Siloam Springs, AR 72761 | 4” through 12”  
See notes below | R. Lamb |

**NOTES:**

1. Material must comply with requirement of description above and be rated above design pressure. Acceptable sizes are 4”, 6”, 8”, 12”, and 16”.
2. Pipe with a whitened exterior (fading of color) that was manufactured more than two (2) years before the proposed installation date shall be rejected.
3. AWWA C900 water pipe shall not be used in easements on private property and shall not be used for wastewater force mains or to convey anything but potable water.
4. Changes in direction of PVC pipe shall only be by use of fittings or by deflecting straight pipe sections at joints.
5. Longitudinal bending of pipe is not allowed.
6. Deflection of pipe at fittings is not allowed.
7. Deflection of straight pipe sections shall not exceed 1 degree at each joint (even if joint restraint devices are installed), which corresponds to the following offset in pipe alignment:

<table>
