AUSTIN WATER

STANDARD PRODUCTS LIST

CHANGES SINCE THE LAST ISSUE

(This issue effective October 1, 2019)

SPL NO.	DESCRIPTION OF CHANGE
WW-27A	Changed title and content to apply to restraint devices used only on DI pipe. Moved all restraint devices exclusively for PVC pipe to repurposed SPL WW-308C. Moved Accucast's, Infact's, Sigma's, and Star's MJ x MJ adaptors to new SPL WW-27A-01. Added manufacturer Item Codes and Part Numbers specific to products meeting the pressure rating, color, protective coating, and material requirements. Removed Smith-Blair, Romac, and Tyler Union. Added Note 3.
WW-27A-01	New SPL.
WW-146	Aesthetically improved Offset Joint Detail on Sheet 3 of 3.
WW-219	Added Neenah Foundry Co.
WW-227	Removed headers for "Pipe Approved for Services Meeting Standard 520-AW-01" to reflect that all products on SPL WW-227 have now passed pressure testing to 150 psi in accordance with ASTM D3139 or D3212. Removed 'No. 7' under DESCRIPTION: "Pipe not meeting the 150 psi test requirement shall not be used for services meeting Standard 520-AW-01A" to reflect that all products on SPL WW-227 have now passed pressure testing to 150 psi in accordance with ASTM D3139 or D3212. Added Note 2.
WW-298	Edited and revised Description content and changed format. Removed Forterra Austin and Seguin and changed Forterra Hewitt mailing address to Lorena physical address. Changed Park Environmental to Park–USA and added 6' x 9' vault. Added Note 2.
WW-308C	This SPL used to cover C905 PVC pipe; however, C905 has been discontinued as an AWWA standard. All PVC pipe is now included in C900 and covered by SPL WW-308. WW-308C has been repurposed to list PVC pipe joint restraint products that were previously included on SPL WW-27A.
WW-462	Added H-TEC to the SPL. Revised ARI Flow Control from D-26 to D-025.
WW-509	Edited and changed organization of the Description. Changed US Composite Pipe South to Thompson Pipe Group. Added Note 1, edited Notes 2, 3, and 4, and renumbered 2, 3, and 4.
