

IRRIGATION SYSTEM IMPROVEMENT REBATE COMMERCIAL / MULTI-FAMILY REBATE

Austin Water's **Irrigation System Improvement Rebate** helps commercial and multi-family customers with costs for purchasing a central computer irrigation controller system and other items to improve their new and/or existing irrigation system's water efficiency.

** Participants must submit application for pre-approval before buying or installing any equipment.*

WATER SAVINGS

- Makes it easier to follow the **water restrictions** and reduce over-watering
- Allows for easier and more frequent seasonal scheduling adjustments
- Remote monitoring helps to quickly detect and stop leaks when used with a flow meter
- Using a computer or mobile device to control irrigation helps avoid travel/time costs

REBATE AMOUNT

- **Central Computer Irrigation Controller System** – 50% of equipment cost per station, up to \$100 a station, up to \$10,000 (*appropriate flow sensor(s) must be installed*)
- **Flow Sensors** - \$300 each
- **Pressure Regulating Components** – 50% of equipment cost, up to \$1,500
- **Converting all nozzles in a station** from spray to multi-stream, multi-trajectory rotor nozzles - \$4 a nozzle, up to \$1,000
- **Master Valves** - \$100 each (*for systems installed before 2009 only*)

ELIGIBILITY

- **Applicant:**
 - o Must be a commercial or multi-family customer of Austin Water or a **qualifying water provider**
 - o Agrees to any needed pre- and post-installation inspections by Austin Water
 - o Willing to participate in a survey to evaluate program effectiveness
- **Irrigation System:**
 - o Must be in compliance with current **water restrictions** and **Commercial Facility Irrigation Assessment Program** requirements (*if applicable*)
 - o A licensed irrigator must perform the irrigation work (**Texas Administrative Code Chapter 344**)
 - o Upgrades may be to improve a new and/or existing irrigation system, including expansions of existing systems
 - o Central computer irrigation controller systems must have software, communication devices, and other technologies to remotely monitor/control the irrigation system
 - o Flow sensors must be able to communicate with the controller
 - o Master valve rebate is only available for irrigation systems installed before January 1, 2009
 - o Must have an appropriate backflow prevention device

IRRIGATION SYSTEM IMPROVEMENT REBATE COMMERCIAL/MULTIFAMILY APPLICATION

CHECKLIST

- Meet all eligibility requirements
- Submit application for pre-approval **before you buy or install any equipment** and include:
 - Completed [IRS Form W-9](#)
 - Send application materials to:
Mail: Austin Water Conservation, PO Box 1088, Austin, TX 78767
Email: watercon@austintexas.gov
Fax: 512-974-3504
- Austin Water staff will contact you to schedule a pre-installation inspection
- Wait to receive a pre-approval letter from Austin Water after the pre-inspection is complete
- Within 90 days** after Austin Water issues the pre-approval letter:
 - Buy materials and have a licensed irrigator install the system upgrades (*deadline may be extended only for significant unforeseen or extenuating situations*)
- Within 30 days** of completing work:
 - Contact Austin Water at 512-974-2199 to schedule a post-installation inspection
 - Submit the [Rebate Calculation Worksheet](#) and itemized **paid-in-full** receipts with vendor contact and payment information to Austin Water. **Charges for parts must be separated from labor costs**
- Wait 6-8 weeks for your Austin Water rebate check
