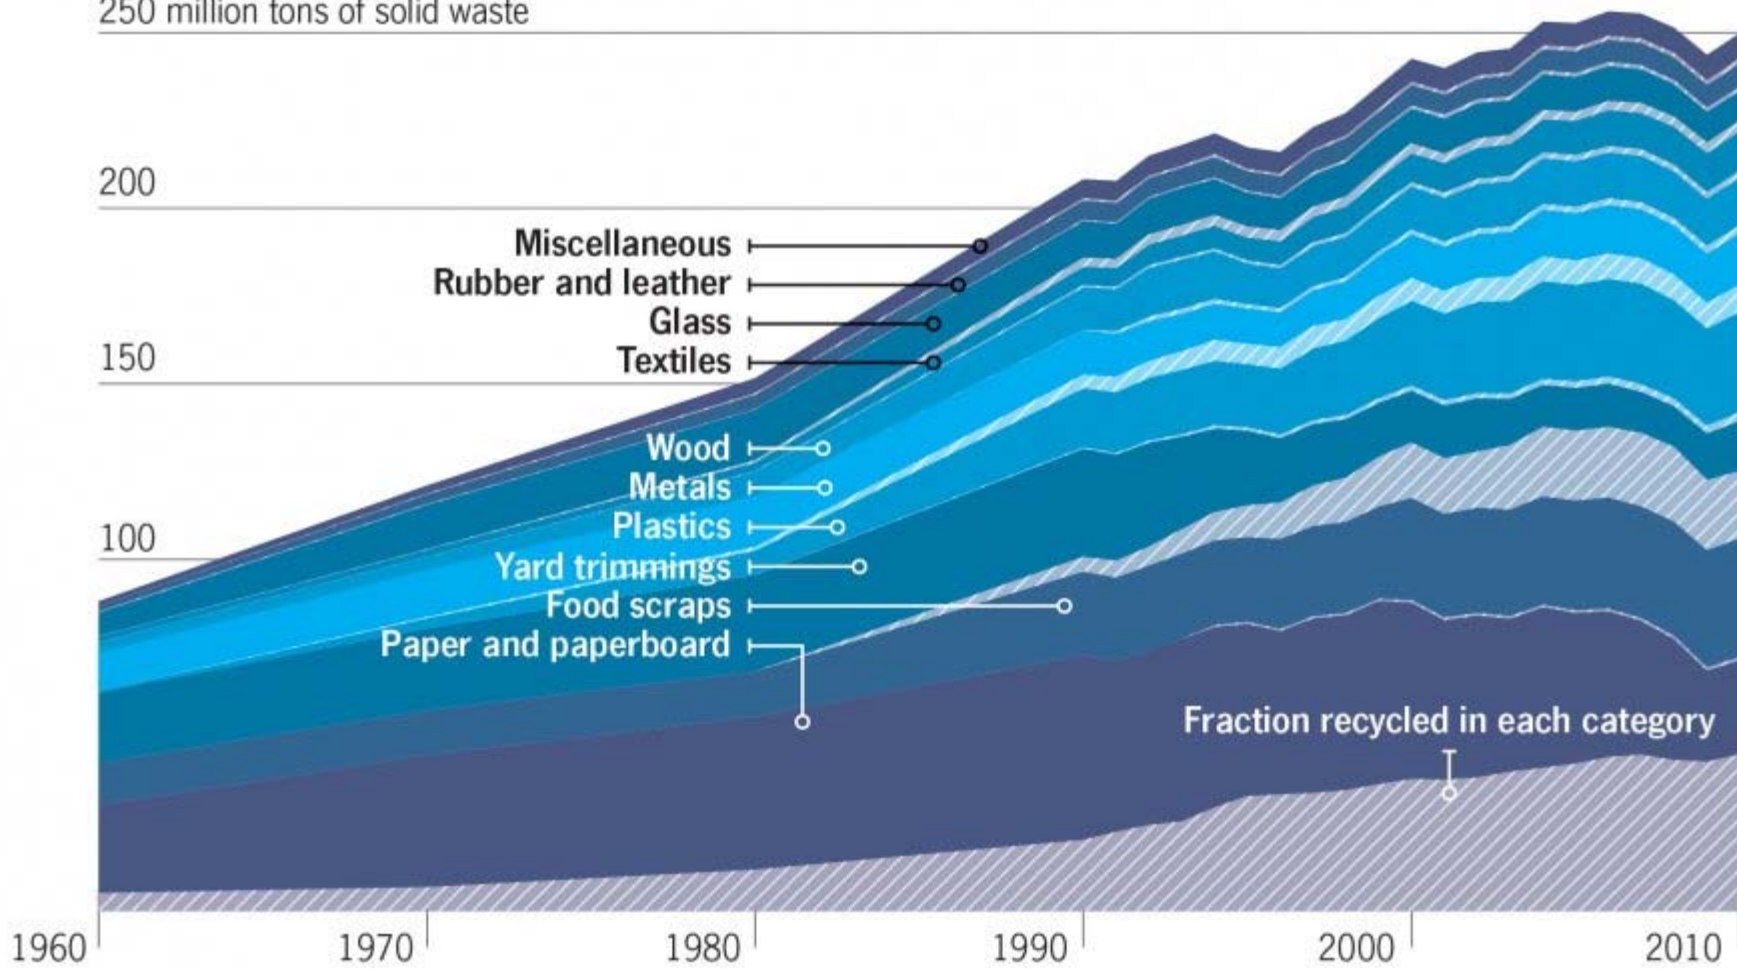

What is Zero Waste?

Designing a Full-Cycle System-Upstream and Downstream

Recycling Rates in the U.S.

250 million tons of solid waste

Single-Stream Processing

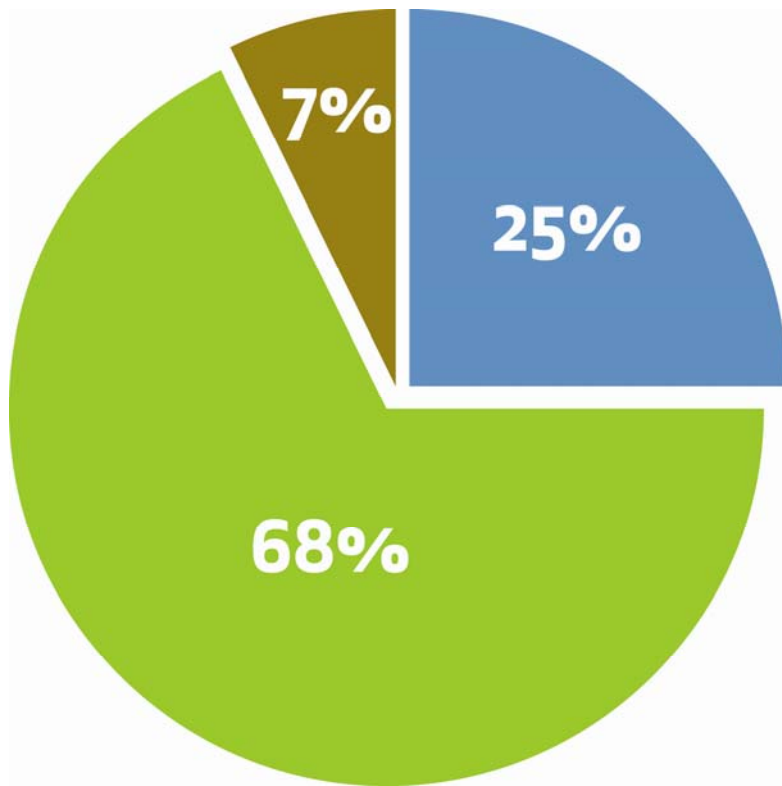

POPSCI THE FUTURE NOW

Popular Science magazine, August 2013

City & Private Sector Services

Hauler	Tons/yr	%
City of Austin	360,500	25%
Private Sector	976,100	68%
Self hauled	108,700	7%
Total	1,445,300	100%

Universal Recycling Ordinance

Intent of Ordinance

- Establish minimum recycling standards for Austin business community
- Make meaningful progress towards Austin's Zero Waste goal
- Ensure recycling is available and convenient for employees and tenants

URO Implementation

Effective Year (October 1)	Multifamily Properties (# Units)	Commercial Properties (Interior square feet)			
		Offices, Institutions	Retail, Industrial, and Food Service	Compost Programs at Food Service Businesses	
2012	>75*	>100,000*			
2013	>50*	>75,000*			
2014	>25*	>50,000*	>50,000		
2015	>10	>25,000*	>25,000		
2016	All	>5,000	>5,000		>5,000
2017		All	All		All

URO Implementation

As of 10/1/13, the URO ensures recycling for:

- 140,000 dwelling units
at 676 Multifamily Complexes
- ~100,000 employees
at 238 Office or Institutional Properties

URO Basic Requirements

Property owners, or designees, must ensure:

- Annual education
- Completed online Recycling Plan
- Clearly marked receptacles
- Sufficient service capacity
- Collection of 5 materials
